Fall 2002 Semiannual Agenda of Regulations

AGENCY: Office of the Secretary, Commerce.

ACTION: Semiannual regulatory agenda.

SUMMARY: In compliance with Executive Order 12866 entitled “Regulatory Planning and Review” and the Regulatory Flexibility Act, as amended, the Department of Commerce, in the spring and fall of each year, publishes in the **Federal Register** an agenda of regulations under development or review over the next 12 months. Rulemaking actions are grouped according to prerulemaking, proposed rules, final rules, long-term actions, and rulemaking actions completed since the fall 2002 agenda. The purpose of the agenda is to provide information to the public on regulations currently under review, being proposed, or issued by the Department. The agenda is intended to facilitate comments and views by interested members of the public.

The Department’s spring 2003 regulatory agenda includes regulatory activities that are expected to be conducted during the period April 1, 2003, through March 31, 2004.

FOR FURTHER INFORMATION CONTACT:

Specific: For additional information about specific regulatory actions listed

in the agenda, contact the individual identified as the contact person.

General: Comments or inquiries of a general nature about the agenda should be directed to Daniel Cohen, Chief Counsel for Regulation, Office of the Assistant General Counsel for Legislation and Regulation, U.S. Department of Commerce, Washington, DC 20230; telephone: 202-482-3151.

SUPPLEMENTARY INFORMATION: Executive Order 12866 requires agencies to publish an agenda of those regulations that are under consideration pursuant to this Order. By memorandum, the Office of Management and Budget issued guidelines and procedures for the preparation and publication of the Spring 2003 Unified Agenda of Federal Regulatory and Deregulatory Actions. The Regulatory Flexibility Act, 5 U.S.C. 601 *et seq.*, requires agencies to publish, in April and October of each year, a regulatory flexibility agenda which contains a brief description of the subject area of any rule which is likely to have a significant economic impact on a substantial number of small entities. The agenda also identifies those entries that have been selected for periodic review under section 610 of the Regulatory Flexibility Act.

Explanation of Information Contained in the Agenda

Within the Department, the Office of the Secretary and various operating units may issue regulations. Operating units, such as the National Oceanic and Atmospheric Administration (NOAA), the Bureau of Industry and Security, and the Patent and Trademark Office issue the greatest share of the Department’s regulations.

A large number of regulatory actions reported in the agenda deal with fishery management programs of NOAA’s National Marine Fisheries Service (NMFS). To avoid repetition of programs and definitions, as well as to provide some understanding of the

technical and institutional elements of the NMFS programs, a section on “Explanation of Information Contained in NMFS Regulatory Entries” is provided below.

Explanation of Information Contained in NMFS Regulatory Entries

The Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*) (Act) governs the management of fisheries within the Exclusive Economic Zone (EEZ). The EEZ refers to those waters from the outer edge of the State boundaries, generally 3 nautical miles, to a distance of 200 nautical miles. Fishery Management Plans (FMPs) are to be prepared for fisheries, which require conservation and management measures. Regulations implementing these FMPs regulate domestic fishing and foreign fishing where permitted. Foreign fishing can be conducted in a fishery in which there is no FMP only if a preliminary fishery management plan has been issued to govern that foreign fishing. Under the Act, eight Regional Fishery Management Councils (Councils) prepare FMPs or amendments to FMPs for fisheries within their respective areas. In the development of such plans or amendments and their implementing regulations, the Councils are required by law to conduct public hearings on the draft plans and to consider the use of alternative means of regulating.

The Council process for developing FMPs and amendments makes it difficult for NMFS to determine the significance and timing of some regulatory actions under consideration by the Councils at the time the semiannual regulatory agenda is published.

The DOC spring 2003 regulatory agenda follows.

Theodore W. Kassinger,
General Counsel.

Office of the Secretary—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
299	Nondiscrimination on the Basis of Race, Color, National Origin, Handicap, and Age in Programs and Activities Receiving Federal Financial Assistance	0690-AA30
300	Employee Responsibilities and Conduct; Removal of Obsolete Regulations	0690-AA32

DOC

Office of the Secretary—Completed Actions

Sequence Number	Title	Regulation Identification Number
301	Civil Monetary Penalties; Adjustments	0690-AA33

Bureau of Economic Analysis—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
302	Annual Survey of Foreign Direct Investment in the United States	0691-AA48
303	Quarterly Surveys of International Trade in Services Between U.S. and Foreign Persons	0691-AA49

Bureau of Economic Analysis—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
304	Economic Development Administration Regulations	0691-AA47

Bureau of Economic Analysis—Completed Actions

Sequence Number	Title	Regulation Identification Number
305	Annual Survey of Selected Services Transactions With Unaffiliated Foreign Persons	0691-AA43
306	Benchmark Survey of Foreign Direct Investment in the United States—2002	0691-AA44
307	Transactions of U.S. Affiliate, Except U.S. Banking Affiliate, With Foreign Parent (BE-605) and Transactions of U.S. Banking Affiliate With Foreign Parent (BE-605 Bank)	0691-AA45

Bureau of the Census—Prerule Stage

Sequence Number	Title	Regulation Identification Number
308	Full Mandatory Automated Export System (AES) Filing for Export Shipments	0607-AA38

Bureau of the Census—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
309	Special Services and Studies by the Bureau of the Census; Amendments to Age Search Procedures	0607-AA24
310	Automated Export System (AES) Mandatory Filing for All Items on the Commerce Control List (CCL) and the United States Munitions List (USML) That Currently Require a Shipper's Export Declaration (SED)	0607-AA34
311	Cutoff Dates for Recognition of Boundary Changes for Census 2000 and for the Intercensal Period	0607-AA35

Bureau of the Census—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
312	Mandatory Automated Export System (AES) for Exports (Re-Exports) of Rough Diamonds	0607-AA39

DOC

Bureau of the Census—Completed Actions

Sequence Number	Title	Regulation Identification Number
313	Bureau of the Census Certification Process	0607-AA36
314	Bureau of the Census Geographically Updated Population Certification Program	0607-AA37

Bureau of the Census—Discontinued Entries

Regulation Identification Number	Title	Date	Comments
0607-AA29	Reporting Value on Shipper's Export Declaration for Inland Freight and Insurance Charges	02/24/2003	Withdrawn
0607-AA30	Reporting the Value of Repairs and Replacement Parts on the Shipper's Export Declaration	02/24/2003	Withdrawn
0607-AA31	Notation of the Shipper's Export Declaration Filing Exemption Statement on Manifest Documents	02/24/2003	Withdrawn

General Administration—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
315	Governmentwide Debarment and Suspension (Nonprocurement)	0605-AA16

General Administration—Long-Term Actions

Sequence Number	Title	Regulation Identification Number
316	Public Information, Freedom of Information and Privacy	0605-AA14

International Trade Administration—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
317	Commercial Availability of Fabric and Yarn	0625-AA59

International Trade Administration—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
318	Procedures for Conducting Five-Year (Sunset) Reviews of Antidumping and Countervailing Duty Orders	0625-AA51
319	Import of Certain Worsted Wool Fabric: Implementation of Tariff Rate Quota Established Under Title V of the Trade and Development Act of 2000	0625-AA58

International Trade Administration—Completed Actions

Sequence Number	Title	Regulation Identification Number
320	Proposed Changes in the Insular Possessions Watch, Watch Movement, and Jewelry Program	0625-AA57
321	Establishment of Steel Import Licensing and Surge-Monitoring Program	0625-AA60

DOC

International Trade Administration—Discontinued Entries

Regulation Identification Number	Title	Date	Comments
0625-AA52	Export Trade Certificates of Review (15 CFR 325)	03/11/2003	Withdrawn

Bureau of Industry and Security—Prerule Stage

Sequence Number	Title	Regulation Identification Number
322	License Exception APR for Reexports To, From, and Among Countries in Country Group A:1	0694-AC69

Bureau of Industry and Security—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
323	Chemical Weapons Convention Regulations	0694-AB06
324	Mandatory Electronic Filing of License Applications, Classification Requests, and License Exceptions Notifications via BIS's Simplified Network Application Process (SNAP)	0694-AC20
325	Protective Equipment Export License Jurisdiction	0694-AC64

Bureau of Industry and Security—Final Rule Stage

Sequence Number	Title	Regulation Identification Number

Department of Commerce (DOC)
Office of the Secretary (OS)

Final Rule Stage

299. NONDISCRIMINATION ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, HANDICAP, AND AGE IN PROGRAMS AND ACTIVITIES RECEIVING FEDERAL FINANCIAL ASSISTANCE

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 794; 42 USC 2000d to 2000d-7; 42 USC 6101 to 6107; EO 12250

CFR Citation: 15 CFR 8; 15 CFR 8b; 15 CFR 8c; 15 CFR 20

Legal Deadline: None

Abstract: The Department of Commerce proposes to make amendments to its regulations implementing title VI of the Civil Rights Act of 1964 (Title VI), section 504 of The Rehabilitation Act of 1972 (section 504), and the Age Discrimination Act of 1975 (Age Discrimination Act). Together, these statutes prohibit discrimination on the basis of race, color, national origin, disability, and age in programs or activities that receive Federal financial assistance. In 1988, the Civil Rights Restoration Act (CRRA) added definitions of “program or activity” and “program” to Title VI and added a

definition of “program or activity” to section 504 and the Age Discrimination Act. The added definitions were designed to clarify the broad scope of coverage of recipients’ programs or activities under these statutes. The promulgation of this proposed regulation explicitly incorporates the CRRA’s definition of “program or activity” and “program” into the Department’s Title VI, section 504, and Age Discrimination Act regulations. The Department’s proposed regulation will be published as part of a joint notice of proposed rulemaking involving up to 24 Federal agencies.

