OMB Number: 1660-0067.

Abstract: FEMA provides assistance for fire suppression of forest or grassland fires, which threatens destruction to life and/or improved property as would constitute a major disaster under Fire Suppression Assistance Program (FSAP). FEMA Form 20-10, Financial Status Report, is used by the Grantee during the closeout process to provide FEMA with a final reporting of costs under the FSAP. FEMA Form 90-91, Project Worksheet, is prepared by FEMA and State staff working with the Principal Advisor. Standard Form (SF) 424, Request for Federal Assistance, is used by the State to apply for a grant under the fire suppression assistance declaration. Standard Form 270, Request for Advance or Reimbursement, is used by the State as an alternative to SMARTKLINK II to receive funds. In addition, under section 420 of the Stafford Act there must be a FEMA-State Agreement. Also, a State Administrative Plan must be developed by the State for the Administration of a Fire Suppression Assistance Grant. The plan must designate the State agency that will be responsible for the administration of the program, describe the procedures for the administration of the fire suppression grant, and ensure compliance with the law and regulation applicable to (FSA) grants and ensure the administrative plan is incorporated into the State Emergency Plan. Applicants are required to notify FEMA of all benefits, actual or anticipated, received from other sources for the loss for which they are applying to FEMA for assistance. The State may appeal any cost or eligibility determination under the approved declaration within 60 days after receipt of the notice of action being appealed.
