48 CFR Ch. 14

50 CFR Chs. I and IV

Semiannual Regulatory Agenda

AGENCY: Office of the Secretary, Interior.

ACTION: Semiannual regulatory agenda.

SUMMARY: This notice provides the semiannual agenda of rules scheduled for review or development between April 2003 and October 2003. The Regulatory Flexibility Act and Executive Order 12866 require publication of the agenda.

ADDRESSES: Unless otherwise indicated, all agency contacts are located at the Department of the Interior, 1849 C Street NW., Washington, DC 20240.

FOR FURTHER INFORMATION CONTACT: You should direct all comments and inquiries with regard to these rules to the appropriate agency contact. You should direct general comments relating to the agenda to the Office of Regulatory Affairs, Department of the Interior, at the address above or on 202-208-5257 or 202-208-3071.

SUPPLEMENTARY INFORMATION: With this publication, the Department satisfies the requirement of Executive Order 12866 that the Department publish an agenda of rules that we have issued or expect to issue and of currently effective rules that we have scheduled for review.

Simultaneously, the Department meets the requirement of the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) to publish an agenda in April and October of each year identifying rules that will have significant economic effects on a substantial number of small entities. We have specifically identified in the agenda rules that will have such effects.

Date: April 10, 2003.

Richard A. Stephan,
Federal Register Liaison Officer.

Assistant Secretary for Policy, Management and Budget—Proposed Rule Stage

Sequence Number	Title	Regulation Identification Number
1352	Natural Resource Damage Assessments: Type B Procedures	1090-AA29
1353	Department Hearings and Appeals; Special Rules Applicable to Public Land Hearings and Appeals	1090-AA68
1354	Department Hearings and Appeals; Procedures Applicable in Adjudications Before the Hearings Division	1090-AA73
1355	Nonprocurement Suspension and Debarment; Drug-Free Workplace Grant Requirements	1090-AA79
1356	Amendment of Authority to Grant Stays of BLM Grazing Decisions	1090-AA84

Assistant Secretary for Policy, Management and Budget—Final Rule Stage

Sequence Number	Title	Regulation Identification Number
1357	Nondiscrimination in Federally Assisted Programs of the Department of the Interior on the Basis of Race, Color, National Origin, Handicap, or Age	1090-AA77
1358	Amendment of Authority To Grant Stays of Grazing Decisions	1090-AA83

Assistant Secretary for Policy, Management and Budget—Completed Actions

Sequence Number	Title	Regulation Identification Number
1359	Records and Testimony; Freedom of Information Act	1090-AA61
1360	Department Hearings and Appeals Procedures; Procedures Applicable in Indian Probate Hearings	1090-AA81

United States Fish and Wildlife Service—Prerule Stage

Proposed Rule Stage

Assistant Secretary for Policy, Management and Budget (ASPMB)

1352. NATURAL RESOURCE DAMAGE ASSESSMENTS: TYPE B PROCEDURES

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 42 USC 9651(c)

CFR Citation: 43 CFR 11

Legal Deadline: None

Abstract: CERCLA and the Clean Water Act allow natural resource trustees to bring a claim against a potentially responsible party for resources that have been injured by a release of a hazardous substance. CERCLA requires that natural resource damage assessment regulations be promulgated and that the regulations be reviewed, and revised as appropriate, every two

years. This rulemaking is the biennial review of the administrative process for conducting assessments as well as the so-called type B procedures for determining injury and damages through scientific and economic studies. This rulemaking will also address the calculation of lost non-use values of natural resources, in compliance with State of Ohio v.

DOI—ASPMB

Proposed Rule Stage

Department of the Interior, 880 F.2d 432 (D.C. Cir. 1989), which ordered the Department to allow for the assessment of all reliably calculated values lost as a result of a natural resource injury.