Abstract: This final rule issued to adjust civil monetary penalties provided by law within the jurisdiction of the Department of Commerce (the Department). As required by the Federal Civil Penalties Inflation

Adjustment Act of 1990, as amended by the Debt Collection Improvement Act of 1996, the Secretary of Commerce adjusted the Department's civil monetary penalties for inflation on October 24, 1996, and subsequently on November 1, 2000. The purpose of this rule is to bring the Department into compliance with GAO's interpretation of the statute.

Priority: Substantive, Nonsignificant

Legal Authority: Not Yet Determined

CFR Citation: 15 CFR 30

Legal Deadline: None

Abstract: The Bureau of the Census is amending the Foreign Trade Statistics Regulations to incorporate requirements for the mandatory electronic filing via the Automated Export System (AES) of exports (re-exports) of specific classifications of rough diamonds in

accordance with the Kimberley Process. The Kimberley Process is a certification scheme designed to control worldwide trade in illicit rough diamonds. Filing information on exports (re-exports) of rough diamonds through the AES is designed to control movement of and stem trading in illicit trade of rough or "conflict" diamonds, often linked to the finance of armed conflicts in certain world areas.

DEBARMENT AND SUSPENSION
(NONPROCUREMENT)**

Priority: Substantive, Nonsignificant

Legal Authority: 5 USC 301; PL 103-355, sec 2455; 31 USC 6101; EO 12549; EO 12689

CFR Citation: 15 CFR 26

Legal Deadline: None

Abstract: Periodically, OMB amends the Governmentwide common rule for suspension and debarment of contractors and assistance participants who threaten the integrity of Federal programs because of criminal misconduct or poor performance. Agencies must issue changes to their

individual codified versions to conform to the common rule. Recently, the Interagency Suspension and Debarment Coordinating Committee prepared recommendations for comprehensive changes to the common rule to conform to changes made in the Federal Acquisition Regulation (FAR) as a result of the Federal Acquisition Streamlining Act. In addition, several other proposals to improve or change the rule are included.

**317. COMMERCIAL AVAILABILITY OF
FABRIC AND YARN**

Priority: Substantive, Nonsignificant

Legal Authority: PL 106-200, sec 112(b)(5)(B); PL 106-200, sec 211; EO 13191

CFR Citation: 15 CFR 345

Legal Deadline: None

Abstract: The proposed rule implements certain provisions of the Trade and Development Act of 2000 (the Act). Title I of the Act (the African Growth and Opportunity Act or AGOA) and title II of the Act (the United States—Caribbean Basin Trade Partnership Act or CBTPA) provide for quota and duty-free treatment for qualifying apparel products from designated beneficiary countries. AGOA and CBTPA authorize quota and duty-free treatment for apparel articles that are both cut (or knit-to-shape) and sewn or otherwise assembled in one or more

designated beneficiary countries from yarn or fabric that is not formed in the United States or a beneficiary country, provided it has been determined that such yarn or fabric cannot be supplied by the domestic industry in commercial quantities in a timely manner. The President has delegated to the Committee for the Implementation of Textile Agreements (the Committee), which is chaired by Commerce, the authority to determine whether yarn or fabric cannot be supplied by the domestic industry in commercial quantities in a timely manner under the AGOA and the CBTPA, and has authorized the Committee to extend quota and duty-free treatment to apparel of such yarn or fabric. The proposed rule provides the procedure for interested parties to submit a request alleging that a yarn or fabric cannot be supplied by the domestic industry in commercial quantities in a timely manner, the procedure for

public comments, and relevant factors that will be considered in the Committee's determination. The proposed rule also outlines the factors to be considered by the Committee in extending quota- and duty-free treatment.

318. PROCEDURES FOR CONDUCTING FIVE-YEAR (SUNSET) REVIEWS OF ANTIDUMPING AND COUNTERVAILING DUTY ORDERS
Priority: Substantive, Nonsignificant**Legal Authority:** 19 USC 1671 et seq; 19 USC 1673 et seq; 19 USC 1303**CFR Citation:** 19 CFR 351**Legal Deadline:** None

Abstract: On May 19, 1997 (62 FR 27296), the Department of Commerce (the Department) published final rules on, inter alia, procedures for conducting antidumping and countervailing duty proceedings to conform the Department's existing regulations to the Uruguay Round Agreements Act (URAA). Although these regulations contain provisions on the conduct of sunset reviews, the Department is planning to amend the regulations to provide more guidance on the procedures for conducting sunset reviews. Specifically, the Department proposes to amend the procedural regulations for participation in, and conduct of, sunset reviews to add two definitions to provide shorthand expressions for 120-day and 240-day sunset reviews; provide deadlines for certain submissions; clarify the information to be provided by parties participating in a sunset review; clarify when the Department will conduct a 120-day or a 240-day sunset review; and provide time limits for actions to be taken by the Department.

319. IMPORT OF CERTAIN WORSTED WOOL FABRIC: IMPLEMENTATION OF TARIFF RATE QUOTA ESTABLISHED UNDER TITLE V OF THE TRADE AND DEVELOPMENT ACT OF 2000
Priority: Other Significant

Legal Authority: PL 106-200, sec 501-504; Title V of the Trade and Development Act of 2000; Presidential Proclamation No. 7383 (December 1, 2000)

CFR Citation: 15 CFR 335; 15 CFR 340**Legal Deadline:** None

Abstract: On January 22, 2001, the Department of Commerce issued interim regulations implementing section 501(e) and section 504(b) of the Trade and Development Act of 2000

(the Act). Section 501(e) requires the President to fairly allocate tariff rate quotas on the import of certain worsted wool fabrics, tariff rate quotas which were established by sections 501(a) and 501(b) of the Act. Section 504(b) authorizes the President to modify the limitations on worsted wool fabric imports under the tariff rate quotas. The President has delegated to the Secretary of Commerce the authority to allocate the quantity of imports under the tariff rate quotas and to determine whether the limitations on the quantity of imports under the tariff rate quotas should be modified. Final regulations will be issued after the period for notice and comment has expired.

Abstract: This notice will seek public comments on the potential impact of proposals to amend the Export Administration Regulations to clarify

the scope of items for which License Exception APR is available and, possibly, to narrow the scope of this license exception. The transactions that such an amendment could affect are all described in 15 CFR 740.16(a) and (b). These paragraphs deal with transactions to from and among countries in Country Group A:1 and cooperating countries as defined in 15 CFR part 740, supp. No. 1.

Legal Deadline: None

Abstract: This rule would change the Export Administration Regulations as needed to implement a revised version of the Bureau of Industry and Security's Simplified Network Application Processing (SNAP) system. This rule also would make use of that system mandatory for all filings of Export License applications (except Special Comprehensive Licenses and deemed export licenses), Reexport Authorization requests, Classification

requests, Encryption Review requests, and License Exception AGR notifications unless the Bureau of Industry and Security authorizes paper filing for a particular user or transaction. This rule also would authorize SNAP filing for special reports of certain items controlled under the Wassenaar Arrangement. This rule also would eliminate all provisions of the regulations associated with earlier versions of SNAP and other electronic filing systems that the Bureau of Industry and Security has used in the past, as use of those systems would be terminated upon introduction of the new version of SNAP (SNAP 2002). Those eliminated provisions include the requirements regarding personal identification numbers (PINs) and the requirement for users to keep logs of items filed electronically. This rule also would require that requests for advisory opinions include the Export Control Classification Number of the item(s) at issue, revise emergency license application procedures, set the value of all aircraft licensed for temporary sojourn abroad to zero and correct some omissions, misstatements and typographical errors.

**325. PROTECTIVE EQUIPMENT
EXPORT LICENSE JURISDICTION**

Priority: Routine and Frequent
Legal Authority: Not Yet Determined
CFR Citation: 15 CFR 774
Legal Deadline: None
Abstract: Export Control Classification
Number (ECCN) 1A004 in the

Commerce Control List (CCL) provides that protection and detection equipment and components not specially designed for military use are subject to the licensing authority of the Department of State, Office of Defense Trade Controls (DTC). The Bureau of Industry and Security (BIS) has received information suggesting that the existing rule commits to DTC authority a number of items that have primarily civil end uses. This proposed rule draws a distinction between items subject to DTC control and items subject to the Export Administration Regulations (EAR) by modifying ECCN 1A004 and creating a new ECCN 1A995.

