SUPPLEMENTARY INFORMATION: We are notifying the public that the 2002 revision of the Criteria is final. Section 3405(e) of the CVPIA (Title 34 Pub. L. 102-575), requires the Secretary of the Interior to establish and administer an office on Central Valley Project water conservation best management practices (BMPs) that shall develop Criteria for evaluating the adequacy of all Plans developed by project contractors, including those Plans required by section 210 of the RRA. Also, according to section 3405(e)(1), the Criteria must be developed “* * * with the purpose of promoting the highest level of water use efficiency reasonably achievable by project contractors using best available cost-effective technology and best management practices.”

The Criteria states that all parties (Contractors) that contract with Reclamation for water supplies (except any contractor who receives under 2,000 acre feet, municipal and industrial contracts under 3,300 people served, and agricultural contracts under 2,000 irrigable acres) must prepare Plans that contain the following information:

1. Description of the District
2. Inventory of Water Resources
3. BMPs for Agricultural Contractors
4. BMPs for Urban Contractors
5. Plan Implementation
6. Exemption Process
7. Regional Criteria
8. Five-Year Revisions

Reclamation will evaluate Plans based on the Criteria. The CVPIA requires Reclamation to evaluate, and revise if necessary, the Criteria every 3 years. The Criteria were previously revised in 1996 and 1999.

Public comment on revision of the 2002 Criteria was received and generally incorporated. No significant changes were made to the draft Criteria. A copy can be found at the following Web site: <http://www.mp.usbr.gov/watershare/documents/files/cvpia/final2002cvpiacriteria.pdf>.
