

deleted vaccinia virus," international PCT application PCT/US00/14679 (DHHS ref. no. E-181-1999/0-PCT-02) and entitled, "Combined growth factor-deleted and thymidine kinase-deleted vaccinia virus," and all corresponding foreign patent applications to JENNEREX Pharmaceuticals, of Mill Valley, California. The patent rights in these inventions have been assigned to the United States of America.

The prospective exclusive license territory will be worldwide. The field of use may be limited to the development of an oncolytic vaccinia virus vector for the treatment of recurrent squamous cell carcinoma of the head and neck ("SCCHN").

DATES: Only written comments and/or license applications which are received by the National Institutes of Health on or before April 14, 2003, will be considered.

ADDRESSES: Requests for copies of the patent(s)/patent application(s), inquiries, comments and other materials relating to the contemplated exclusive license should be directed to: Jonathan V. Dixon, Technology Licensing Specialist, Office of Technology Transfer, National Institutes of Health, 6011 Executive Boulevard, Suite 325, Rockville, MD 20852-3804; Telephone: 301.435.5559; Facsimile: 301.402.0220; E-mail: dixonj@od.nih.gov.

SUPPLEMENTARY INFORMATION: The above-referenced patent(s)/patent application(s) relate to mutant vaccinia virus expression vectors. The vaccinia vector claimed in this application is useful in that it is substantially non-replicating in non-dividing cells. The new vaccinia virus is deleted of both the growth factor gene and the thymidine kinase gene, which provides for its selective replication properties, and may be useful as a vector for cancer gene therapy or vaccination.

The prospective exclusive license will be royalty-bearing and will comply with the terms and conditions of 35 U.S.C. 209 and 37 CFR 404.7. The prospective exclusive license may be granted unless within sixty (60) days from the date of this published notice, the NIH receives written evidence and argument that establish that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR 404.7.

Applications for a license in the field of use filed in response to this notice will be treated as objections to the grant of the contemplated exclusive license. Comments and objections submitted to this notice will not be made available for public inspection and, to the extent permitted by law, will not be released

under the Freedom of Information Act, 5 U.S.C. 552.

Dated: February 4, 2003.

Jack Spiegel,

Director, Division of Technology Development and Transfer, Office of Technology Transfer.

BILLING CODE 4140-01-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Receipt of Applications for Permit

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of receipt of applications for permit.

SUMMARY: The public is invited to comment on the following applications to conduct certain activities with endangered species and/or marine mammals.

DATES: Written data, comments or requests must be received by March 13, 2003.

ADDRESSES: Documents and other information submitted with these applications are available for review, subject to the requirements of the Privacy Act and Freedom of Information Act, by any party who submits a written request for a copy of such documents within 30 days of the date of publication of this notice to: U.S. Fish and Wildlife Service, Division of Management Authority, 4401 North Fairfax Drive, Room 700, Arlington, Virginia 22203; fax 703/358-2281.

FOR FURTHER INFORMATION CONTACT: Division of Management Authority, telephone 703/358-2104.

SUPPLEMENTARY INFORMATION:

Endangered Species

The public is invited to comment on the following application(s) for a permit to conduct certain activities with endangered species. This notice is provided pursuant to section 10(c) of the Endangered Species Act of 1973, *as amended* (16 U.S.C. 1531, *et seq.*). Written data, comments, or requests for copies of these complete applications should be submitted to the Director (address above).

Applicant: Patrick Foley, Des Moines, IA, PRT-066739.

The applicant requests a permit to import the sport-hunted trophy of two male bontebok (*Damaliscus pygargus dorcas*) culled from a captive herd maintained under the management program of the Republic of South Africa,

for the purpose of enhancement of the survival of the species.

Applicant: Lee G. Lipscomb, Los Angeles, CA, PRT-066355.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus dorcas*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

Applicant: George C. Hoppert, Jr., Monroe, MI, PRT-066339.

The applicant requests a permit to import the sport-hunted trophy of one male bontebok (*Damaliscus pygargus dorcas*) culled from a captive herd maintained under the management program of the Republic of South Africa, for the purpose of enhancement of the survival of the species.

The U.S. Fish and Wildlife Service has information collection approval from OMB through March 31, 2004, OMB Control Number 1018-0093. Federal agencies may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a current valid OMB control number.

Dated: January 10, 2003.