CFR Citation: 15 CFR 744
Legal Deadline: None

Abstract: The Export Administration
Regulations (EAR) provide that the
Bureau of Industry and Security (BIS)
may inform the public, individually or
through amendment to the EAR, that
a license is required for exports or
reexports to certain entities. The EAR
contain a list of such entities called the
Entity List. This rule revises the entry
for Abdul Qader Khan Research
Laboratories, located in Kahuta,
Pakistan. Abdul Qader Khan Research
Laboratories is also known as Khan
Research Laboratories. Because Khan
Research Laboratories has changed its
name to Institute of Industrial Control
Systems (IICS), this rule adds Institute
of Industrial Control Systems (IICS) as
an a.k.a. under the entity Abdul Qader
Khan Research Laboratories. In
addition, this rule makes a revision to
clarify that when BIS publishes in the
Federal Register information regarding
entities in the Entity List that it is
informing not only exporters but the
public.

DOC—BIS

Final Rule Stage

Abstract: The Bureau of Industry and Security (BIS) administers export controls on certain toxic chemicals and precursors that are listed in the “Schedules of Chemicals” contained within the “Annex on Chemicals” to the “Convention on the Prohibition of the Development, Production, Stockpiling, and Use of Chemical Weapons and on Their Destruction,” also known as the Chemical Weapons Convention (CWC). This rule amends the CWC provisions in the Export Administration Regulations (EAR) to clarify BIS licensing requirements and policies for chemicals and precursors controlled for chemical weapons reasons.

333. EXPORTS TO AFGHANISTAN (THE TALIBAN) AND LIBERIA: IMPOSITION OF FOREIGN POLICY CONTROLS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; 22 USC 3201 et seq; 42 USC 2139a; EO 12002; EO 12058; EO 12214; EO 12938; EO 13026; EO 13222; ...

CFR Citation: 15 CFR 730 to 774**Legal Deadline:** None

Abstract: This rule amends the Export Administration Regulations (EAR) to implement United Nations Security Council (UNSC) Resolutions 1333 of December 19, 2000, and 1343 of March 7, 2001, which mandated embargoes on the sale or supply of arms-related items, including technical assistance and training, to the Taliban and to Liberia, respectively. These steps taken by the Bureau of Industry and Security (BIS) supplement controls implemented by the Department of State on exports

of defense articles and services to the Taliban and to Liberia under the International Traffic in Arms Regulations. BIS already requires a license for the export and reexport to Afghanistan and Liberia of most of the items subject to the EAR that fall within the scope of the UNSC-mandated ban on arms-related items (e.g., items controlled for regional stability and crime control reasons).

334. ELIMINATION OF “NATIONAL SECURITY” AS A REASON FOR CONTROL FOR CERTAIN ITEMS ON THE COMMERCE CONTROL LIST

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 2401; 50 USC 1701; 18 USC 2510; EO 13222; EO 12058; ...

CFR Citation: 15 CFR 742; 15 CFR 774**Legal Deadline:** None

Abstract: This rule amends the Commerce Control List (CCL) to eliminate “National Security” as a reason for control with respect to certain items. This rule is needed to make the CCL conform to Section 5(c)(6)(A) of the Export Administration Act (the Act), which provides that unilateral national security controls expire six months after enactment of the Act or of the control (whichever is later) unless a determination has been made under section 5 of the Act that there is no foreign availability of the items or unless the President is pursuing negotiations to end such availability. All but four of the items affected by this rule are moved to other Export Control Classification Numbers (ECCNs) on the CCL. Two of the items that are removed from the CCL (bayonets and technology for the design, production or use of bayonets)

are transferred to the United States Munitions List. The other two items (muzzle-loading firearms and technology for the design, production or use of muzzle-loading firearms) are now EAR99.

335. IMPOSITION AND EXPANSION OF CONTROLS ON DESIGNATED PERSONS

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC 1701; 50 USC 2401; 22 USC 3201; EO 13099; EO 13222; ...

CFR Citation: 15 CFR 744; 15 CFR 772**Legal Deadline:** None

Abstract: This final rule amends the Export Administration Regulations (EAR) by imposing a license requirement on the export and reexport of any item subject to the EAR by a U.S. person or non-U.S. person to persons blocked and designated pursuant to Executive Order 13224 of September 23, 2001. In response to grave acts of terrorism and threats of terrorism, Executive Order 13224 blocks the property and interests in property of persons who commit, threaten to commit or support terrorism, and prohibits U.S. persons or applicable non-U.S. persons from engaging in any transactions with such blocked persons. The Department of the Treasury’s Office of Foreign Assets Control (OFAC) maintains the list of blocked persons newly designated Specially Designated Global Terrorists (SDGTs) in appendix A to 31 CFR chapter V pursuant to Executive Order 13224 and identified by the bracketed initials [SDGT]. This rule also amends the EAR by expanding reexport controls on Specially Designated Terrorists (SDTs) and foreign controls on

DOC—BIS

Final Rule Stage

Specially Designated Terrorists (SDTs) and Foreign Terrorist Organizations (FTOs). OFAC also maintains the lists of SDTs and FTOs found in appendix A to 31 C.F.R. chapter V and identified by the bracketed initials [SDT] and [FTO], respectively.

RIN: 0694-AC60**336. LICENSE APPLICATION DENIAL POLICY, "RED FLAG" INDICATORS OF POSSIBLE INAPPROPRIATE END-USE, END-USER, OR DESTINATION****Priority:** Substantive, Nonsignificant

Legal Authority: 50 USC app 2401; 50 USC 1701; EO 13026; EO 13222; 22 USC 3201; 42 USC 2139a; EO 12058; EO 12851; EO 12938; EO 12947; EO 13026; EO 13099; EO 13222; EO 13224

CFR Citation: 15 CFR 732; 15 CFR 744.11

Legal Deadline: None

Abstract: This rule makes explicit BIS's policy of denying export license applications when a sanction imposed on a party pursuant to a statute requires such denial. Such sanctions are imposed for activities contrary to United States foreign policy interests or that contribute to the proliferation of weapons of mass destruction. This rule also makes the imposition of such sanctions or publication of a party's name on the BIS "Unverified List" a "red flag" triggering a need for heightened scrutiny when dealing with such parties in transactions that are subject to the Export Administration Regulations.

Legal Authority: 50 USC app 2401; 50 USC 1701; EO 13026; EO 13222

CFR Citation: 15 CFR 748; 15 CFR 774

Legal Deadline: None

Abstract: This rule amends the Export Administration Regulations (EAR) to implement decisions to move export licensing jurisdiction of certain types of cargo aircraft and parts therefor from the Department of State, Office of Defense Trade Controls (DTC) to the Department of Commerce, Bureau of Industry and Security (BIS) and to move export licensing jurisdiction for certain jet trainer aircraft and specially designed component parts from BIS to DTC. A complementary rule amending the International Traffic in Arms Regulations will be published by the Department of State. This rule implements decisions reached in the on-going review of the United States Munitions List that is part of the Defense Trade Security Initiative. That initiative, announced on May 24, 2000 at a NATO ministerial meeting by the Secretary of State, includes annual review of portions of the United States Munitions List with the objective of reviewing the entire list every four years.

Legal Deadline: None

Abstract: This rule amends the Export Administration Regulations (EAR) to clarify when encryption commodities and software may be given de minimis treatment, when short-range wireless devices incorporating encryption may be given mass market or retail treatment, and to provide guidance on when exporters are required to submit encryption review requests. It also expands the authorizations for which travelers departing the United States may take encryption for their personal

use. Finally this rule implements changes to the Wassenaar Arrangement List of dual-use items that eliminate from Export Control Classification Number (ECCN) 5A002 certain types of "Personalized smart cards" and equipment specially designed and limited to controlling access to copyright protected data.

Legal Deadline: None

Abstract: This rule amends the Export Administration Regulation Commerce Control List (CCL) to reflect changes to the Missile Technology Control Regime (MTCR) Annex agreed to at the September 2002 Plenary in Warsaw, Poland. New definitions for range and payload were added to provide clarity in determining whether systems fall under Category I MTCR controls. All other revisions/additions were made to insure that items which are useable in missiles of MTCR concern are appropriately controlled.

Legal Deadline: None

Abstract: The Bureau of Industry and Security (BIS) is amending the Export Administration Regulations (EAR) by adding the Democratic Republic of East Timor (East Timor) to the Commerce Country Chart, to reflect East Timor's status as a newly independent and sovereign State. This rule also adds Aruba and Netherlands Antilles to the Commerce Country Chart, in order to streamline the regulatory process for these dependant nations. This final rule adds East Timor, Aruba, and Netherlands Antilles as separate destinations on the Commerce Country Chart for export licensing purposes.

368. • GENERAL ORDER ON EXPORTS TO IRAQ

Priority: Substantive, Nonsignificant

Legal Authority: 50 USC app 2401 et seq; 50 USC 1701 et seq; Notice of Aug. 14, 2002, 67 FR 53721 (Aug. 16, 2002); EO 12938; EO 13020; EO 13026

CFR Citation: 15 CFR 736

Legal Deadline: None

Abstract: The Bureau of Industry and Security is amending the EAR by adding new General Order No. 4 to Supplement No. 1, Part 736. General Order No. 4 removes license requirements for the export or reexport to Iraq of commodities and software contained in two export control categories on the Commerce Control List. This General Order is intended to facilitate humanitarian activities in Iraq

by State Department accredited non-governmental organizations.

