

number of respondents, frequency of response, and hours of response; (9) whether the proposal is new, an extension, reinstatement, or revision of an information collection requirement; and (10) the name and telephone number of an agency official familiar with the proposal and of the OMB Desk Officer for the Department.

This Notice also lists the following information:

Title of Proposal: Home Mortgage Disclosure Act (HMDA) Loan/ Application Register.

OMB Approval Number: 2502-0539.

Form Numbers: FR HMDA-LAR.

Description of the Need for the Information and Its Proposed Use:

This report collects information from mortgage lenders on application for, and originations and purchases of mortgage and home improvement loans. None-

depository mortgage lending institutions are required to use the report as a running log throughout the calendar year, and send the report to HUD by March 1 of the following calendar year.

Respondents: Business or other for-profit.

Frequency of Submission: On occasion and annually.

REPORTING BURDEN

Number of respondents	Annual responses	×	Hours per response	=	Burden hours
1,800	1		98.6		177,777

Total Estimated Burden Hours: 177,777.

Status: Extension of a currently approved collection.

Authority: Section 3507 of the Paperwork Reduction Act of 1995, 44 U.S.C. 35, as amended.

Dated: March 28, 2003.

Wayne Eddins,

*Departmental Reports Management Officer,
Office of the Chief Information Officer.*

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Information Collection Renewal To Be Submitted to the Office of Management and Budget (OMB) for Approval Under the Paperwork Reduction Act; Declaration for Importation or Exportation of Fish or Wildlife

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice; request for comments.

SUMMARY: The U.S. Fish and Wildlife Service (We) will submit the collection of information described below to OMB for approval under the provisions of the Paperwork Reduction Act of 1995. If you wish to obtain copies of the information collection requirements, related forms, or explanatory material, contact the Service Information Collection Clearance Officer at the address or telephone number listed below.

DATES: We will accept comments until June 2, 2003.

ADDRESSES: Mail your comments on this information collection renewal request to Anissa Craghead, Information Collection Clearance Officer, U.S. Fish and Wildlife Service, ms 222-ARLSQ, 4401 North Fairfax Drive, Arlington, VA 22203; or e-mail Anissa_Craghead@fws.gov.

Form 3-177 (with instructions for its completion) is available for electronic submission at the following Web site: <https://edecs.fws.gov>.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection requirements, related forms, or explanatory material, contact Anissa Craghead at telephone number (703) 358-2445, or electronically at Anissa_Craghead@fws.gov.

SUPPLEMENTARY INFORMATION: OMB regulations at 5 CFR 1320, which

implement provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities (see 5 CFR 1320.8(d)).

We will submit a request to OMB to renew its approval of the collection of information included on Form 3-177, Declaration For Importation or Exportation of Fish or Wildlife. The current OMB control number for Form 3-177 is 1018-0012, and the OMB approval for this collection of information expires on October 31, 2003. This form (with instructions for its completion) is now available for electronic submission at the following Web site: <https://edecs.fws.gov>. We are requesting a three year term of approval for this information collection activity. We may not conduct or sponsor, and you are not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The Endangered Species Act (16 U.S.C. 1531 *et seq.*) makes it unlawful to import or export fish, wildlife, or plants without filing a declaration or report deemed necessary for enforcing the Act or upholding the Convention on International Trade in Endangered Species (CITES) (see 16 U.S.C. 1538(e)). The U.S. Fish and Wildlife Service's Form 3-177, Declaration for Importation or Exportation of Fish or Wildlife, is the declaration form required of any business or individual importing into or exporting from the United States any fish, wildlife, or wildlife products. The information collected is unique to each wildlife shipment and enables us to accurately inspect the contents of the shipment; enforce any regulations that pertain to the fish, wildlife, or wildlife products contained in the shipment; and maintain records of the importation

and exportation of these commodities. Additionally, since the United States is a member of CITES, much of the collected information is compiled in an annual report that is forwarded to the CITES Secretariat in Geneva, Switzerland. Submission of an annual report on the number and types of imports and exports of fish, wildlife, and wildlife products is one of our treaty obligations under CITES. We also use the information obtained from Form 3-177 as an enforcement tool and management aid in monitoring the international wildlife market and detecting trends and changes in the commercial trade of fish, wildlife, and wildlife products. Our Division of Scientific Authority and Division of Management Authority use this information to assess the need for additional protection for native species. In addition, nongovernment organizations, including the commercial wildlife community, request information from us that we obtain from Form 3-177.

