I. Introduction

1. In this *Notice of Proposed Rulemaking*, the Commission proposes to collect \$269,000,000 in regulatory fees for Fiscal Year (FY) 2003. These fees are mandated by Congress and are collected to recover the regulatory costs associated with the Commission's enforcement, policy and rulemaking, user information, and international activities.¹

II. Discussion

A. Development of FY 2003 Fees

i. Calculation of Revenue and Fee Requirements

2. Each fiscal year, the Commission proportionally allocates the total amount that must be collected via regulatory fees (Attachment C).² For FY 2003, this allocation was done using FY 2002 revenues as a base. From this base, a revenue amount for each fee category was calculated. Each fee category was then adjusted upward by 23 percent to reflect the increase in regulatory fees from FY 2002 to FY 2003. These FY 2003 amounts were then divided by the number of payment units in each fee category to determine the unit fee.³ In

¹ 47 U.S.C. 159(a).

² The costs assigned to each service category are based upon the regulatory activities (enforcement, policy and rulemaking, user information, and international activities) undertaken by the Commission on behalf of units in each service category. It is important to note that the required increase in regulatory fee payments of approximately 23 percent in FY 2003 is reflected in the revenue that is expected to be collected from each service category. Because this expected revenue is adjusted each year by the number of units in a service category, the actual fee itself is sometimes increased by a number other than 23 percent. For example, in industries where the number of units is declining and the expected revenue is increasing, the impact on the fee increase may be greater.

³ In most instances, the fee amount is a flat fee per licensee or regulatee. However, in some instances the fee amount represents a unit subscriber fee (such as for Cable, Commercial