NATIONAL MARINE FISHERIES SERVICE**374. FLEET CAPACITY CONTROL FOR U.S. TROLL ALBACORE TUNA FISHING IN CANADIAN WATERS****Priority:** Substantive, Nonsignificant**Legal Authority:** Not Yet Determined**CFR Citation:** 50 CFR 300**Legal Deadline:** None**Abstract:** This rule will implement limits on albacore tuna fishing by vessels of the United States in Canadian waters pursuant to the U.S.-Canada Albacore Fishing Treaty. In accordance with recent amendments to that Treaty, the United States is obliged to ensure that U.S. vessels do not fish for more than a set number of days

each year 2003-2005. This will require methods to monitor fishing effort and notify U.S. vessel owners/operators of the date on which further U.S. fishing must cease. In turn, U.S. vessel operators/owners will be required to furnish reports of entry to and exit from Canadian waters and to provide points of contact for notices of closures. In addition, the Treaty requires that the United States exchange fishery data each year. The rule will require maintenance and submission of logbooks of fish catch and fishing effort in Canadian and U.S. waters each year.

396. REGULATORY AMENDMENT MODIFYING THE GULF OF MEXICO BRD PROTOCOL UNDER THE FISHERY MANAGEMENT PLAN FOR THE SHRIMP FISHERY OF THE GULF OF MEXICO (FMP)

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: In accordance with the FMP's framework procedure for regulatory adjustments, the Gulf Council requested that NMFS develop alternative data collection procedures and statistical tests to certify bycatch reduction devices (BRDs) for use in the shrimp fishery of the Gulf of Mexico. The regulation would provide additional flexibility in sampling procedures to facilitate BRDs meeting the

DOC—NOAA

Proposed Rule Stage

testing/certifying protocol's requirements while maintaining the scientific and statistical credibility in achieving the FMP's established bycatch reduction criterion for certified BRDs.

RIN: 0648-AN84**397. FISHERY MANAGEMENT PLAN (FMP) FOR SARGASSUM HABITAT OF THE SOUTH ATLANTIC****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: The regulatory action implementing measures in the FMP would: (1) establish a total prohibition of all harvest and possession of Sargassum from the South Atlantic exclusive economic zone (EEZ) south of 34 degrees N latitude; (2) allow a limited annual harvest of 5,000 pound landed wet weight of Sargassum from the South Atlantic EEZ 100 miles seaward of the shore between 34 degrees N latitude and the latitude line representing the North Carolina/Virginia border during the months of November through June; (3) require an official observer to be present on each Sargassum harvesting trip; and (4) require that nets used to harvest Sargassum be constructed of four-inch stretch mesh or larger fitted to a frame no larger than 4 feet by 6 feet. Restricting the harvest of Sargassum may result in the one small business entity ceasing business operations. The firm qualifies as a

small business entity because its gross revenues do not exceed \$3.0 million annually. The value of the 1997 harvest (the last documented year in which harvest occurred) was estimated to be \$36,000. The average annual value of the harvest from 1976 to 1997 was estimated to be \$61,000. Additionally, there is no indication that harvest has occurred since 1997. Therefore, the SAFMC concluded that the indirect benefits of increased productivity of marine life and non-consumptive, non-use social benefits that would result from reduced harvest levels would greatly outweigh the direct impacts to the one intermittently operating business.

402. REVISION OF AMERICAN LOBSTER REGULATIONS FOR THE EEZ

Priority: Other Significant

Legal Authority: 16 USC 5101 et seq

CFR Citation: 50 CFR 697

Legal Deadline: None

Abstract: In accordance with the Atlantic Coastal Fisheries Cooperative Management Act (Act), 16 U.S.C. et seq., NMFS announces that it is considering, and seeking public comment on, revisions to Federal American lobster regulations for the Exclusive Economic Zone in response to recommendations from the Atlantic States Marine Fisheries Commission to NMFS in Addenda II and III to Amendment 3 to the Interstate Fishery Management Plan for American Lobster (ISFMP). This ANPR/NOI proposes to develop regulations relative to Addendum III to the ISFMP, and combine those with Addendum II (ANPR and NOI published May and September of 2001, respectively) into a single environmental impact statement. Addendum II management measures would include minimum gauge size increases in five of the seven Lobster Conservation Management Areas (LCMA), lobster trap gear modifications, a four-year lobster trap

reduction schedule for LCMA 3, and a logbook requirement for LCMA 3 lobster vessels. Addendum III would further modify Addendum II's gauge increase schedule and include new management measures for the majority of the LCMAs.

404. IMPLEMENTATION OF FISHERY MANAGEMENT PLAN FOR HIGHLY MIGRATORY SPECIES FISHERIES OFF THE WEST COAST

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: None

Abstract: This action would implement the Fishery Management Plan (FMP) for Highly Migratory Species Fisheries off the West Coast. The FMP is currently under development by the Pacific Fishery Management Council (Council) under the terms of the Magnuson-Stevens Act and other applicable law. The FMP will both establish a process for implementing regulations as deemed necessary in the future and provide a basis for initial regulation of selected fishery sectors (e.g., drift gillnet and longline) to ensure conservation of the fish stocks involved and protection of species of special concern such as sea turtles and seabirds. The FMP will include substantial environmental and economic analyses consistent with the requirements of the National Environmental Policy Act, the Regulatory Flexibility Act, and Executive Order 12296 and other laws and orders. Steps for reviewing and

implementing approved elements of the FMP are set forth in the Magnuson-Stevens Act and include provisions for publication of proposed and final rules within certain time periods.

406. COMPREHENSIVE AMENDMENT ADDRESSING SUSTAINABLE FISHERIES ACT REQUIREMENTS REGARDING OVERFISHING, BYCATCH, FISHING COMMUNITIES AND PROVISIONS FOR FISHERY MANAGEMENT PLANS FOR THE CARIBBEAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 622

Legal Deadline: Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: NMFS proposes regulations to implement those provisions of the Comprehensive Amendment Addressing Sustainable Fishery Act (SFA) definitions and other required provision of the Magnuson-Stevens Act in the FMP of the U.S. Caribbean (Comprehensive SFA Amendment) that would modify and/or add framework procedures to the FMPs for reef fish, corals and reef associated plants and invertebrates, queen conch, and spiny lobster. These FMP framework modifications/additions would allow timely modification/addition of required stock parameters and management measures related to preventing overfishing and rebuilding overfished stocks. The intended effect is to provide a more efficient mechanism for implementation of improved estimates of stock parameters and necessary management measures as better information becomes available.

411. FULL RETENTION OF DEMERSAL SHELF ROCKFISH IN GULF OF ALASKA AREA 650

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

DOC—NOAA

Proposed Rule Stage

CFR Citation: 50 CFR 679**Legal Deadline:** None

Abstract: This regulatory rule would require full retention of demersal shelf rockfish (DSR) in the hook-and-line fisheries in the Gulf of Alaska, Regulatory Area 650. If approved, this rule would eliminate the maximum retainable bycatch limit for DSR, and require that all DSR caught by Federally permitted vessels using fixed gear in the Southeast Outside be retained, landed, weighted, and reported. When DSR is closed to directed fishing, fishermen would be allowed to retain the proceeds from the sale of any DSR not in excess of 10 percent of the aggregate round weight equivalence of IFQ Pacific halibut and groundfish species that are landed during the same fishing trip, or 1 percent of sablefish landed. Any DSR landed in excess of these limits could be retained for any use except sale, barter, or trade. This could include personal consumption or donation to a nonprofit charitable organization.

412. AMENDMENT TO FISHERY MANAGEMENT PLAN FOR REEF FISH RESOURCES OF GULF OF MEXICO TO SET 10-YEAR REBUILDING PLAN FOR RED GROUPER

Priority: Other Significant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** None

Abstract: In October 2000, the National Marine Fisheries Service (NMFS) issued a determination that the Gulf of

Mexico red grouper stock is overfished and undergoing overfishing. This determination was based on the results of a 1999 red grouper stock assessment. Once a stock is determined to be overfished the Magnuson-Stevens Act requires the Gulf of Mexico Fishery Management Council within one year to submit a plan to NMFS to end overfishing and rebuild the stock to a level capable of sustaining maximum sustainable yield on a continuing basis. The proposed rebuilding plan contains alternatives that would implement a 10-year rebuilding plan for red grouper including a recreational and commercial shallow-water grouper closed season, recreational bag limits, movement of the commercial longline gear boundary, and a reduction of the shallow-water grouper quota by an amount consistent with a 45 percent reduction in commercial red grouper harvest. The rebuilding plan also contains alternatives for establishing red grouper sustainable fishing parameters (e.g., maximum sustainable yield, optimum yield, maximum fishing mortality rate, minimum stock size threshold).

RIN: 0648–AQ20**415. FLEET CAPACITY CONTROL FOR U.S. TUNA PURSE SEINE FISHERIES IN THE EASTERN PACIFIC OCEAN****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 951 to 961; 16 USC 971 et seq**CFR Citation:** 50 CFR 300**Legal Deadline:** None

Abstract: This rule will implement a tuna fishery management recommendation of the Inter-American Tropical Tuna Commission (IATTC), of which the United States is a party. The rule will establish procedures by which the United States will limit tuna purse seine fleet capacity consistent with the limits in the IATTC recommendation, which has been approved by the Department of State pursuant to the Tuna Conventions Act. Fleet capacity is necessary to prevent overcapitalization and achieve sustainable tuna fisheries in the eastern Pacific Ocean. Excessive fleet capacity threatens the ability of the IATTC and its member states to take effective action to control overall fishing mortality and maintain healthy stocks that will support economically viable fisheries, including U.S. tuna fisheries in the region.