You must file Form 3-177 with us at the time and port where you request clearance of your wildlife import or export. In certain instances, Form 3-177 may be filed with the U.S. Customs Service. The standard information collection includes the name of the importer or exporter and broker, the scientific and common name of the fish or wildlife, permit numbers (if a permit is required), a description of the fish or wildlife, quantity and value of the fish or wildlife, and natural country of origin of the fish or wildlife. In addition, certain information, such as the airway bill or bill of lading number, the location of the fish or wildlife for inspection, and the number of cartons containing fish or wildlife, assists our wildlife inspectors if a physical examination of the shipment is required.

Title: Declaration for Importation or Exportation of Fish or Wildlife.

Approval Number: 1018-0012.

Service Form Number: 3-177.

Frequency of Collection: Whenever clearance is requested for an importation or exportation of fish, wildlife, or wildlife products.

Description of Respondents: Businesses or individuals that import or export fish, wildlife, or wildlife products; scientific institutions that import or export fish or wildlife scientific specimens; government agencies that import or export fish or wildlife specimens for various purposes.

Total Annual Responses: Approximately 116,000 individual Form 3-177s are filed with us in a fiscal year.

Total Annual Burden Hours: The total annual burden is approximately 22,601 hours. We estimate the reporting burden to average 14 minutes per response when completed by hand. We estimate that approximately one-third (33%) of responses received will be submitted electronically, with a reporting burden of about seven minutes per response for electronic submissions. The estimate of electronic responses we expect to receive is based upon a recent pilot program of the electronic declaration (eDecs) system. We anticipate that the use of the eDecs system will expand in the future, which would further reduce the burden on the public.

We invite comments concerning this renewal on: (1) Whether the collection of information is useful and necessary for us to do our job, (2) the accuracy of our estimate of the burden on the public to complete the form; (3) ways to enhance the quality and clarity of the information to be collected; and (4) ways to minimize the burden of the collection on respondents, including use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology. This information collection is part of a system of records covered by the Privacy Act (5 U.S.C. 552(a)).

Our practice is to make comments, including names and home addresses of respondents, available for public review during regular business hours. Individual respondents may request that we withhold their home addresses from the record, which we will honor to the extent allowable by law. There may also be limited circumstances in which we would withhold a respondent's identity from the rulemaking record, as allowable by law. If you wish us to withhold your name and/or address, you must state this clearly at the beginning of your comment. We will not consider anonymous comments. We generally make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public inspection in their entirety.

Dated: March 11, 2003.

Anissa Craghead,

Information Collection Officer, Fish and Wildlife Service.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

Notice of Availability of the Final Revised Recovery Plan for the Southern Sea Otter (*Enhydra lutris nereis*)

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of document availability.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of the final revision of the southern sea otter recovery plan. This species occurs along the central coast of California from Half Moon Bay south to Point Conception.

ADDRESSES: Copies of the final revised recovery plan are available by written request addressed to the Field Supervisor, Ventura Fish and Wildlife Office, 2493 Portola Road, Suite B, Ventura, California 93003. Recovery plans may also be obtained from: Fish and Wildlife Reference Service, 5430 Grosvenor Lane, Suite 110, Bethesda, Maryland 20814, 301-429-6403 or 1-800-582-3421. The fee for the plan varies depending on the number of pages of the plan. This final revised recovery plan will be made available on the World Wide Web at <http://www.r1.fws.gov/ecoservices/Endangered/recovery/default.htm>.

FOR FURTHER INFORMATION CONTACT: Carl Benz at the above Ventura address (telephone 805-644-1766).

SUPPLEMENTARY INFORMATION:

Background

Recovery of endangered or threatened animals and plants is a primary goal of our endangered species program and the Endangered Species Act (Act) (16 U.S.C. 1531 *et seq.*). A species is considered recovered when the species' ecosystem is restored and/or threats to the species are removed so that self-sustaining and self-regulating populations of the species can be supported as persistent members of native biotic communities. Recovery plans describe actions considered necessary for the conservation of the species, establish criteria for downlisting or delisting listed species, and estimate the time and costs of implementing recovery actions.

The Act requires the development of recovery plans for listed species unless such a plan would not promote the conservation of a particular species. Section 4(f) of the Act requires that public notice and an opportunity for public review and comment be provided during recovery plan development. Information presented during the public
