Fiscal Year 2003 Discretionary Announcement for Head Start—Higher Education Hispanic/Latino Service Partnerships

Part I. Purpose and Background

A. Purpose

Through this announcement, the Administration on Children, Youth and Families (ACYF) is making available up to \$1,500,000 annually for each of five (5) years to support Head Start "Higher Education Hispanic/Latino Service Partnerships (HS–HEHLSPs), which will be awarded through a competitive process. The HS–HEHLSPs initiative was developed in response to the White House Initiative on Hispanic Education. The purpose of HS–HEHLSPs is to improve the quality and long term effectiveness of Head Start and Early Head Start programs by developing

academic and other training models through partnerships between institutions of higher education and Head Start/Migrant Head Start/Early Head Start agencies. The institutions of higher education that will be funded under this initiative, together with currently funded HS-HEHLSPs, will form a consortium to share methods, approaches, experiences, and lessons learned. The consortium is a partner of the Head Start National Training and Technical Assistance (T&TA) network in providing assistance to Head Start/ Migrant Head Start/Early Head Start grantees. Proposed partnership agreements are expected to be designed to benefit both the institutions of higher education and the participating Head Start/Migrant Head Start/Early Head Start grantees. Moreover, proposed partnerships are expected to reflect the unique training needs of participating Head Start grantees, including the provision of training that is accessible and responsive to trainees.

B. Background

The overall goal of Head Start is to enhance the healthy development and school readiness of children from lowincome families. In order to accomplish this goal, Head Start provides comprehensive services to low-income children and their families. Head Start enhances children's physical, intellectual, social, and emotional development. It supports parents in their efforts to fulfill their parental roles and provides for their involvement in implementing the Head Start program.

In an attempt to ensure quality services to low-income children and their families, Head Start has conducted many demonstration projects, provided grantees with training and technical assistance, and given grantees funds to implement their own training efforts. For example, Head Start supported the creation of the Child Development Associate (CDA) credential designed for early childhood development teaching staff. Head Start also implemented the Head Start Partnerships with Historical Black Colleges and Universities (HBCUs), the Head Start Partnerships with Tribally Controlled Land Grant Colleges and Universities (TCUs), and other innovative training and staff development projects.

In the 1998 reauthorization of the Head Start Act, a key priority of Congress and the Administration was to continue to improve Head Start program quality and accountability. A number of provisions were included in the new law to achieve these goals, including new education performance standards and measures, expansion of program monitoring to incorporate evidence of progress on outcome-based measures, expanded funding to upgrade program quality and staff compensation, and higher education standards for Head Start teachers. Among these provisions is the requirement that, by September 30, 2003, at least half of all Head Start teachers in center-based programs nationwide must have an AA, BA, or advanced degree in Early Childhood Education (ECE), or in a related field with pre-school teaching experience. A degree in a field related to early childhood education means a program of study that includes six or more courses in early childhood education and/or child development. Teachers who have degrees in related fields must also have experience teaching preschool children.

The Head Start Bureau is providing a variety of forms of assistance to local Head Start programs to implement these new legislative mandates. For example, to support increasing the numbers of teachers with degrees in early childhood education, grantees received \$43,000,000 in funding in Fiscal Year 2000 to increase teacher salaries and expand access to higher education courses and degree programs. Additionally, all Head Start grantees are allowed to use a portion of program funds awarded to provide staff development training to all Head Start staff.

In addition to these efforts, Head Start-State Collaboration Offices and training and technical assistance providers will help Head Start programs work with institutions of higher education on challenges such as linking training obtained in conjunction with the Child Development Associate credential with academic credit and courses leading to AA and BA degrees in early childhood education.

In January 2001, the President signed into law the "No Child Left Behind Act" to make the education of every child in America one of the country's top priorities. The Act seeks to ensure that public schools teach children what they need to know to be successful in life and that they also set high standards. In his 2002 State of the Union address, the President indicated the need to prepare our children to read and succeed in school, including the improvement of Head Start and early childhood development programs. In response to these goals, the White House has developed an early childhood initiative, which is built on raising the bar for Head Start Education through researched methods that create a better learning environment and improve outcomes for children. In his

announcement of the Good Start, Grow Smart Early Childhood Initiative in April 2002, the President identified children's early literacy as a key focus for Head Start program improvement. In this initiative, the President presented three areas of focus for Head Start: (1) Strengthening Head Start programs; (2) partnering with states to improve early childhood education, and (3) providing information to teachers, caregivers, and parents. The Head Start Bureau quickly responded to the President's mandate by developing the Strategic Teacher Education Project (STEP) in June 2002. The purpose of Project STEP is to ensure that all Head Start teachers engage in research-based strategies to support children's early literacy and positive social and emotional development, which, in turn, will lead to positive child outcomes and school readiness.

Under this announcement, HEHLSPs must form a partnership with one or more Head Start/Migrant Head Start/ Early Head Start grantees or delegate agencies, to develop age-appropriate and culturally appropriate curriculums and provide education and/or training to Head Start staff. The partnership agreements must be beneficial to both the HEHLSPs and the participating Head Start grantees.

All project applications must address one of the following priority areas:

1. Partnerships to increase the number of center-based teachers with two-year and four-year degrees in early childhood education, and

2. Partnerships to increase the competency of Head Start staff in building quality Head Start programs, particularly in enhancing language development, early literacy, and socialemotional development, as well as assessing child outcomes. The area of early literacy includes supporting non-English speaking children in making progress in both the home language and English.