RIN: 0648–AQ21**416. SECRETARIAL AMENDMENT 2 TO REEF FISH FISHERY MANAGEMENT PLAN TO SET GREATER AMBERJACK SUSTAINABLE FISHERIES ACT TARGETS AND THRESHOLDS AND TO SET REBUILDING PLAN****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622

Legal Deadline: NPRM, Statutory, December 2002.
Final, Statutory, January 2003.

Abstract: The greater amberjack resource in the Gulf of Mexico was declared overfished by the National Marine Fisheries Service (NMFS) on February 9, 2001. This determination was based on the 2000 greater amberjack stock assessment conducted by the NMFS Southeast Fisheries Science Center (SEFSC) (Turner et al. 2000) and the December 2000 Report of the Reef Fish Stock Assessment Panel (RFSAP) (GMFMC 2000). The results of several analyses indicated that the stock biomass was below the level needed to sustain harvest at maximum sustainable yield (MSY), with the best estimate indicating that the stock biomass was at less than half the biomass needed to sustain MSY, below the minimum level allowed under the 1998 NMFS National Standard Guidelines. Currently, the Reef Fish Fishery Management Plan (FMP) requires that overfished stocks be restored to a level of 20 percent transitional spawning potential ratio (SPR) within one and a half generation times. A generation time is the average time it would take a year class in an unfished population to replace itself. However, in order to comply with the requirements of the NMFS National Standard Guidelines (NSG), new biomass based targets and recovery time frame parameters need to be implemented. The greater amberjack resource is not considered by NMFS to

be undergoing overfishing at this time due to Council actions taken in 1997 and 1998 as cited in section 3.0 (1998 is the final year of data in the stock assessment). Consequently, actions to further reduce fishing mortality are not needed at this time.

This secretarial amendment proposes no changes to the current fishing regulations for greater amberjack, but does propose to establish new biomass based targets and thresholds as well as the establishment of a ten-year rebuilding plan. These measures would be in compliance with the provisions of the Magnuson-Stevens Fishery Conservation and Management Act, Sustainable Fisheries Act (SFA), NMFS NSGs, and NMFS technical guidance on implementing National Standard 1 (Restrepo et al. 1998).

420. ATLANTIC HIGHLY MIGRATORY SPECIES (HMS); BIGEYE TUNA AND SWORDFISH TRADE STATISTICAL DOCUMENT PROGRAMS

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 971 et seq; 16 USC 1801 et seq**CFR Citation:** 50 CFR 635**Legal Deadline:** None

Abstract: This proposed rule is to comply with the recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT) to establish statistical document programs for trade of swordfish and bigeye tuna. This regulation will require all dealers, who export or import swordfish or bigeye tuna, complete a statistical document and ensure the document accompanies the shipment. The purpose of the ICCAT recommendation and this regulation is to assist in the conservation of swordfish and bigeye tuna, improve the reliability of statistical information of catches, and to assist ICCAT with the elimination of illegal, unreported, and unregulated fishing operations.

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 971 et seq; 16 USC 1801 et seq**CFR Citation:** 50 CFR 635**Legal Deadline:** None

Abstract: NMFS proposes specifications for the Atlantic bluefin tuna (BFT) fishery to set BFT quotas and General category effort controls for the 2003 fishing year. This action will implement the U.S. annual BFT quota as recommended by the International Commission on Conservation of Atlantic Tunas and allocate that quota among the domestic fishing categories. Effort controls for the General category will allocate monthly quotas and set certain restricted fishing days.

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1361 et seq

DOC—NOAA

Proposed Rule Stage

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: NMFS is amending the regulations that implement the Atlantic Large Whale Take Reduction Plan, specifically with regard to the straight set of gillnets in the southeast U.S. Restricted Area in waters off the coasts of Georgia and Florida. The intent of this proposed rule is to prohibit straight sets of gillnets at night from November 15 through March 31, annually to reduce the risk of entanglement of large whales, including the western North Atlantic right whale. This rule was published on March 27, 2002, in the Federal Register under RIN 0648-AN88.

426. ● PACIFIC COAST GROUND FISH FISHERY; PACIFIC COAST GROUND FISH VESSEL MONITORING SYSTEM

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: NPRM, Statutory, Final rule must be published within 30 days of NPRM comment period end.

Abstract: This regulation would require vessels participating in the Pacific Coast groundfish fishery off the coasts of WA, OR, and CA to carry and use vessel monitoring systems (VMS) transmitters. This action is necessary to enhance monitoring of compliance with large-scale depth-based closures that are proposed to be used to prohibit most fishing activities across much of the continental shelf. In addition, this action is intended to further the conservation goals and objectives of the

DOC—NOAA

Proposed Rule Stage

Pacific Coast Groundfish FMP by allowing fishing to continue in areas and with gear that can harvest healthy stocks with little incidental catch of overfished and low abundance species. This action will also require certain vessels legally fishing within the otherwise closed area to notify NMFS when they will be fishing in the closed areas.

428. • ATLANTIC HIGHLY MIGRATORY SPECIES: BILLFISH AND SWORDFISH RECREATIONAL FISHING

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq; 16 USC 971 et seq

CFR Citation: 50 CFR 635

Legal Deadline: None

Abstract: This rule implements domestic management measures based upon recommendations of the International Commission for the Conservation of Atlantic Tunas (ICCAT) regarding billfish and swordfish. The rule would limit domestic recreational landings of Atlantic blue and white marlin to 250 fish, combined, on an annual basis. Also, the rule would provide for adjustments for any landings above or below the annual cap to the following year's recreational marlin landings cap. The rule also establishes in-season adjustment authority for, and modifies bag limits in the recreational North Atlantic swordfish fishery. The Atlantic blue and white marlin measures are necessary to comply with ICCAT obligations. Modification of the North Atlantic swordfish recreational bag limit is in response to comments received regarding equitable fishing opportunities in regional fisheries.

429. • AMENDMENT 17 TO THE PACIFIC COAST GROUND FISH FISHERY MANAGEMENT PLAN

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 660

Legal Deadline: NPRM, Statutory, February 2003.

Abstract: Since 1990, the Pacific Fishery Management Council (Council) has annually developed its recommendations for specifications and management measures in a two-meeting process (usually its September and November meetings) followed by a NMFS final action published in the Federal Register and made available for public comment and correction after the effective date of the action. In 2001, NMFS was challenged on this process in Natural Resources Defense Council, Inc. v. Evans, 2001 168 F.Supp. 2d 1149 (N.D. Cal. 2001) and the court ordered NMFS to provide prior public notice and allow public comment on the annual specifications. Amendment 17 would respond to the court's order by revising the FMP's framework for developing specifications and management measures to incorporate NMFS publication of a proposed rule for the specifications and management measures, followed by a public comment period and a final rule. Amendment 17 would also respond to NMFS regulatory streamlining initiatives by implementing a biennial specifications and management measures process for Pacific Coast groundfish. Finally, it allows additional time for Council development of the management measures.

430. • CONTINUATION OF MEASURES TO REDUCE FISHING MORTALITY IN THE NORTHEAST MULTISPECIES FISHERY AND IMPLEMENT A DAS LEASING PROGRAM

Priority: Other Significant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 648

Legal Deadline: NPRM, Judicial, July 27, 2003, Court Order requires the continuation of measures implemented in the August 1, 2002, interim rule until the implementation of Amendment 13 to the Northeast Multispecies Fishery Management Plan.

Abstract: The action proposes to continue management measures currently in place, which are intended to reduce overfishing on species managed under the Northeast Multispecies Fishery Management Plan (FMP) while the New England Fishery Management Council completes development of Amendment 13 to the FMP. In addition, a days-at-sea leasing program is proposed that would allow leasing of DAS by limited access permit holders in order to increase flexibility in the fishery and enable some participants to remain economically viable.

431. • CHANGES TO ELIGIBILITY CRITERIA FOR BERING SEA AND ALEUTIAN ISLANDS CRAB LICENSE LIMITATION PROGRAM

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This rulemaking will amend eligibility criteria for Bering Sea and Aleutian Islands (BSAI) crab species licenses issued under the License Limitation Program which are necessary to participate in the BSAI crab fisheries. This action is necessary to allow participation in the BSAI crab fisheries in a manner intended by the North Pacific Fishery Management Council. The intended effect of this action is to prevent unnecessary restriction on the participation of vessels in the BSAI crab fisheries.

441. ● "OTHER SPECIES" CDQ RESERVE MANAGEMENT

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1801 et seq

CFR Citation: 50 CFR 679

Legal Deadline: None

Abstract: This regulatory amendment would revise how NMFS manages the

"other species" CDQ reserve. Although 7.5 percent of the "other species" would still be allocated to the "other species" CDQ reserve, the reserve would not be allocated to individual CDQ groups. "Other species" CDQ would initially be closed to directed fishing, and CDQ fishery participants would be subject to maximum retainable amount standards in relation to their "other species" CDQ catch. Once the aggregate "other species" CDQ catch reaches the annual 7.5 percent CDQ reserve amount, "other species" CDQ would be placed on prohibited species catch status. Further restrictions would not occur unless the harvest of "other species" by both CDQ and non-CDQ fisheries approached the overfishing level of this species complex.

