SUPPLEMENTARY INFORMATION:

OMB Control No.: 3060-1031.

Title: Revision of the Commission's Rules to Ensure Compatibility with Enhanced 911 Emergency Calling Systems: Petition of City of Richardson, TX; Order on Reconsideration.

Form No.: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Needs and Uses: The Order on Reconsideration responds to two petitions for reconsideration of a previous Order which responded to a petition from the city of Richardson, TX. The current Order on Reconsideration contains three new information collection requirements. First, it allows wireless carriers to toll the six-month E911 implementation period if the carrier certifies that the requesting Public Safety Answering Point (PSAP) is not E911 capable. Second, PSAPs may file a response to the carrier's certification. Third, the Order on Reconsideration clarifies that wireless carriers and PSAPs may mutually agree on an E911 implementation date other than that prescribed in the Commission's rules.

The Commission sought and obtained emergency OMB approval for this information collection on 1/16/03. The Commission is now seeking extension of this collection to obtain the full three year OMB approval.

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Submitted to OMB for Review and Approval

December 23, 2002.

SUMMARY: The Federal Communications Commissions, as part of its continuing

DATES: Written comments should be submitted on or before February 27, 2003. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all comments to Les Smith, Federal Communications Commission, Room 1-A804, 445 12th Street, SW., Washington, DC 20554 or via the Internet to lesmith@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collections contact Les Smith at (202) 418-0217 or via the Internet at lesmith@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0010.

Title: Local Franchising Authority.

Form Number: FCC 323.

Type of Review: Revision of a currently approved collection.

Respondents: State, local, or tribal Governments.

Number of Respondents: 2,000.

Estimated Time per Response: 0.5 to 1.5 hours.

Frequency of Response: On occasion, biennial, and/or upon renewal reporting requirements.

Total Annual Burden: 2,750 hours.

Total Annual Cost: \$2,163,000.

Needs and Uses: Each permittee of a commercial AM, FM, TV, and international broadcast station must file FCC Form 323, Ownership Report,

within 30 days of the FCC granting their application for an original construction permit, the consummation, pursuant to FCC consent, of a transfer of control or an assignment of license, and/or when they file their station's license renewal applications and every two years thereafter. A permittee/licensee must also file a report or to certify the accuracy of the current report on file, in lieu of filing a new report, when the permitted applies for a station license, or whenever there is a current and unamended FCC Form 323 on file at the FCC. Data on FCC Form 323 help to determine whether the licensee/permittee meets the FCC's multiple ownership requirements and complies with the Communications Act. The form's race/ethnicity/gender question indicates current minority and female ownership of broadcast facilities and the efficacy of FCC Rules to promote opportunities for small businesses and minority and female-owned businesses in the broadcasting industry.

OMB Control Number: 3060-0550.
Title: Local Franchising Authority.
Form Number: FCC 328.

Type of Review: Revision of a currently approved collection.

Respondents: State, local, or tribal Governments.

Number of Respondents: 20.

Estimated Time per Response: 0.5 hours.

Frequency of Response: One time reporting requirement; Third party disclosure.

Total Annual Burden: 20 hours.

Total Annual Cost: None.

Needs and Uses: The FCC developed FCC Form 328 to provide a standardized, simple form for Local Franchise Authorities (LFAs) to use when requesting certification. The Commission uses the data derived from the Form 328 filing to ensure that the LFA has met the criteria specified in section 3(a) of the Cable Television Consumer Protection Act of 1992 for regulating basic cable service rates. The Commission has made several modifications to Form 328 to update it.

OMB Control Number: 3060-1015.

Title: Ultra Wideband Transmission Systems Operating Under part 15.

Form Number: N/A.

Type of Review: Extension of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents: 500.

Estimated Time per Response: 2 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure.

Total Annual Burden: 1,000 hours.

Total Annual Cost: None.

Needs and Uses: 47 CFR 15.2525 requires operators of Ultra Wideband (UWB) transmission systems to coordinate their operations to avoid interference with sensitive U.S. government radio systems. Initial operation in a particular area may not commence until authorized by the FCC. The UWB operators must provide the name, address, and other pertinent contact information of the user, the desired geographical area of operation, the FCC ID number, time period during which operations will take place, and other nomenclature of the UWB device. The FCC collects this information and forwards it to the National Telecommunications and Information Administration (NTIA under the U.S. Department of Commerce). This information collection is essential to control potential interference to Federal radio communications. (Please note that on June 12, 2002, OMB approved this collection under the "emergency processing" provisions of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507.)

Testing and compliance documentation aid in controlling potential interference to radio communications. The test data may be used to investigate complaints of harmful interference; to determine that the equipment marketed complies with the applicable FCC; and to insure that the operation of the equipment is consistent with the documented test results. FCC rules require the responsible party to make the statement of compliance and supporting technical data available to the Commission upon request. The FCC rules also authorize