Michael S. Moore,

Senior Permit Biologist, Branch of Permits, Division of Management Authority.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice To Extend the Public Comment Period for the Draft Recovery Plan for Three of the Five Distinct Population Segments of Bull Trout (*Salvelinus confluentus*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of extension of public comment period.

SUMMARY: We, the U.S. Fish and Wildlife Service, give notice that the comment period announced in the November 29, 2002, (67 FR 74139) Notice of Availability of 25 chapters of the Draft Recovery Plan for Three of the Five Distinct Population Segments of the Bull Trout (*Salvelinus confluentus*) will be extended an additional 30 days until March 29, 2003. Substantial public interest in the draft recovery plan led us to distribute additional copies and to provide additional opportunities for the public to comment on the plan.

Bull trout are char which are native to the Pacific northwest and western Canada. We identified five distinct population segments of bull trout in five States (Idaho, Montana, Nevada, Oregon, and Washington), and listed the fish under the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*) by distinct population segments during 1998 and 1999. The final listing resulted in all bull trout in the coterminous United States being listed as threatened. At this time, the draft recovery plan addresses three of the five distinct population segments, the Klamath, Columbia, and St. Mary-Belly Rivers. Draft recovery plan chapters for the remaining distinct population segments will become available for public review in approximately 1 year.

Because bull trout in the coterminous United States are widely distributed within a large area, the recovery plan is organized into multiple chapters. The introductory chapter (Chapter 1) discusses programmatic issues that broadly apply to bull trout in the coterminous United States. This chapter describes our range-wide recovery strategy for bull trout and identifies recovery tasks applicable to bull trout in general. Each following chapter focuses on bull trout in specific areas (*i.e.*, recovery units), and describes habitat conditions, defines recovery objectives and criteria, and identifies specific recovery tasks for a particular recovery unit. We have identified 27 recovery units in the 5 distinct population segments of bull trout. This notice of extension of public comment period concerns the introductory chapter (Chapter 1) and the 24 recovery unit chapters within the 3 distinct population segments mentioned above.

DATES: We will consider comments on the 25 chapters of the draft recovery plan for bull trout received on or before March 29, 2003.

ADDRESSES: The document is available online at <http://pacific.fws.gov/bulltrout>. Copies of the 25 chapters of

the draft recovery plan are available for inspection, by appointment, during normal business hours at the following locations: Snake River Fish and Wildlife Office, U.S. Fish and Wildlife Service, 1387 S. Vinnell Way, Suite 368, Boise, Idaho 83709 (phone: 208-378-5243); Montana Field Office, U.S. Fish and Wildlife Service, 100 N. Park, Suite 320, Helena, Montana 59601 (phone: 406-449-5322); Nevada Fish and Wildlife Office, U.S. Fish and Wildlife Service, 1340 Financial Blvd., Suite 234, Reno, Nevada 86502 (phone: 775-867-6300); Oregon Fish and Wildlife Office, U.S. Fish and Wildlife Service, 2600 SE. 98th Ave., Suite 100, Portland, Oregon 97266 (phone: 503-231-6179); and Western Washington Fish and Wildlife Office, U.S. Fish and Wildlife Service, 510 Desmond Dr., SE., Suite 102, Lacey, Washington 98503 (phone: 360-753-9440). Requests for copies of the document should be addressed to these offices, as appropriate.

Comments may be submitted electronically to us at the following email address:

FW1SRBOComments@fws.gov. The subject line must state "Bull Trout Comments," and include the name and address of the person submitting the comments. Written comments may be sent directly to the Supervisor, U.S. Fish and Wildlife Service, Snake River Fish and Wildlife Office, 1387 S. Vinnell Way, Room 368, Boise, Idaho 83709. Comments may also be submitted by facsimile to 208-378-5262; please state in the subject line "Bull Trout Comments," and include the name and address of the person submitting the comments.

FOR FURTHER INFORMATION CONTACT: Jeri Wood, Fish and Wildlife Biologist, 1387 S. Vinnell Way, Room 368, Boise, Idaho 83709 (phone: 208-378-5243).

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants is a primary goal of our endangered species program and the Act. A species is considered recovered when the species' ecosystem is restored and/or threats to the species are removed so that self-sustaining and self-regulating populations of the species can be supported as persistent members of native biotic communities. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for downlisting or delisting listed species, and estimate time and cost for implementing the measures needed for recovery.