Abstract: This rule will implement tuna fishery conservation and management measures recommended by the Inter-American Tropical Tuna Commission (IATTC) and approved by the Department of State for 2003. Historically, the IATTC takes action in June each year and the member nations (including the United States) implement the actions as soon as practicable thereafter. Among the actions anticipated is a quota for yellowfin tuna or a similar conservation measure to limit effort (e.g., a seasonal closure) and prevent overfishing of the yellowfin stock in the eastern Pacific.

RIN: 0648-AQ93**446. • WEST COAST COASTAL PELAGIC FISHERIES SARDINE ALLOCATION SYSTEM CHANGE****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660

Legal Deadline: Final, Statutory, July 2003, Important changes in the allocation process and criteria for Pacific sardine.

Final, Statutory, Final regulations to be published within 30 days of end of NPRM comment period.

Abstract: This rule will implement changes in the allocation process and criteria for Pacific sardine under the Fishery Management Plan for Coastal Pelagic Species Fisheries off the West Coast. The annual quota is set for all fishing coastwide, but the allocation system recognizes that there is seasonality in the availability of the fish to different portions of the coast. The current allocation system is being reviewed because some interests believe it unnecessarily restricts the fisheries and prevents achievement of the full allowable harvest of Pacific sardine. However, the current system was intended to ensure that fishing interests with long-standing involvement in the fishery would not be unfairly disadvantaged relative to new entrants into the fishery. The fishery has recently expanded to waters off Oregon and Washington, and these new entrants would like better opportunity to ensure that the full quota will be taken each year. Southern interests are concerned that there is too little known about the relationship between the northern component of the sardine stock and the southern component. Research is planned to address this point. However, a temporary adjustment in the allocation system may be warranted while this research is being conducted.

Abstract: This rule would implement management measures to amend some of the shark regulations currently issued under the Fishery Management Plan for Atlantic tunas, swordfish and sharks. Management measures that could change include commercial fishing quotas, recreational retention limits, minimum sizes, prohibited species, and the process for issuing permits for highly migratory species caught for display purposes. These changes would affect fishermen fishing for highly migratory species in the Atlantic, Gulf of Mexico, and Caribbean Sea.

448. • ANNOUNCEMENT OF THE OPTIMUM YIELD AND HARVEST LIMIT FOR PACIFIC MACKEREL**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 660**Legal Deadline:** Final, Statutory, July 2003.

The Coastal Pelagics Fisheries regulations require that the annual specifications for Pacific mackerel will be published in the FR before July 1, the start of the fishing season.

Abstract: This rule will announce the annual harvest guidelines for Pacific mackerel in the exclusive economic zone off the Pacific coast. The CPS FMP and its implementing regulations require NMFS to establish an annual harvest guideline for Pacific mackerel based on a formula in the FMP. This harvest guideline has been calculated according to the regulations implementing the Coastal Pelagic Species Fishery Management Plan (FMP) and establishes allowable harvest levels for Pacific mackerel off the Pacific coast.

Abstract: This action implements certain changes in the prohibitions on importing or exporting marine mammals or marine mammal parts and products that occurred with the enactment of the Marine Mammal Protection Act Amendments of 1994 (Pub. L. 104-238). This action prohibits the export of marine mammals or marine mammal products for purposes other than public display, scientific research, or enhancing the survival of a species or stock and establishes three new categories of exceptions to the prohibition on importing marine mammal parts and products. This is a

noncontroversial action that is not significant as it will have only minor effects on a small number of people, most of whom will benefit by the new exceptions.

(ISFMP). Addendum I to Amendment 3 of the ISFMP, approved by the Atlantic States Marine Fisheries Commission (ASMFC) on August 3, 1999, provides for the control of fishing effort as determined by historical participation in the American lobster trap fisheries in offshore waters of the Exclusive Economic Zone (EEZ) and areas of the EEZ closer to shore between New York and North Carolina. The addendum also clarifies lobster management area boundaries in Massachusetts waters. In addition, the ISFMP calls for the implementation of conservation equivalent trap limits in New Hampshire waters.

the fishery for the crab species covered by the Fishery Management Plan for the Bering Sea/Aleutian Islands King and Tanner Crabs. The crab reduction program makes payments for revoking crab licenses in, and withdrawing fishing vessels from, the crab fishery. Reducing the number of crab licenses and vessels in the crab fishery increases post-reduction harvesting productivity, helps conserve and manage the crab resources, and fosters the potential for rationalizing crab fishery harvesting effort. The regulations add a new section 600.1018 to the fishing capacity reduction framework regulations contained in subpart L to 50 CFR part 600.

472. ANTARCTIC MARINE LIVING RESOURCES VESSEL MONITORING SYSTEM AND CATCH DOCUMENTATION SCHEME

Priority: Other Significant

Legal Authority: 16 USC 2341 et seq

CFR Citation: 50 CFR 300

Legal Deadline: None

Abstract: This rule would lengthen the duration of the permit required to enter a Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR) Ecosystem Monitoring Program (CEMP) site from one year to five years. The rule would define the CCAMLR fishing season and require the use of an automated satellite-linked vessel monitoring system (VMS) for U.S. vessels harvesting Antarctic marine living resources (AMLR) in the area of the Convention on the Conservation of Antarctic Marine Living Resources (Convention). The rule would also require a non-resident consignee to designate a resident agent; prohibit the importation of Dissostichus species declared as harvested in certain high seas areas outside the Convention area; prohibit the import of

Dissostichus species issued a Specially Validated Dissostichus Catch Document (SVDCD); provide guidance on the disposition of AMLR seized by law enforcement personnel; and propose regulations to modify requirements for U.S. receivers and importers of Dissostichus species harvested in all waters, including those under the jurisdiction of CCAMLR. This rule is intended to implement U.S. obligations as a member of CCAMLR and to conserve Antarctic and Patagonian toothfish by preventing and discouraging unlawful harvest and trade in these species.

RIN: 0648-AQ55**486. ● CORRECTED AMENDMENT FOR A CHARTER VESSEL/HEADBOAT PERMIT MORATORIUM AMENDING THE GULF REEF FISH AND COASTAL PELAGICS FMPS****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** Final, Statutory, June 1, 2003.

Abstract: The National Marine Fisheries Service (NOAA Fisheries) promulgated the charter moratorium regulations (FR 67, 43558, June 28, 2002) to implement Amendment 14 to the Fishery Management Plan for the Coastal Migratory Fishery of the Gulf of Mexico and South Atlantic and Amendment 20 to the Fishery Management Plan for the Reef Fish Fishery of the Gulf of Mexico.

However, after reviewing the administrative record, NOAA General Counsel, NOAA Fisheries and the Gulf of Mexico Fishery Management Council (Council) determined that the amendment contained an error that did not correctly reflect the actions approved by the Council. Thus, the regulations implementing the amendment also contained this error, and not all persons entitled to receive charter vessel/headboat (for-hire) permits under the moratorium approved by the Council would be able to receive permits under the promulgated regulations. In order to ensure that no qualified participants in the fishery are wrongfully excluded under the moratorium, due to an error in the amendment, and to fully comply with Magnuson-Stevens Fishery Conservation and Management Act requirements, NOAA Fisheries is submitting this corrected amendment for Secretarial review to address this error and, as such, to reflect the actions approved by the Council. Specifically, this corrected amendment will eliminate one eligibility criteria in the final rule which states that the charter vessel headboat permits for Gulf coastal migratory pelagic fish or Gulf reef fish is limited to an owner of a vessel that had a valid Gulf charter vessel/headboat permit on the effective date of the final rule (July 29, 2002).

Abstract: NOAA Fisheries is revising the nomenclature and taxonomy for the northern right whale, *Balaena glacialis*, as it was listed in the List of Endangered and Threatened Wildlife revised October 1, 1999. With this revision, the northern right whale will now be classified as two separate species, the North Atlantic right whale, *Eubalaena glacialis*, and the North Pacific right whale, *Eubalaena japonica*. This revision is being made to reflect the currently accepted nomenclature for the genus as well as the genetic distinctiveness now recognized between Pacific and Atlantic right whale populations in the northern hemisphere. NOAA Fisheries is also updating the formerly-used genus *Balaena* to the genus *Eubalaena* to conform to the scientific name currently accepted by the scientific community and supported by the scientific literature.

Legal Deadline: NPRM, Judicial, November 23, 2001, The Federal District Court for the District of Massachusetts order.
Final, Judicial, December 31, 2001, The Federal District Court for the District of Massachusetts order.

Abstract: NMFS is preparing regulations to implement a SAM program for the 2002 fishing year, which was identified as a measure under the RPA that resulted from the biological opinions prepared for the Northeast multispecies, monkfish, spiny dogfish, and American lobster fisheries. The 2002 SAM program is intended as an incremental step to provide endangered western North Atlantic right whales protection from entanglement with fishing gear used in those fisheries. NMFS is preparing an EIS for more comprehensive SAM regulations for 2003 and beyond, in accordance with the National Environmental Policy Act (NEPA), to analyze the impacts on the human environment of the management alternatives under consideration. The measures that have been identified for the 2002 SAM proposed rulemaking requires reduction, elimination, and/or modification of certain types of fixed gear (i.e., gillnets and lobster traps) in specific areas off the Atlantic coast of the United States during times of the year when right whales are known to be present in significant concentrations.