1353. DEPARTMENT HEARINGS AND APPEALS; SPECIAL RULES APPLICABLE TO PUBLIC LAND HEARINGS AND APPEALS

Priority: Substantive, Nonsignificant

Legal Authority: 43 USC 1201

CFR Citation: 43 CFR 4.401(c)(2); 43 CFR 4.403 to 4.408; 43 CFR 4.414; 43 CFR 4.415; 43 CFR 4.422(c)(2); 43 CFR 4.450-5

Legal Deadline: None

Abstract: This document proposes to amend procedural rules governing hearings and appeals in public-lands cases. The amendments are necessary to conform the rules to procedural practices contained in decisions of the Interior Board of Land Appeals. The amended rules would provide parties more complete information and more up-to-date procedures than the existing rules.

1356. • AMENDMENT OF AUTHORITY TO GRANT STAYS OF BLM GRAZING DECISIONS

Priority: Substantive, Nonsignificant

Legal Authority: 43 USC 315a; 43 USC 1201

CFR Citation: 43 CFR 4.21; 43 CFR 4.470; 43 CFR 4.472; 43 CFR 4.476; 43 CFR 4.477

Legal Deadline: None

Abstract: The Office of Hearings and Appeals is proposing to amend its existing regulations to authorize OHA administrative law judges to decide petitions for a stay of grazing decisions issued by the Bureau of Land Management and requests to place such decisions into immediate effect. The proposal is designed to expedite administrative review by eliminating an inefficient bifurcation of authority.

1357. NONDISCRIMINATION IN FEDERALLY ASSISTED PROGRAMS OF THE DEPARTMENT OF THE INTERIOR ON THE BASIS OF RACE, COLOR, NATIONAL ORIGIN, HANDICAP, OR AGE

Priority: Substantive, Nonsignificant
Legal Authority: 29 USC 794; 42 USC 2000d-1; 42 USC 6101 et seq
CFR Citation: 43 CFR 17
Legal Deadline: None

Abstract: This proposed joint rule will incorporate the broadened definitions of the terms program and program or activity as contained in the Civil Rights Restoration Act of 1987 (CRRRA). The CRRRA broadened the definitions of those terms so that all operations of an entity that receives Federal financial assistance are covered, not just the particular part receiving the Federal assistance.

1361. PARTNERS FOR FISH AND WILDLIFE PROGRAM

Priority: Info./Admin./Other

Legal Authority: 16 USC 742(a) to 754

CFR Citation: None

Legal Deadline: None

Abstract: Portions of the U.S. Fish and Wildlife Service manual are being revised to update policy on the implementation of the Partners for Fish and Wildlife Program. This program provides private landowners with cost-sharing and restoration expertise to restore fish and wildlife habitat. The program does not acquire lands and is a voluntary incentive program. The revisions update policy, incorporate Office of Inspector General recommendations, and clarify technical assistance and cost-sharing in light of changes in U.S. Department of Agriculture conservation programs.

Abstract: The Service proposes to amend regulations in 50 CFR part 12 that establish procedures relating to

property seized and administrative forfeiture under various laws enforced by the Service. This revision is intended to provide uniform guidance for the bonded release, appraisal, administrative proceeding petition for remission, and disposal of items subject to forfeiture. Also, these revisions are intended to provide for greater consistency of Service seizure and forfeiture procedures with those of the U.S. Customs Service. In August 2000, the Civil Asset Forfeiture Reform Act became law. CAFRA mandated many changes to 50 CFR 12 that are incorporated in this proposed rule.

ENDANGERED AND THREATENED WILDLIFE AND PLANTS; TIBETAN ANTELOPE****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1531 et seq**CFR Citation:** 50 CFR 17**Legal Deadline:** Other, Statutory, 12 month finding.**Abstract:** We received a petition to list the Tibetan antelope as endangered. We must determine if status review shows that the petitioned action is warranted. If so, we will propose endangered status for the Tibetan antelope, or chiru (*Pantholops hodgsoni*). The antelope is a wild ungulate native to Tibet, Kashmir, and north-central China. It is threatened by illegal trade in its wool, known as shahtoosh, which is exceptionally fine. The wool and shawls made from it are in great demand on the black market, resulting in the slaughter of thousands of these animals annually. The species has

experienced dramatic declines in recent years despite efforts by range countries to control poaching, as well as a prohibition on international commercial trade through listing in appendix I of CITES.

