[STB Finance Docket No. 34244]

Portland & Western Railroad, Inc.—Lease and Operations Exemption—The Burlington Northern and Santa Fe Railway Company

Portland & Western Railroad, Inc. (P&WR), a Class III rail carrier, has filed a verified notice of exemption under 49 CFR 1150.41 to lease and operate approximately 76.75 miles of rail line currently owned and operated by The Burlington Northern and Santa Fe Railway Company (BNSF) from milepost 64.70 located between Quinaby and Salem, OR, to the End of Track at milepost 141.45 near Eugene, OR.¹ In comments filed December 23, 2002, the Oregon Department of Transportation generally supports the transaction.

P&WR certifies that is projected annual revenues will not exceed those that would qualify it as a Class III rail

¹ Originally, as part of the transaction, P&WR stated that it intended to grant what it called "incidental" overhead trackage rights to BNSF over the rail line between Bush (milepost 68.6) and Albany (milepost 96.5), and to Central Oregon & Pacific Railroad, Inc. (CORP), between Albany (milepost 96.5) and Eugene (milepost 141.5). Based upon a decision served on December 12, 2002 (December 12 decision), which questioned whether the trackage rights were incidental to the transaction, BNSF, on December 20, 2002, filed a separate trackage rights notice of exemption, accompanied by a motion to dismiss, in STB Finance Docket No. 34304, *The Burlington Northern and Santa Fe Railway Company—Trackage Rights Exemption—The Portland & Western Railroad, Inc.*, and P&WR, on December 23, 2002, withdrew its request to grant trackage rights to CORP. Also on December 23, 2002, John D. Fitzgerald, on behalf of the United Transportation Union-General Committee of Adjustment, filed a petition for stay of both exemptions, which was denied in *Portland & Western Railroad, Inc.—Lease and Operation Exemption—The Burlington Northern and Santa Fe Railway Company*, STB Finance Docket No. 34255, *et al.* (STB served Dec. 26, 2002.)
