

PART 579—REPORTING OF INFORMATION AND COMMUNICATIONS ABOUT POTENTIAL DEFECTS

1. The authority citation for part 579 continues to read as follows:

Authority: Sec. 3, Pub. L. 106-414, 114 Stat. 1800 (49 U.S.C. 30102-103, 30112, 30117-121, 30166-167); delegation of authority at 49 CFR 1.50

2. Section 579.4 is revised by amending the term "other safety campaign" to read as follows:

§ 579.4 Terminology.

* * * * *

(c) Other terms. * * *

* * * * *

Other safety campaign means an action in which a manufacturer communicates with owners and/or dealers in a foreign country with respect to conditions under which motor vehicles or equipment should be operated, repaired, or replaced that relate to safety (excluding promotional and marketing materials, customer satisfaction surveys, and operating instructions or owner's manuals that accompany the vehicle or child restraint system at the time of first sale; or advice or direction to a dealer or distributor to cease the delivery or sale of specified models of vehicles or equipment).

* * * * *

3. Section 579.6 is revised to read as follows:

§ 579.6 Address for submitting reports and other information.

(a) Except as provided by paragraph (b) of this section, information, reports, and documents required to be submitted to NHTSA pursuant to this part may be submitted by mail, by facsimile, or by e-mail. If submitted by mail, they must be addressed to the Associate Administrator for Enforcement, National Highway Traffic Safety Administration (NHTSA), 400 7th Street, SW., Washington, DC 20590. If submitted by facsimile, they must be addressed to the Associate Administrator for Enforcement and transmitted to (202) 366-7882. If submitted by e-mail, submissions under subpart B of this part must be submitted to *foreign_recalls@nhtsa.dot.gov* and submissions under § 579.5 must be submitted to *tsb@nhtsa.dot.gov*.

(b) Information, documents and reports that are submitted to NHTSA's early warning data repository must be submitted in accordance with § 579.29 of this part. Submissions must be made by a means that permits the sender to verify that the report was in fact

received by NHTSA and the day it was received by NHTSA.

4. Section 579.11(d)(2) is revised and paragraph (e) is amended by adding a sentence at the end thereof. The revision and amendment read as follows:

§ 579.11 Reporting responsibilities.

* * * * *

(d) Exemptions from reporting. * * *

* * * * *

(2) The component or system that gave rise to the foreign recall or other campaign does not perform the same function in any substantially similar vehicles or equipment sold or offered for sale in the United States; or

* * * * *

(e) Annual list of substantially similar vehicles. * * * Not later than 30 days after January 28, 2003, each manufacturer to which this paragraph applies shall submit an initial annual list of vehicles for calendar year 2003 that meets the requirements of this paragraph.

Issued on: January 16, 2003.

Jeffrey W. Runge,
Administrator.

BILLING CODE 4910-59-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 020409080-3013-07 ; I.D. 101802B]

RIN 0648-AP78

Magnuson-Stevens Fishery Conservation and Management Act Provisions; Fisheries of the Northeastern United States; Regulations Governing Northeast Multispecies and Monkfish Days-at-Sea

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Final rule.

SUMMARY: NMFS issues this final rule implementing a regulatory amendment to correct minor oversights in the August 1, 2002, interim final rule that implemented additional restrictions to reduce overfishing on species managed under the Northeast (NE) Multispecies Fishery Management Plan (FMP). The intent of this regulatory amendment is to revise monkfish days-at-sea (DAS)

regulations in order to provide vessels possessing limited access Category C or D monkfish permits the opportunity to fish their full allocation of up to 40 monkfish DAS, regardless of the amount of NE multispecies DAS available to an individual vessel as of August 1, 2002. This regulatory amendment also revises ambiguous language to clarify that a vessel fishing under a Southern New England (SNE) and Mid-Atlantic (MA) Yellowtail Flounder Possession/Landing Letter of Authorization (LOA) may fish in the Gulf of Maine (GOM) or Georges Bank (GB) Regulated Mesh Areas (RMAs), provided the vessel abides by the more restrictive yellowtail flounder possession limits of the SNE and MA RMAs north of 40°00' N. lat.

DATES: Effective January 28, 2003.

ADDRESSES: Copies of the Regulatory Impact Review (RIR) prepared for this action are available from the Regional Administrator at the following address: National Marine Fisheries Service, 1 Blackburn Drive, Gloucester, MA 01930. This document is also accessible via the Internet at <http://www.nero.nmfs.gov>.