1397. 2003-2004 REFUGE SPECIFIC HUNTING AND SPORT FISHING REGULATIONS

Priority: Substantive, Nonsignificant**Legal Authority:** 5 USC 301; 16 USC 460; 16 USC 664; 16 USC 668(dd) to 668(ee); 16 USC 715(i)**CFR Citation:** 50 CFR 32**Legal Deadline:** None

Abstract: We propose to open additional National Wildlife Refuges to hunting and/or sport fishing and to provide refuge-specific regulations for those activities. This is an annual update for the National Wildlife Refuge System that ensures adequate public notice of openings/changes each fall. We operate hunting/fishing programs on National Wildlife Refuges in furtherance of the implementation of the National Wildlife Refuge System Improvement Act of 1997 directives to facilitate compatible priority wildlife-dependant recreational opportunities.

RIN: 1018-AI92**1417. • MIGRATORY BIRD HUNTING; PROPOSED 2003-2004 MIGRATORY GAME BIRD HUNTING REGULATIONS (PRELIMINARY) WITH REQUESTS FOR INDIAN TRIBAL PROPOSALS****Priority:** Economically Significant. Major under 5 USC 801.**Legal Authority:** 16 USC 703 to 711; 16 USC 712; 16 USC 742(a) to 742(j)**CFR Citation:** 50 CFR 20**Legal Deadline:** None

Abstract: This rule would establish annual hunting regulations for certain migratory game birds for the 2003-2004 hunting season. We annually prescribe outside limits (frameworks) within which States may select hunting seasons. We also request proposals from Indian tribes that wish to establish special migratory bird hunting regulations on Federal Indian reservations and ceded lands. Migratory game bird hunting seasons provide hunting opportunities for recreation and sustenance; aid Federal, State, and tribal governments in the management of migratory game birds; and permit harvests at levels compatible with migratory bird population status and habitat conditions.

1423. ● ENDANGERED SPECIES ACT COUNTERPART SECTION 7 CONSULTATION REGULATIONS FOR IMPLEMENTING THE NATIONAL FIRE PLAN

Priority: Other Significant. Major status under 5 USC 801 is undetermined.

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 402.02; 50 CFR 418 to 423

Legal Deadline: None

Abstract: These counterpart regulations will revise the existing Endangered Species Act consultation procedures by allowing agencies implementing the National Fire Plan to make determinations that proposed actions are “not likely to adversely affect” threatened or endangered species or designated critical without the need to obtain written concurrence from the Fish and Wildlife Service or the National Marine Fisheries Service. The regulation will streamline the consultation process for National Fire Plan projects and is expected to achieve the same protections presently afforded to species protected under the Endangered Species Act.

1424. ● ENDANGERED AND THREATENED WILDLIFE AND PLANTS; DELISTING THE EASTERN DISTINCT POPULATION SEGMENT OF THE GRAY WOLF

Priority: Other Significant

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: We are planning to remove the eastern Distinct Population Segment (DPS) of the gray wolf, consisting of 21 States, from the list of Endangered and Threatened Species. The reasons for this action are the following: the achievement of all recovery criteria and completion of suitable state wolf management plans by Minnesota, Wisconsin, and Michigan.

Priority: Other Significant

Legal Authority: 16 USC 1531 et seq

CFR Citation: 50 CFR 17

Legal Deadline: None

Abstract: We plan to remove the western Distinct Population Segment (DPS) of the gray wolf from the List of Endangered and Threatened Species. The reason for this action is the following: On the basis of estimates compiled in December 2002, we

conclude that the wolf population has achieved the required third year of its population recovery criteria.

