

Boston, Massachusetts. The project sponsor, the Massachusetts Bay Transportation Authority (MBTA), has announced its intention not to pursue the project at this time for lack of financial resources.

FOR FURTHER INFORMATION CONTACT:

Richard H. Doyle, Regional Administrator, FTA Region 1, (617) 494-2055.

SUPPLEMENTARY INFORMATION: On March 8, 1995, FTA published a Notice of Intent (NOI) to prepare an EIS for a North-South Rail Link (60 FR 12819): a rail-in-tunnel connection between the MBTA's North and South Stations in downtown Boston, intended to connect the MBTA's separate commuter rail systems on the north and south sides of Boston and to close the gap in intercity rail service between Boston and Portland, Maine. On April 14, 2003, however, the MBTA informed FTA of its intention to forego this project in the near future in light of the MBTA's limited financial resources and its pursuit of certain other projects of higher priority. In response, on May 30, 2003, FTA recommended that the results of the MBTA's alternatives analyses to date be compiled as a Major Investment Study (MIS): a document that could provide an appropriate planning context for further consideration of alternatives for a North-South Rail link. In accordance with FTA's metropolitan planning requirements at 23 CFR part 450, an MIS may precede the preparation of an EIS and be a useful tool for developing local consensus, financing, and an implementation strategy for a fixed guideway transit project. Thus, on June 24, 2003, the MBTA published an MIS for the North-South Rail Link, which had been prepared with financial assistance from FTA. Should the MBTA choose in the future to again pursue a North-South Rail Link, this June 2003 MIS could serve as a foundation of analysis for a subsequent EIS. Given the MBTA's current intentions, however, there is no longer a proposal for Federal action on the North-South Rail Link subject to the requirements of the National Environmental Policy Act, therefore, FTA is rescinding its March 8, 1995 NOI and terminating its preparation of an EIS for the North South Rail Link.

Issued on: June 27, 2003.

Richard H. Doyle,

Regional Administrator.

Title: 49 CFR Part 574, Tire Identification and Recordkeeping.

OMB Control Number: 2127-0050.

Type of Request: Request for public comment on a previously approved collection of information.

Abstract: Each tire manufacturer is required to collect and maintain records of the names and addresses of the first purchasers of new tires. To carry out this mandate, 49 CFR part 574 requires tire dealers and distributors to record the names and addresses of retail purchasers of new tires and the identification number(s) of the tires sold. A specific form is provided to tire dealers and distributors by tire manufacturers for recording this information.

The completed forms are returned to the tire manufacturers where they are to remain for three years after the date received by the manufacturer. Additionally, motor vehicle manufacturers were required to record the names and addresses of the first purchasers of new motor vehicles, together with the identification numbers of the tires on the new vehicles.

Affected Public: Business or other for-profit.

Estimated Total Annual Burden: 245,000 hours.

ADDRESSES: Send comments, within 30 days, to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention NHTSA Desk Officer.

Comments Are Invited on

- Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility.
- Whether the Department's estimate for the burden of the proposed information collection is accurate.
- Ways to minimize the burden of the collection of information or reduce the costs for collecting the required information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is most effective if OMB receives it within 30 days of publication.