CFR Citation: 50 CFR 424

Legal Deadline: None

Abstract: This draft policy evaluates conservation efforts in making listing decisions under the Endangered Species Act (ESA). The policy identifies considerations to be used in determining whether conservation plans and agreements, management plans or other efforts provide sufficient protections to preclude or remove the need to list a species under the ESA.

491. TAKING OF THE COOK INLET, ALASKA, STOCK OF BELUGA WHALES BY ALASKA NATIVES

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1371

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: NMFS is regulating subsistence harvest of Cook Inlet

Beluga to ensure that the harvest is sustainable and does not substantially delay the recovery of this marine mammal stock. Specific harvest levels and distribution of the harvest will be based upon cooperative agreements with Alaska native organizations.

492. RESTRICTIONS ON POUND NET LEADERS TO ENHANCE TURTLE PROTECTION IN VIRGINIA; THREATENED AND ENDANGERED SEA TURTLE CONSERVATION

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 222; 50 CFR 223; 50 CFR 224

Legal Deadline: None

Abstract: This action involves prohibiting the use of all pound net leaders measuring 12 inches or greater stretched mesh and all pound nets with stringer leaders in the Virginia waters of the mainstem Chesapeake Bay and the waters of the James River, York River, and Rappahannock River downstream of the first bridge in each tributary from May 8 to June 30. This action also includes a provision to extend the regulation if NMFS believes that sea turtles may still be vulnerable to entanglement in pound net leaders after June 30. Should an extension of the prohibition of pound net leaders measuring 12 inches or greater stretched mesh and leaders with

stringers be necessary, NMFS will file a notification with the Office of the Federal Register explicitly stating the duration of the extension. Additionally, this action incorporates a measure that if high strandings start to occur and/or monitoring of pound net leaders reveals new information about sea turtle interactions with pound net leaders less than 12 inches stretched mesh, NMFS may determine that additional restrictions are necessary. Should this occur, NMFS will immediately file a final rule with the Office of the Federal Register which explicitly states the mandatory gear modification as well as the affected area and the time period. Such additional restrictions may include prohibiting the use of all pound net leaders measuring 8 inches or greater stretched mesh or prohibiting the use of all pound net leaders regardless of mesh size in the Virginia waters of the mainstem Chesapeake Bay and portions of the Virginia tributaries from the date of publication to June 30.

493. LISTING ENDANGERED AND THREATENED WILDLIFE AND DESIGNATING CRITICAL HABITAT; 12-MONTH FINDING

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1361 et seq

CFR Citation: 50 CFR 223

Legal Deadline: None

DOC—NOAA

Final Rule Stage

Abstract: The National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Department of Commerce, announces the 90-day finding for a petition to reclassify the Northern and Florida Panhandle nesting subpopulations of the loggerhead (*Caretta caretta*) sea turtle from threatened to endangered and designate critical habitat under the Endangered Species Act (ESA). The Services find that the petition to reclassify presents substantial scientific information indicating that the petitioned action may be warranted. The Services find that the petition to designate critical habitat did not provide substantial scientific information to warrant further review. The Services will conduct a status review of the loggerhead turtle to determine whether the petitioned action is warranted. To ensure a comprehensive review, the Services are soliciting information and comments pertaining to this species from any interested party.

495. DESIGNATION OF CRITICAL HABITAT FOR GULF STURGEON

Priority: Other Significant**Legal Authority:** 16 USC 1531 et seq**CFR Citation:** 50 CFR 226**Legal Deadline:** NPRM, Judicial, May 23, 2002.

Final, Judicial, February 28, 2003.

Abstract: The National Marine Fisheries Service and U.S. Fish and Wildlife Service (collectively, the Services) jointly listed the Gulf sturgeon as "threatened" under the Endangered Species Act (ESA) in 1991. The ESA requires that critical habitat be designated for any listed species. On June 6, 2002, the Services proposed designating critical habitat for the Gulf sturgeon. The proposed designation includes seven freshwater and seven estuarine/marine units in the Gulf of Mexico as critical habitat. All of the units proposed as critical habitat are areas presently occupied by Gulf sturgeon during part of its life cycle. On August 8, 2002, the Services announced the availability of a draft economic analysis of the proposed designation, and extended the public comment period for the proposal to October 7, 2002. A final designation must be filed by February 28, 2003, per a court settlement agreement.

496. TAKING OF MARINE MAMMALS INCIDENTAL TO COMMERCIAL FISHING OPERATIONS; ATLANTIC LARGE WHALE TAKE REDUCTION PLAN REGULATIONS

Priority: Substantive, Nonsignificant**Legal Authority:** 16 USC 1361 et seq**CFR Citation:** 50 CFR 229**Legal Deadline:** None

Abstract: This proposed regulatory action is related to RIN 0648-AN88, a final rule which amended the regulations that implement the Atlantic Large Whale Take Reduction Plan and established a Dynamic Area Management (DAM) program. This proposed regulatory action involves the identification of acceptable fishing practices and gear which could be used under the DAM program.

RIN: 0648-AQ51**499. ● LIST OF FISHERIES FOR 2003****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1361 et seq**CFR Citation:** 50 CFR 229

Legal Deadline: NPRM, Statutory, January 2, 2003.
Final, Statutory, April 1, 2003.

Abstract: The National Marine Fisheries Service (NMFS) proposes to amend the 2003 List of Fisheries (LOF), as required by the Marine Mammal Protection Act (MMPA) (16 U.S.C. 1387(c)(1)), to update the status of commercial fisheries to reflect new information on the interaction with marine mammals. Under the MMPA, NMFS must place each commercial fishery on the LOF into one of three categories based upon the level of serious injury and mortality of marine mammals that occurs incidental to that fishery. The categorization of a fishery in the LOF determines whether participants in that fishery are subject to certain provisions of the MMPA, such as registration, observer coverage, and take reduction plan requirements.

543. • MODIFICATION OF THE REGULATIONS IMPLEMENTING FRAMEWORK ADJUSTMENT 35 (FRAMEWORK 35) TO THE NORTHEAST MULTISPECIES FISHERY MANAGEMENT PLAN (FMP)**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 648**Legal Deadline:** None

Abstract: Framework 35 established an exempted small mesh whiting fishery in the Gulf of Maine, near Provincetown, MA. The fishery occurs from September 1 through November 20 each year and requires the use of raised footrope trawl gear. This rule modifies the boundaries of the current exemption area through inclusion of an area east of Cape Cod and would allow the fishery to continue in the newly-added eastern portion of the exemption area through December 31 each year.

This action is not likely to be controversial. The fishery was widely supported as an experimental fishery and provided Massachusetts fishermen with an opportunity to redirect fishing effort away from regulated multispecies. Adding the area east of Cape Cod (Area 3) to the Raised Footrope Trawl Whiting Fishery Exemption Area, after successfully being prosecuted as an experimental fishery, would open the fishery to a wider range of participants, allow continuation of the fishery in the newly-added portion through the end of December each year, and provide for an alternative for fishermen under current restrictions.

RIN: 0648-AQ50**544. • RESCIND A FINAL RULE IMPLEMENTING A CHARTER VESSEL/HEADBOAT PERMIT MORATORIUM AMENDING THE REEF FISH FISHERY MANAGEMENT PLAN (AMENDMENT 20) AND COASTAL MIGRATORY PELAGICS FISHERY MANAGEMENT PLAN****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1801 et seq**CFR Citation:** 50 CFR 622**Legal Deadline:** Final, Statutory, December 2002.

Abstract: NOAA Fisheries promulgated the charter moratorium regulations (FR 67, 43558, June 28, 2002) to implement Amendment 14 to the Fishery Management Plan for the Coastal Migratory Fishery of the Gulf of Mexico and South Atlantic and Amendment 20 to the Fishery Management Plan for the Reef Fish Fishery of the Gulf of Mexico. However, after reviewing the administrative record, NOAA Fisheries and the Council have determined that the amendment contained errors that did not correctly reflect the actions approved by the Council. Thus, the regulations implementing the amendment also contained these errors, and not all persons entitled to receive charter vessel/headboat permits under the moratorium approved by the Council would be able to receive permits under the erroneous regulations. These regulations require all charter operators in the Gulf of Mexico exclusive economic zone have a valid "moratorium permit," as opposed to the prior open access charter permit, beginning December 26, 2002. In order to ensure that no participants in the fishery are adversely affected by the regulations, and to fully comply with Magnuson-Stevens Fishery Conservation and Management Act requirements, NOAA Fisheries is promulgating an interim final rule to rescind the erroneous regulations and reinstate the "open access" system that existed previously. The open access system will remain in effect until NOAA Fisheries can issue a notice of availability of the corrected amendment for public comment and conduct a rulemaking based on the corrected amendment with the moratorium as it was approved by the Council.