1462. ENDANGERED AND THREATENED WILDLIFE AND PLANTS; BELUGA STURGEON**Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 1531 et seq; 16 USC 4201; PL 99-625**CFR Citation:** 50 CFR 17**Legal Deadline:** Other, Statutory, Notice of 90-day finding.

We must determine if petitioned action is warranted within 90 days or as soon as possible after receipt of petition.

Abstract: Based upon a review of the species in response to a petition, we may propose to list the Beluga sturgeon (*Huso huso*) as endangered. This species historically inhabited the Caspian, Black, Azov and Adriatic Seas and all rivers flowing into them. The Adriatic Sea population has been extirpated, and no wild Beluga sturgeon has been found in the Sea of Azov since the mid 1980s. This species has declined due to fishing pressure. This species is highly valued for its caviar and is subject to both legal and substantial levels of illegal fishing. The Beluga sturgeon has also been impacted by dam building and other forms of habitat modification.

RIN: 1018-AI62**1477. MIGRATORY BIRD SUBSISTENCE HARVEST IN ALASKA; REGULATIONS FOR THE SPRING AND SUMMER 2003 SEASON****Priority:** Substantive, Nonsignificant**Legal Authority:** 16 USC 703 to 712; 16 USC 742a to 742j**CFR Citation:** 50 CFR 92**Legal Deadline:** None

Abstract: This is the first of annual regulations that will prescribe frameworks for harvest dates, species that can be taken, and methods and means for subsistence harvest of migratory birds during the spring and summer in Alaska. These regulations were developed under a new process involving the Service, the Alaska Department of Fish and Game, and Alaska Native representatives. A 1916 treaty with Canada established a closed season for the taking of migratory birds between March 10 and September 1. The governments of Canada, Mexico, and the United States recently amended the 1916 treaty and a subsequent 1936 treaty to provide for the legal subsistence harvest of migratory birds and their eggs in Alaska and Canada during the closed season.

1526. • SUBSISTENCE MANAGEMENT REGULATIONS FOR PUBLIC LANDS IN ALASKA

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 3101 to 3126

CFR Citation: 50 CFR 100; 36 CFR 242

Legal Deadline: None

Abstract: The U.S. Forest Service and U.S. Fish and Wildlife Service are amending the regulations governing

subsistence use of wildlife in Alaska by clarifying how old a person must be to receive a Federal Subsistence Registration Permit or Federal Designated Harvester Permit and by removing the requirement that Regional Councils must have an odd number of members. These changes are noncontroversial and are designed to ensure that the regulations for the Federal Subsistence Management Program in Alaska are easy for the public to understand and reflect current policies.

1541. VEHICLES AND TRAFFIC SAFETY; OPERATING UNDER THE INFLUENCE OF ALCOHOL OR DRUGS

Priority: Substantive, Nonsignificant

Legal Authority: 16 USC 1; 16 USC 3; 16 USC 462k; 16 USC 9a

CFR Citation: 36 CFR 4.23

Legal Deadline: None

Abstract: The National Park Service (NPS) is proposing to amend its regulations concerning motor vehicle operation under the influence of alcohol within units of the NPS. Current NPS regulations prohibit operation with a blood alcohol concentration (BAC) of 0.10 grams or more of alcohol per 100 milliliters of blood or 0.10 grams of alcohol per 210 liters of breath. On March 3, 1998, President Clinton directed the NPS to promulgate regulations adopting a stricter limit of 0.08 grams BAC within units of the NPS.