FOR FURTHER INFORMATION CONTACT: Allison Ferreira, Fishery Policy Analyst, phone: 978-281-9103, fax: 978-281-9135, e-mail: Allison.Ferreira@noaa.gov

SUPPLEMENTARY INFORMATION:

Background

NMFS published an interim final rule on August 1, 2002 (67 FR 50292), implementing the Settlement Agreement Among Certain Parties (Settlement Agreement), which was ordered by the U.S. District Court for the District of Columbia (Court) as a result of *Conservation Law Foundation et al. v. Evans et al.* The objective of the interim final rule was to reduce overfishing consistent with and pursuant to section 305(c)(3) of the Magnuson-Stevens Fishery Conservation and Management Act (Magnuson-Stevens Act), while Amendment 13 to the FMP is being developed. However, following the publication of the interim final rule, some minor oversights in the rule became apparent. As a result, NMFS published a proposed rule (67 FR 70570) on November 25, 2002, for a regulatory amendment to correct these minor oversights.

The measures contained in this final rule are unchanged from those published in the proposed rule and are summarized in the following paragraphs. A complete discussion of the revisions being made to the August 1, 2002, interim final rule through this regulatory amendment, and the rationale for these revisions were

presented in the preamble to the proposed rule and are not repeated here.

The intent of the August 1, 2002, interim final rule was to provide vessels possessing limited access Category C or D monkfish permits with the opportunity to use their full annual allocation of 40 monkfish DAS, regardless of the number of NE multispecies DAS allocated under the Settlement Agreement. However, as currently written, the interim final rule specifies that Category C or D monkfish vessels that have been allocated fewer than 40 NE multispecies DAS may fish, as monkfish-only DAS (i.e., monkfish DAS that do not have to be fished concurrently with a NE multispecies DAS), those monkfish DAS equal to the difference between their NE multispecies DAS allocation and their monkfish DAS allocation for the fishing year May 1 through April 30. This does not account for vessels that used NE multispecies DAS prior to August 1, 2002, and, as a result, had fewer unused NE multispecies than unused monkfish DAS as of August 1, 2002. Therefore, NMFS, through this final rule, enables limited access Category C or D monkfish vessels to fish all of their allocated monkfish DAS that were unused as of August 1, 2002, regardless of how many NE multispecies DAS they had remaining as of August 1, 2002. This regulatory amendment modifies the monkfish DAS regulations found at § 648.92(b)(2), and applies to only the 2002 fishing year, which ends April 30, 2003. For the 2002 fishing year, this regulatory amendment authorizes a vessel to fish its monkfish-only DAS equal to the difference between the number of its unused monkfish DAS and its unused NE multispecies DAS as of August 1, 2002, in addition to the unused monkfish DAS associated with the vessel's unused NE multispecies DAS as of August 1, 2002. For the 2003 fishing year, vessels allocated fewer NE multispecies DAS than monkfish DAS would fish the difference in DAS as monkfish-only DAS, as stipulated in the August 1, 2002, interim final rule.

As under the current August 1, 2002, interim final rule, vessels fishing under a monkfish-only DAS will be required to fish under the same provisions as limited access Category A and B monkfish vessels. Limited access monkfish Category A and B vessels are required to fish their monkfish DAS in an existing monkfish exempted fishery, a fishery that has been demonstrated to result in less than a 5-percent bycatch of NE multispecies. The existing monkfish exemption areas are specified under § 648.81. A map of these exemption areas is also available from

the Northeast Regional Office of NMFS (see **FOR FURTHER INFORMATION CONTACT**).

This regulatory amendment also revises ambiguous regulatory language pertaining to yellowtail flounder possession restrictions. The intent of the August 1, 2002, interim final rule was to allow vessels possessing a SNE and MA Yellowtail Flounder Possession/Landing LOA to fish any part of a trip in the GOM or GB RMAs, provided that they abide by the more restrictive yellowtail flounder possession limits of the SNE and MA RMAs north of 40°00' N. lat. However, this is not clearly stated in existing regulations pertaining to yellowtail flounder possession restrictions found at § 648.86(h)(2)(ii). Therefore, this action revises the regulatory language to clarify that vessels possessing a SNE and MA Yellowtail Flounder Possession/Landing LOA may fish in the GOM or GB RMAs under the more restrictive yellowtail possession limits of the SNE and MA RMAs.

