[Public Notice 4418]

Bureau of Nonproliferation; Imposition of Missile Proliferation Sanctions Against a North Korean Entity

AGENCY: Bureau of Nonproliferation, Department of State.

ACTION: Notice.

SUMMARY: A determination has been made that a North Korean entity has engaged in activities that require the imposition of measures pursuant to the Arms Export Control Act, as amended, and the Export Administration Act of 1979, as amended (as carried out under

Executive Order 13222 of August 17, 2001).

EFFECTIVE DATE: July 25, 2003.

FOR FURTHER INFORMATION CONTACT:

Vann H. Van Diepen, Office of Chemical, Biological and Missile Nonproliferation, Bureau of Nonproliferation, Department of State (202-647-1142). On import ban issues, Licensing Division, Office of Foreign Assets Control, Department of the Treasury (202-622-2480). On U.S. Government procurement ban issues, Gladys Gines, office of the Procurement Executive, Department of State (703-516-1621).

SUPPLEMENTARY INFORMATION: Pursuant to section 73(a)(1) of the Arms Export Control Act (22 U.S.C. 2797b(a)(1)); section 11B(b)(1) of the Export Administration Act of 1979 (50 U.S.C. app. 2410(b)(1)), as carried out under Executive Order 13222 of August 17, 2001 (hereinafter cited as the "Export Administration Act of 1979"); and Executive Order 12851 of June 11, 1993; the U.S. Government determined on July 17, 2003 that the following foreign person has engaged in missile technology proliferation activities that require the imposition of the sanctions described in sections 73(a)(2)(B) and (C) of the Arms Export Control Act (22 U.S.C. 2797b(a)(2)(B) and (C) and sections 11B(b)(1)(B)(ii) and (iii) of the Export Administration Act of 1979 (50 U.S.C. app. 2410b(b)(1)(B)(ii) and (iii) on this person: Changgwang Sinyong Corporation (North Korea) and its subunits and successors.

Accordingly, the following sanctions are being imposed on this person for three years and eight months:

- (A) Denial of all new individual licenses for the transfer to the sanctioned entity of all items on the U.S. Munitions List and all items the export of which is controlled under the Export Administration Act; and,
- (B) Denial of all U.S. Government contracts with the sanctioned entity; and

(C) Prohibition on the importation into the U.S. of all products produced by the sanctioned entity.

With respect to items controlled pursuant to the Export Administration Act of 1979, the above export sanction only applies to exports made pursuant to individual export licenses.

Additionally, because North Korea is a country with a non-market economy that is not a former member of the Warsaw Pact (as referenced in the definition of "person" in section 74(8)(B) of the Arms Export Control Act), the following sanctions shall be applied for three years and eight months

to all activities of the North Korean government relating to the development or production of missile equipment or technology and all activities of the North Korean government affecting the development or production of electronics, space systems or equipment, and military aircraft:

(A) Denial of all new individual licenses for the transfer to the government activities described above of all items on the U.S. Munitions List; and,

(B) Denial of all U.S. Government contracts with the government activities described above; and

(C) Prohibition on the importation into the U.S. of all products produced by the government activities described above.

These measures shall be implemented by the responsible departments and agencies of the United States Government as provided in Executive Order 12851 of June 11, 1993.

Dated: July 21, 2003.

Susan F. Burk,

Acting Assistant Secretary of State for Nonproliferation, Department of State.

Federal Aviation Administration

Notice of Intent To Request Renewal From the Office of Management and Budget (OMB) of Six Current Public Collections of Information

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), the FAA invites public comment on six currently approved

public information collections which will be submitted to OMB for renewal.

DATES: Comments must be received on or before September 23, 2003.

ADDRESSES: Comments may be mailed or delivered to the FAA at the following address: Ms. Judy Street, Room 613, Federal Aviation Administration, Standards and Information Division, APF-100, 800 Independence Ave., SW., Washington, DC 20591.

FOR FURTHER INFORMATION CONTACT: Ms. Judy Street at the above address or on (202) 267-9895.

SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995, an agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number. Therefore, the FAA solicits comments on the following current collection of information in order to evaluate the necessity of the collection, the accuracy of the agency's estimate of the burden, the quality, the clarity of the information to be collected, and possible ways to minimize the burden of the collection in preparation for submission to renew the clearances of the following information collections.

1. 2120-0033: Representatives of the Administrator, FAR 183. Title 49, U.S.C., section 44702, authorizes appointment of properly qualified private persons to be representatives of the Administrator for examining, testing, and certifying airmen for the purpose of issuing them airmen certificates. The information collected is used to determine eligibility of the representatives. The current estimates annual reporting burden is 3,974 hours.

2. 2120-0563: Notice and Approval of Airport Noise and Access Restrictions. The Airport Noise and Capacity Act of 1990 mandates the formulation of a national noise policy. One part of the mandate is the development of a national program to review noise and access restrictions on the operation of Stage 2 and 3 aircraft. Respondents are airport operators proposing voluntary agreements and/or mandatory restrictions on Stage 2 and 3 aircraft operations, and aircraft operators that request reevaluation of a restriction. The current estimated annual reporting burden is 30,000 hours.

3. 2120-0611: Associated Administrator for Commercial Space Transportation (AST) Customer Service Survey. The FAA Office of the Associated Administrator for Commercial Space Transportation conducts a survey to obtain industry input on the customer service standards

which have been developed and distributed to industry customers. This is a requirement of the White House NPR Customer Service Initiatives. AST collects and analyzes the data for results. The current estimated annual reports burden is 300 hours.

4. 2120-0618: Overflight billing and Collection Customer Information Form. This information is needed to obtain accurate billing information for FAA air traffic and related services for certain aircraft that transit U.S. controlled airspace but neither take off from, nor land in, the United States. The current estimated annual reporting burden is 50 hours.

5. 2120-0663: Service Difficulty Report (SDR). September 15, 2000, the Federal Aviation Administration (FAA) published a rule amending the reporting requirements for air carriers and certificates domestic and foreign repair station operators concerning failures, malfunctions, and defects of aircraft, aircraft engines, systems, and components. This action was prompted by an internal FAA review of the effectiveness of the reporting system and by air carriers industry's concern over the quality of the data being reported. The reports submitted by certificate holders and certificated repair stations provide the FAA with airworthiness statistical data necessary for planning, directing, controlling, and evaluating certain assigned safety-related programs. The current estimated annual reporting burden associated with this revision is 6,107 hours.

6. 2120-0665: Safe Disposition of Life-Limited Aircraft Parts. This action responds to the Wendell H. Ford Investment Reform Act for the 21st Century by requiring that all persons who remove any life-limited aircraft part be required to have a method to prevent the installation of that part after it has reached its life limit. This action reduces the risk of life-limited aircraft parts being used beyond their life limits. This collection also requires that manufacturers of life-limited parts provide marking instructions, when requested. The current estimated annual reporting burden is 52,000 hours.

Issued in Washington, DC on July 18, 2003.

Judith D. Street,

FAA Information Collection Clearance Officer, APF-100.
