SUPPLEMENTARY INFORMATION:
Title: Airline Industry Conditions and Air Carriers, 49 U.S.C. 40113 and 41708.
OMB Control Number: 2105-0550.

Type of Request: Extension without change, of a previously approved collection.

Abstract: The Department of Transportation is collecting from major air carriers a variety of information about their economic performance. The purpose of this collection is to permit the Department to monitor the effects of the war in Iraq on the airlines. The Department needs to be able to monitor industry development and to use its authority as appropriate to address industry problems arising during the war.

By Order 2003-4-12, issued April 16, 2003, DOT imposed certain reporting requirements on thirteen airlines, on a twice-weekly basis, through June 2003. By this action, DOT is extending these requirements through September 30, 2003, but limiting submissions to once a week. While the war in Iraq has ended, the industry's poor operating results continued well past the cessation of major military operations. While there are recent preliminary indications that the airline industry is now stabilizing, the progress of recovery to date is not adequate to remove concerns about the industry's financial status and DOT finds it appropriate to continue our monitoring activities, to confirm that recovery continues unabated.

Respondents: Air Carriers.
Estimated Number of Respondents: 13.