NMFS will announce any continuation of the August 1, 2002, interim final rule by publishing notification in the **Federal Register**. Because this final rule amends that interim final rule, it will remain in effect for the duration of the August 1, 2002, interim final rule, including any continuation.

Comments and Responses

No public comments were received on the proposed rule.

Classification

The Administrator, Northeast Region, NMFS, determined that this regulatory amendment is necessary for the conservation and management of the NE multispecies and monkfish fisheries and that it is consistent with the Magnuson-Stevens Act and other applicable laws.

This final rule makes minor revisions to the regulations contained in the August 1, 2002, interim final rule in order to reflect NMFS' intent in implementing the Settlement Agreement. The interim final rule restricts a population of limited access Category C and D monkfish vessels' from using their full allocation of 40 monkfish DAS. This final rule relieves that restriction by permitting these vessels to utilize 40 monkfish DAS, regardless of the amount of NE multispecies DAS available as of August 1, 2002. It is imperative that this rule be effective immediately so that affected individuals can maximize the use of their monkfish DAS prior to the end of the fishing season on April 30, 2003. Therefore, because this rule relieves a restriction, the Assistant Administrator

for Fisheries, NOAA, finds good cause under the Administrative Procedure Act pursuant to 5 U.S.C. 553 (d)(1) to waive the 30-day delay in effectiveness date for this final rule.

This final rule has been determined to be not significant for purposes of Executive Order 12866.

The Chief Counsel for Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration that this rule would not have a significant economic impact on a substantial number of small entities. No comments were received regarding this certification. As a result, a regulatory flexibility analysis was not prepared.

List of Subjects in 50 CFR Part 648

Fisheries, Fishing, Reporting and recordkeeping requirements.

Dated: January 22, 2003

Rebecca Lent,

Deputy Assistant Administrator for Regulatory Programs, National Marine Fisheries Service.

For the reasons set out in the preamble, 50 CFR part 648 is amended as follows:

PART 648—FISHERIES OF THE NORTHEASTERN UNITED STATES

1. The authority citation for part 648 continues to read as follows:

Authority: Authority: 16 U.S.C. 1801 *et seq.*

2. In § 648.86, paragraph (h)(2) (ii) is revised to read as follows:

§ 648.86 Multispecies possession restrictions.

* * * * *

(h) * * *

(2) * * *

(ii) The vessel does not fish south of 40°00' N. lat. for a minimum of 30 consecutive days (when fishing under the NE multispecies DAS program, or under the monkfish DAS program if the vessel is fishing under the limited access monkfish Category C or D provisions). Vessels subject to these restrictions may fish any portion of a trip in the GOM and GB Regulated Mesh Areas, provided the vessel complies with the possession restrictions specified under this paragraph (h). Vessels subject to these restrictions may also transit the SNE and MA Regulated Mesh Areas south of 40°00' N. lat., provided the gear is stowed in accordance with one of the provisions of § 648.23(b).

* * * * *

3. In § 648.92, paragraph (b)(2) is revised to read as follows:

§ 648.92 Effort-control program for monkfish limited access vessels.

* * * * *

(b) * * *

(2) *Category C and D limited access monkfish permit holders.* (i) *August 1, 2002 - April 30, 2003.* Each monkfish DAS used by a limited access multispecies or scallop vessel holding a Category C or D limited access monkfish permit shall also be counted as a multispecies or scallop DAS, as applicable, unless otherwise specified in this paragraph (b). A Category C or D vessel that had fewer unused multispecies DAS than unused monkfish DAS as of August 1, 2002, may fish under the limited access monkfish provisions for Category A or B vessels, as applicable, for the number of DAS that equal the difference between its unused monkfish DAS and unused multispecies DAS as of August 1, 2002. For such vessels, when the total allocation of multispecies DAS has been used, a monkfish DAS may be used without concurrent use of a multispecies DAS. (For example, if a monkfish Category D vessel has 10 NE multispecies DAS and 40 monkfish DAS remaining as of August 1, 2002, that vessel may use the remaining 30 monkfish DAS to fish on monkfish, without a NE multispecies DAS being used, once the remaining 10 NE multispecies DAS have been utilized. However, the vessel must fish the remaining 30 monkfish DAS under the regulations pertaining to a Category B vessel, and must not retain any regulated multispecies.)

