

§ 648.92 Effort-control program for monkfish limited access vessels.

* * * * *

(b) * * *

(2) *Category C and D limited access monkfish permit holders.* (i) *August 1, 2002 - April 30, 2003.* Each monkfish DAS used by a limited access multispecies or scallop vessel holding a Category C or D limited access monkfish permit shall also be counted as a multispecies or scallop DAS, as applicable, unless otherwise specified in this paragraph (b). A Category C or D vessel that had fewer unused multispecies DAS than unused monkfish DAS as of August 1, 2002, may fish under the limited access monkfish provisions for Category A or B vessels, as applicable, for the number of DAS that equal the difference between its unused monkfish DAS and unused multispecies DAS as of August 1, 2002. For such vessels, when the total allocation of multispecies DAS has been used, a monkfish DAS may be used without concurrent use of a multispecies DAS. (For example, if a monkfish Category D vessel has 10 NE multispecies DAS and 40 monkfish DAS remaining as of August 1, 2002, that vessel may use the remaining 30 monkfish DAS to fish on monkfish, without a NE multispecies DAS being used, once the remaining 10 NE multispecies DAS have been utilized. However, the vessel must fish the remaining 30 monkfish DAS under the regulations pertaining to a Category B vessel, and must not retain any regulated multispecies.)

(ii) *Beginning May 1, 2003.* Each monkfish DAS used by a limited access multispecies or scallop vessel holding a Category C or D limited access monkfish permit shall also be counted as a multispecies or scallop DAS, as applicable, except when a Category C or D vessel that has an allocation of multispecies DAS under § 648.82(l) that is less than the number of monkfish DAS allocated for the fishing year May 1 through April 30, that vessel may fish under the monkfish limited access Category A or B provisions, as applicable, for the number of DAS that equal the difference between the number of its allocated monkfish DAS and the number of its allocated multispecies DAS. For such vessels, when the total allocation of multispecies DAS have been used, a monkfish DAS may be used without concurrent use of a multispecies DAS. (For example, if a monkfish Category D vessel's multispecies DAS allocation is

30, and the vessel fished 30 monkfish DAS, 30 multispecies DAS would also be used. However, after all 30 multispecies DAS are used, the vessel may utilize its remaining 10 monkfish DAS to fish on monkfish, without a multispecies DAS being used, provided that the vessel fishes under the regulations pertaining to a Category B vessel and does not retain any regulated multispecies.)

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 021212306-2306-01; I.D. 012303B]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 610 of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the first seasonal allowance of the pollock interim total allowable catch (TAC) for Statistical Area 610 of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 23, 2003, until superseded by the notice of Final 2003 Harvest Specifications of Groundfish for the GOA, which will be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The first seasonal allowance of the pollock interim TAC in Statistical Area 610 of the GOA is 2,916 metric tons (mt) as established by the interim 2003 harvest specifications for groundfish of the GOA (67 FR 78733, December 26, 2002).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the first seasonal allowance of the pollock interim TAC in Statistical Area 610 will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 2,716 mt, and is setting aside the remaining 200 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 610 of the GOA.

Maximum retainable amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the interim TAC, and therefore reduce the public's ability to use and enjoy the fishery resource.

The Assistant Administrator for Fisheries, NOAA, also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by section 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 23, 2003.

Dean Swanson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