Abstract: The notice of request for submission of Atlantic Sea Scallop proposals to conduct research activities under Framework 15 to the Atlantic Sea Scallop Fishery Management Plan announces a program to set aside 1 percent of the sea scallop total allowable catch level to be established for the Hudson Canyon and Virginia Beach Areas in fishing year 2003, for the purpose of funding sea scallop research. Vessels participating in an approved research project submitted in response to the notice of request for proposals would be authorized to land scallops in excess of the proposed possession limit, or to take additional trips above those proposed in the program, and use the proceeds of the excess catch or additional trips to offset the costs of the approved research project.

Abstract: The notice of request for submission of proposals funded under a research set-aside program (RSP) for fishing year 2004. NMFS announces that up to 3 percent of the total allowable landings will be dedicated to research endeavors under the RSP. The RSA provides a mechanism to fund research and compensate vessels through the sale of fish harvested under the research quota. NMFS is soliciting proposals for research activities concerning the summer flounder, scup, black sea bass, Loligo squid, Illex squid, Atlantic mackerel, butterfish, bluefish, and tilefish fisheries.

Abstract: This rule would propose changes to the Pacific halibut catch sharing plan proposed by the States of WA, OR, and CA that would provide more flexibility in managing the recreational fisheries inseason in order to fully utilize the available halibut; allocate halibut fishing opportunities between the May and June recreational fisheries off Washington's north coast;

and prohibit fishing for halibut in areas where yelloweye rockfish, an overfished species, are commonly found. This proposed rule would also propose sport fishing seasons for 2003 that implement the catch sharing plan based on the expected total allowable catch in 2003 that is established by the International Pacific Halibut Commission.

553. • TAKING AND IMPORTING OF MARINE MAMMALS: TAKINGS INCIDENTAL TO POWER PLANT OPERATIONS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1371 et seq

CFR Citation: 50 CFR 216

Legal Deadline: None

Abstract: A final rule authorizing the unintentional take of small numbers of harbor seals, gray seals, harp seals, and hooded seals incidental to the routine operation of the Seabrook Station nuclear power plant was issued for the North Atlantic Energy Services Corporation (NAEC) on May 25, 1999 (64 FR 28114) and are effective until 2004. The purpose of this final rule is to effect non-substantive modifications to the regulations that will relieve a regulatory burden on the NAEC and subsequent owners of Seabrook. These changes will remove mitigation requirements that are no longer appropriate and to facilitate transfer of the appropriate authorization under the Marine Mammal Protection Act to new owners when the power plant is sold later this year.

Legal Deadline: None

Abstract: NMFS issues this temporary action to allow the use of limited tow times by shrimp trawlers as an alternative to the use of Turtle Excluder Devices (TEDs) in the waters off Louisiana and Alabama. The exempted area in Louisiana consists of all the Louisiana state waters east of 92 degrees 20 minutes W. longitude (approximately at Fresh Water Bayou in Vermilion Parish, Louisiana); Federal waters are not included. The exempted area in Alabama consists of the inshore waters (inshore waters are landward of the COLREGS demarcation line) of Bon Secour Bay, Mobile Bay, and Mississippi Sound, south of the Intracoastal Waterway. This exemption will be in effect for 30 days.

Abstract: The United States Patent and Trademark Office (Office) is proposing to revise the rules of practice to improve the patent application and

examination process by promoting quality enhancement and reducing patent pendency. For example, the Office is proposing: (1) changes to facilitate the filing of applications and subsequent papers by facsimile or electronic mail message over the Internet; (2) changes to the manner in which applicants bring pertinent information to the Office's attention and how the Office uses that information; and (3) changes to allow the Office to terminate proceedings on an application if the applicant refuses to prosecute the application with reasonable diligence. These changes to the patent application and examination process are necessary for the Office to be able to process an ever-increasing number of applications within a reasonable time frame.

RIN: 0651-AB56**559. • CHANGES TO IMPLEMENT THE 2002 INTER PARTES REEXAMINATION AND OTHER TECHNICAL AMENDMENTS TO THE PATENT STATUTE****Priority:** Substantive, Nonsignificant**Legal Authority:** 35 USC 2(b)(2); PL 107-273**CFR Citation:** 37 CFR 1**Legal Deadline:** None

Abstract: The 21st Century Department of Justice Appropriations Authorization Act contains a title relating to intellectual property. The patent-related provisions in the intellectual property title of the 21st Century Department of Justice Appropriations Authorization Act include provisions permitting a third party requester in an inter partes reexamination proceeding to appeal a final decision by the Board of Patent Appeals and Interferences to the U.S. Court of Appeals for the Federal Circuit, and to participate in the patent owner's appeal of a final decision by the Board of Patent Appeals and Interferences to the U.S. Court of Appeals for the Federal Circuit. Also included are technical amendments to statutory provisions directed to inter partes reexamination, eighteen-month publication of patent applications and provisional rights, and issuance of patents. The United States Patent and Trademark Office (Office) is in this notice proposing changes to the rules of practice to implement the patent-related provisions of the 21st Century Department of Justice Appropriations Authorization Act, and other miscellaneous changes related to appeals in reexamination proceedings.

RIN: 0651-AB57**560. • CHANGES TO IMPLEMENT ELECTRONIC MAINTENANCE OF OFFICIAL PATENT APPLICATION RECORDS****Priority:** Substantive, Nonsignificant**Legal Authority:** 35 USC 2(b)(2)**CFR Citation:** 37 CFR 1**Legal Deadline:** None

Abstract: The United States Patent and Trademark Office (Office) has established a 21st Century Strategic Plan to transform the Office into a quality-focused, highly productive, responsive organization supporting a market-driven intellectual property system. One priority of the 21st Century Strategic Plan is the beginning-to-end electronic processing of patent applications. The Office is proposing changes to the rules of practice in this notice to adapt to a patent electronic image management system. Specifically, the changes proposed in this notice facilitate electronic data capture and processing, streamline the patent application process, and simplify and clarify the pertinent provisions of the rules of practice.

RIN: 0651-AB60**562. • REVISION OF SEARCH AND PRELIMINARY EXAMINATION FEES FOR INTERNATIONAL APPLICATIONS****Priority:** Substantive, Nonsignificant**Legal Authority:** 35 USC 2(b)(2); 35 USC 376; ...**CFR Citation:** 37 CFR 1**Legal Deadline:** None

Abstract: The United States Patent and Trademark Office (Office) is proposing to adjust the international search and international preliminary examination fees for international applications filed under the Patent Cooperation Treaty (PCT). The Office is planning to outsource the international search under PCT chapter I for international applications. The Office is proposing to adjust the international search and international preliminary examination fees to more closely reflect the estimated cost of obtaining a PCT chapter I search and conducting the international preliminary examination under the new process. The Office is also proposing miscellaneous changes to the rules of practice in patent cases that relate to the United States Patent and Trademark Fee Modernization Act of 2003.

Final Rule Stage
563. ELIMINATION OF CONTINUED PROSECUTION APPLICATION PRACTICE AS TO UTILITY AND PLANT

Priority: Substantive, Nonsignificant

Legal Authority: 35 USC 2(b)(2)

CFR Citation: 37 CFR 1

Legal Deadline: None

Abstract: The American Inventors Protection Act of 1999 (AIPA) enacted provisions for the continued examination of a utility or plant application at the request of the applicant (request for continued examination or RCE practice). Therefore, there no longer appears to be a need for continued prosecution application (CPA) practice as to utility and plant applications. Thus, the Office is eliminating CPA practice as to utility and plant applications. An applicant for a utility or plant patent may also continue to effectively obtain further examination of the application by filing a continuing application under section 1.53(b). Since RCE practice does not apply to design applications, CPA practice will remain in place for design applications.

564. CHANGES TO IMPLEMENT PATENT-RELATED PROVISIONS OF THE UNITED STATES PATENT AND TRADEMARK FEE MODERNIZATION ACT OF 2003

Priority: Substantive, Nonsignificant

Legal Authority: 35 USC 41, 2(b)(2)

CFR Citation: 37 CFR 1

Legal Deadline: None

Abstract: The United States Patent and Trademark Office Fee Modernization Act of 2003 would (if enacted) revise patent fees in general, and provides for a search fee and examination fee that are separate from the filing fee. The United States Patent and Trademark Office Fee Modernization Act of 2003 also provides that the United States Patent and Trademark Office may, by regulation, provide a refund of any part

of the excess claim fee for any claim that is canceled before an examination has been made of the application, provide a refund of any part of the examination fee and the search fee for any applicant who files a written declaration of express abandonment as prescribed by the Office before an examination has been made of the application, and provide a refund of any part of the examination fee and the search fee for any applicant who provides a search report that meets the conditions prescribed by the Office. This rulemaking implements the changes to the patent fees contained in the United States Patent and Trademark Office Fee Modernization Act of 2003.

Abstract: The United States Patent and Trademark Office (USPTO) is revising its rules of practice to simplify the requirements for: (1) filing application for registration based on a foreign registration under 15 U.S.C. 1126(e);

and (2) designation of a domestic representative party who is not domiciled in the United States. These changes implement the changes to the Trademark Act of 1946, 15 U.S.C. 105 et seq., made by the Technical Corrections in Trademark Law Act, title III, subtitle B, Sec. 13207 of Pub. L. 107-273, 116 Stat. 1758. USPTO is also making some minor technical corrections to the rules of practice.