(ii) *Beginning May 1, 2003.* Each monkfish DAS used by a limited access multispecies or scallop vessel holding a Category C or D limited access monkfish permit shall also be counted as a multispecies or scallop DAS, as applicable, except when a Category C or D vessel that has an allocation of multispecies DAS under § 648.82(l) that is less than the number of monkfish DAS allocated for the fishing year May 1 through April 30, that vessel may fish under the monkfish limited access Category A or B provisions, as applicable, for the number of DAS that equal the difference between the number of its allocated monkfish DAS and the number of its allocated multispecies DAS. For such vessels, when the total allocation of multispecies DAS have been used, a monkfish DAS may be used without concurrent use of a multispecies DAS. (For example, if a monkfish Category D vessel's multispecies DAS allocation is

30, and the vessel fished 30 monkfish DAS, 30 multispecies DAS would also be used. However, after all 30 multispecies DAS are used, the vessel may utilize its remaining 10 monkfish DAS to fish on monkfish, without a multispecies DAS being used, provided that the vessel fishes under the regulations pertaining to a Category B vessel and does not retain any regulated multispecies.)

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 679

[Docket No. 021212306-2306-01; I.D. 012303B]

Fisheries of the Exclusive Economic Zone Off Alaska; Pollock in Statistical Area 610 of the Gulf of Alaska

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure.

SUMMARY: NMFS is prohibiting directed fishing for pollock in Statistical Area 610 of the Gulf of Alaska (GOA). This action is necessary to prevent exceeding the first seasonal allowance of the pollock interim total allowable catch (TAC) for Statistical Area 610 of the GOA.

DATES: Effective 1200 hrs, Alaska local time (A.l.t.), January 23, 2003, until superseded by the notice of Final 2003 Harvest Specifications of Groundfish for the GOA, which will be published in the **Federal Register**.

FOR FURTHER INFORMATION CONTACT: Mary Furuness, 907-586-7228.

SUPPLEMENTARY INFORMATION: NMFS manages the groundfish fishery in the GOA exclusive economic zone according to the Fishery Management Plan for Groundfish of the Gulf of Alaska (FMP) prepared by the North Pacific Fishery Management Council under authority of the Magnuson-Stevens Fishery Conservation and Management Act. Regulations governing fishing by U.S. vessels in accordance with the FMP appear at subpart H of 50 CFR part 600 and 50 CFR part 679.

The first seasonal allowance of the pollock interim TAC in Statistical Area 610 of the GOA is 2,916 metric tons (mt) as established by the interim 2003 harvest specifications for groundfish of the GOA (67 FR 78733, December 26, 2002).

In accordance with § 679.20(d)(1)(i), the Administrator, Alaska Region, NMFS (Regional Administrator), has determined that the first seasonal allowance of the pollock interim TAC in Statistical Area 610 will soon be reached. Therefore, the Regional Administrator is establishing a directed fishing allowance of 2,716 mt, and is setting aside the remaining 200 mt as bycatch to support other anticipated groundfish fisheries. In accordance with § 679.20(d)(1)(iii), the Regional Administrator finds that this directed fishing allowance will soon be reached. Consequently, NMFS is prohibiting directed fishing for pollock in Statistical Area 610 of the GOA.

Maximum retainable amounts may be found in the regulations at § 679.20(e) and (f).

Classification

This action responds to the best available information recently obtained from the fishery. The Assistant Administrator for Fisheries, NOAA, finds good cause to waive the requirement to provide prior notice and opportunity for public comment pursuant to the authority set forth at 5 U.S.C. 553(b)(B) as such requirement is contrary to the public interest. This requirement is contrary to the public interest as it would delay the closure of the fishery, lead to exceeding the interim TAC, and therefore reduce the public's ability to use and enjoy the fishery resource.

The Assistant Administrator for Fisheries, NOAA, also finds good cause to waive the 30-day delay in the effective date of this action under 5 U.S.C. 553(d)(3). This finding is based upon the reasons provided above for waiver of prior notice and opportunity for public comment.

This action is required by section 679.20 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: January 23, 2003.

Dean Swanson,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[FR Doc. 03-1905 Filed 1-23-03; 4:05 pm]

BILLING CODE 3510-22-S