Part II. Program Information and Requirements

A. Statutory Authority

The Head Start Act, as amended, 42 U.S.C. 9801 *et seq.*

B. Eligible Applicants

Institutions, including faith-based institutions, of higher education with experience and capability in educating and preparing professionals to work effectively with Hispanic/Latino young children and families are eligible to apply. Institutions that are currently funded under the Head Start-Higher Education Hispanic/Latino Service Partnerships are not eligible to apply under this announcement. These institutions are listed in Appendix A. Faith-based institutions planning to compete under this announcement must meet the same eligibility criteria as other applicants. Private, non-profit institutions are encouraged to submit with their applications the optional survey located under "Grant Manuals & Forms" at www.acf.hhs.gov/programs/ ofs/forms.htm.

C. Project Duration

This announcement is soliciting applications for project periods of up to five (5) years. Awards, on a competitive basis, will be for a one (1) year budget period. Applications for continuation grants funded under these awards beyond the one-year budget, but within the five-year project period, will be reviewed in subsequent years on a noncompetitive basis subject to the availability of funds, satisfactory performance by the grantee, and a determination that continued funding would be in the best interest of the Government.

D. Federal Share of Project Costs

It is anticipated that up to \$1,500,000 in ACF funds will be available annually. The maximum Federal-share for each project is not to exceed \$150,000 per year per project.

E. Number of Projects To Be Funded

It is anticipated that up to 10 projects will be funded.

F. Matching Requirement

There are no matching funds requirements, however applicants are encouraged to provide non-Federal contributions to the project.

Part III. Application Requirements

The following Uniform Project Description (UPD) has been approved by OMB under control number 0970–0139.

A. Purpose

The project description provides a major means by which an application is evaluated and ranked to compete with other applications for available assistance. The project description should be concise and complete and should address the activity for which Federal funds are being requested. Supporting documents should be included where they can present information clearly and succinctly. In preparing your project description, all information requested through each specific evaluation criteria should be provided. Awarding offices use this and other information in making their

funding recommendations. It is important, therefore, that this information be included in the application.

B. General Instructions

ACF is particularly interested in specific factual information and statements of measurable goals in quantitative terms. Project descriptions are evaluated on the basis of substance, not length. Extensive exhibits are not required. Supporting information concerning activities that will not be directly funded by the grant or information that does not directly pertain to an integral part of the grantfunded activity should be placed in an appendix. Pages should be numbered and a table of contents should be included for each reference.

Introduction

Applicant shall prepare the project description statement in accordance with the following instructions and the specified evaluation criteria. The instructions give a broad overview of what your project description should include while the evaluation criteria expand and clarify more programspecific information that is needed.

a. Project Summary/Abstract

Provide a summary of the project description (a page or less) with reference to the funding request.

b. Objectives and Need for Assistance

Clearly identify the physical, economic, social, financial, institutional, and or problem(s) requiring a solution. The need for assistance must be demonstrated and the principal and subordinate objectives of the project must be clearly stated; supporting documentation, such as letters of support and testimonials from concerned interests other than the applicant, may be included. Any relevant data based on planning studies should be included or referred to in the endnotes/footnotes. Incorporate demographic data and participant/ beneficiary information, as needed. In developing the project description, the applicant may volunteer or be requested to provide information on the total range of projects currently being conducted and supported (or to be initiated), some of which may be outside the scope of the program announcement.

c. Results or Benefits Expected

Identify the results and benefits to be derived. For example, using a comprehensive review of the current literature, justify how the research questions and the findings will add new knowledge to the field or how it will improve services for children and families.

d. Approach

Outline a plan of action that describes the scope and detail of how the proposed work will be accomplished. Account for all functions or activities identified in the application. Cite factors that might accelerate or decelerate the work and state your reason for taking the proposed approach rather than others. Describe any unusual features of the project such as design or technological innovations, reductions in cost or time, or extraordinary social and community involvement.

Provide quantitative monthly or quarterly projections of the accomplishments to be achieved for each function or activity in such terms as the proportion of data collection expected to be completed. When accomplishments cannot be quantified by activity or function, list them in chronological order to show the schedule of accomplishments and their target dates.

If any data are to be collected, maintained, and/or disseminated, clearance may be required from the U.S. Office of Management and Budget (OMB). This clearance pertains to any "collection of information that is conducted or sponsored by ACF. List organizations, cooperating entities, consultants, or other key individuals who will work on the project along with a short description of the nature of their effort or contribution.

C. Additional Information

Following are requests for additional information that need to be included in the application:

a. Staff and Position Data

Any nonprofit organization submitting an application must submit proof of its non-profit status in its application at the time of submission. The non-profit agency can accomplish this by providing a copy of the applicant's listing in the Internal Revenue Service's (IRS) most recent list of tax-exempt organizations described in section 501(c)(3) of the IRS code, or by providing a copy of the currently valid IRS tax exemption certificate, or by providing a copy of the articles of incorporation or similar document that clearly establishes non-profit status bearing the seal of the State in which the corporation or association is domiciled or a statement from a State taxing body, State attorney general, or other appropriate State official certifying the applicant organization has a non-profit status and none of the net earnings accrue to any private shareholders or individuals or any of the items in the subparagraphs immediately above for a State or national organization and a statement signed by the parent organization that the applicant organization is a local non-profit affiliate. Private-non-profit institutions are encouraged to submit with their application the optional survey located under "Grant Manuals and Forms" at http://www.acf.hhs.gov/ programs/ofs/forms.htm.

Applicants awaiting approval of their indirect cost proposals may also request indirect costs. It should be noted that when an indirect cost rate is requested, those costs included in the indirect cost pool should not also be charged as direct costs to the grant. Also, if the applicant is requesting a rate which is less than what is allowed under the program, the authorized representative of the applicant organization must submit a signed acknowledgement that

the applicant is accepting a lower rate than allowed.

h. Total Direct Charges, Total Indirect Charges, Total Project Costs.
