Approval and Promulgation of State Plans for Designated Facilities; Puerto Rico

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve the “State Plan” submitted by the Commonwealth of Puerto Rico to fulfill the requirements of sections 111(d)/129 of the Clean Air Act for Commercial and Industrial Solid Waste Incineration (CISWI) units. Specifically, the State Plan that EPA is proposing to approve, establishes emission limits for organics, carbon monoxide, metals, acid gases and particulate matter and compliance schedules for the existing CISWI units located in the Commonwealth of Puerto Rico which will reduce the designated pollutants. In the “Rules and Regulations” section of this **Federal Register**, EPA is approving Puerto Rico’s State Plan submittal, as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If EPA receives no adverse comments, EPA will not take further action on this proposed rule. If EPA receives adverse comments, EPA will withdraw the direct final rule and it will not take effect. EPA will address all public comments in a subsequent final rule based on this proposed rule. The EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Written comments must be received on or before December 1, 2003.

AGENCY: Environmental Protection
Agency (EPA).

ACTION: Proposed rule.

SUMMARY: EPA is proposing to
determine that the San Francisco Bay

I. Attainment Finding

A. Bay Area's Ozone Designations and State Implementation Plans

When the Clean Air Act (CAA)
Amendments were enacted in 1990,
each area of the country that was
designated nonattainment for the 1-hour
ozone National Ambient Air Quality
Standard (NAAQS), including the San
Francisco Bay Area ("Bay Area"), was
classified by operation of law as
marginal, moderate, serious, severe, or
extreme depending on the severity of
the area's air quality problem.¹ CAA
sections 107(d)(1)(C) and 181(a). The
Bay Area was classified as moderate.
See 56 FR 56694 (November 6, 1991).

EPA redesignated the Bay Area to
attainment in 1995, based on then
current air quality data (60 FR 27029,
May 22, 1995), and subsequently
redesignated the area back to
nonattainment without classification on
July 10, 1998 (63 FR 37258), following
renewed violations of the 1-hour ozone
standard. Upon the Bay Area's
redesignation to nonattainment, we
required the State to submit a state
implementation plan (SIP) addressing
applicable CAA provisions, including a
demonstration of attainment as

¹ The 1-hour ozone nonattainment area is the
"San Francisco-Bay Area," which comprises
Alameda, Contra Costa, Marin, Napa, San
Francisco, San Mateo, and Santa Clara Counties,
and portions of Solano and Sonoma Counties. See
40 CFR 81.305 ([http://www.access.gpo.gov/nara/
cfr/cfrhtml_00/Title_40/40cfr81_00.html](http://www.access.gpo.gov/nara/cfr/cfrhtml_00/Title_40/40cfr81_00.html)).

EPA's 1-hour ozone standard of 0.12 ppm was
promulgated in 1979 (44 FR 8202, February 8,
1979). On July 18, 1997, we promulgated a revised
ozone standard of 0.08 ppm, measured over an 8-
hour period. In general, the 8-hour standard is more
protective of public health and more stringent than
the 1-hour standard. This proposed finding
addresses only the 1-hour standard. Areas will be
designated attainment or nonattainment for the 8-
hour standard in 2004.

Ground-level ozone can irritate the respiratory
system, causing coughing, throat irritation, and
uncomfortable sensations in the chest. Ozone can
also reduce lung function and make it more difficult
to breathe deeply, thereby limiting a person's
normal activity. Finally, ozone can aggravate
asthma and can inflame and damage the lining of
the lungs, leading to permanent changes in lung
function. More details on ozone's health effects and
the ozone NAAQS can be found at the following
Web site: [http://www.epa.gov/ttn/naaqs/standards/
ozone/s_o3_index.html](http://www.epa.gov/ttn/naaqs/standards/ozone/s_o3_index.html).
