**SUPPLEMENTARY INFORMATION:**

- I. Background on the Alabama Program
- II. Submission of the Amendment
- III. OSM's Findings
- IV. Summary and Disposition of Comments
- V. OSM's Decision
- VI. Procedural Determinations

**I. Background on the Alabama Program**

Section 503(a) of the Act permits a State to assume primacy for the

regulation of surface coal mining and reclamation operations on non-Federal and non-Indian lands within its borders by demonstrating that its State program includes, among other things, “a State law which provides for the regulation of surface coal mining and reclamation operations in accordance with the requirements of this Act \* \* \*; and rules and regulations consistent with regulations issued by the Secretary pursuant to this Act.” See 30 U.S.C. 1253(a)(1) and (7). On the basis of these criteria, the Secretary of the Interior conditionally approved the Alabama program on May 20, 1982. You can find background information on the Alabama program, including the Secretary's findings, the disposition of comments, and the conditions of approval, in the May 20, 1982, **Federal Register** (47 FR 22030). You can find later actions on the Alabama program at 30 CFR 901.10, 901.15, and 901.16.

**II. Submission of the Amendment**

By letter dated October 17, 2002 (Administrative Record No. AL-0654), Alabama sent us an amendment to its program under SMCRA (30 U.S.C. 1201 *et seq.*). Alabama sent the amendment at its own initiative. Alabama proposed to revise the following provisions of the Alabama Surface Mining Commission (ASMC) rules: 880-X-1B, forms and 880-X-6A-.06, license application requirements.

We announced receipt of the proposed amendment in the January 16, 2003, **Federal Register** (68 FR 2263). In the same document, we opened the public comment period and provided an opportunity for a public hearing or meeting on the adequacy of the amendment. The public comment period closed on February 18, 2003. Because no one requested a public hearing or meeting, we did not hold one. We did not receive any comments.

**III. OSM's Findings**

Following are the findings we made concerning the amendment under SMCRA and the Federal regulations at 30 CFR 732.15 and 732.17. We are approving the amendment as described below.

**A. ASMC 880-X-1B Forms.**

ASMC 880-X-1B lists the forms used in the operations and organization of the Alabama Surface Mining Commission. Alabama proposed to revise its list of forms by deleting some of the existing forms that are no longer used, revising the titles of other existing forms to clarify their use, and adding some new forms.