1545. VIRGIN ISLANDS CORAL REEF NATIONAL MONUMENT; SPECIAL REGULATIONS

Priority: Other Significant

Legal Authority: 16 USC 1; 16 USC 3; 16 USC 462(k); 16 USC 9a

CFR Citation: 36 CFR 7.103; 36 CFR 7.73

Legal Deadline: None

Abstract: This is an interim regulation to implement Presidential Proclamation No. 7932, which established the Virgin Islands Coral Reef National Monument. This regulation prohibits extractive uses, with some exceptions, and anchoring within the monument, and expands the boundaries of Buck Island Reef National Monument. The regulation also implements Presidential Proclamation No. 7399, which prohibits all extractive uses and boat anchoring, except in deep sand areas (all other anchoring is subject to permit) at Buck Island. Both proclamations require NPS to prepare management plans for each park within three years. We are

soliciting comments on this interim rule and will take them into account in developing the final rule once we have completed the general management plans.

1575. RIGHTS-OF-USE AND EASEMENTS AND PIPELINE RIGHTS-OF-WAY

Priority: Other Significant

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 250

Legal Deadline: None

Abstract: MMS is proposing to modify requirements governing rights-of-use and easement and pipeline rights-of-way in the Outer Continental Shelf. These changes will increase rental rates for pipeline rights-of-way and establish rentals for rights-of-use and easements. The proposed rule will also allow MMS to charge additional payment when the right-of-use and easement or the pipeline right-of-way prevents MMS from making the area available to other companies for exploration and possible development and production. This change is needed because of requests by lessees and pipeline right-of-way holders to use large areas outside of the area covered by their lease and pipeline right-of-way for accessory structures.

1577. DATA RELEASE AND DEFINITIONS

Priority: Substantive, Nonsignificant

Legal Authority: 43 USC 1331

CFR Citation: 30 CFR 250 subpart A

Legal Deadline: None

Abstract: This rule will amend 30 CFR part 250 by adding a new definition revising the existing definition, clarifying or expanding certain requirements, and making administrative changes. We are adding a new definition for the term “production in paying quantities” to enable us to determine how much production qualifies as lease holding production. We are specifying the submission of progress reports and final reports for suspensions of production and suspensions of operations to ensure

that the lessee/operator is diligent in pursuing performance of their lease. We are adding a new section pertaining to notifying MMS on production status. We are reorganizing the forms data release table and adding entries for three new forms. We are expanding the requirements pertaining to submitting digital data.

RIN: 1010–AC99

1578. RELIEF OR REDUCTION IN ROYALTY RATES — DEEP GAS PROVISIONS

Priority: Economically Significant. Major under 5 USC 801.

Legal Authority: 43 USC 1331 et seq

CFR Citation: 30 CFR 203

Legal Deadline: None

Abstract: Declines in outer continental shelf production from existing fields need to be offset by new sources to keep up with growing demand. Very little of the deep gas potential in shallow water areas of the Gulf of Mexico has yet been explored. Extensive infrastructure already exists in shallow water, unlike in deep water, so new production could reach market quickly. Because the most prospective tracts in shallow water are already under lease, most of the deep gas potential in shallow water may already have been acquired. This rule proposes temporary incentives in the form of royalty suspension volumes for deep wells (at least 15,000 feet below significant energy action level) on existing leases that explore for or produce gas.

Statement of Need: Very little of the deep gas potential in shallow water areas of the Gulf of Mexico has yet been explored. Extensive infrastructure

already exists in shallow water, unlike in deep water, so new production could reach market quickly. Because the most productive tracts in shallow water are already under lease, most of the deep gas potential in shallow water may already have been acquired. This rule would accelerate exploration and production of deep gas by providing temporary incentives in the form of royalty suspension volumes for deep wells on existing leases that explore for or produce gas.

Summary of Legal Basis: The OCS Lands Act is the basis for our regulations on suspending or lowering royalties on “producing” OCS leases. The Deep Water Royalty Relief Act, which amended the OCS Lands Act, is the basis for regulations to reduce or eliminate royalty on “non-producing” leases in the Gulf of Mexico west of 87 degrees, 30 minutes West longitude. It gives the Secretary of the Interior this authority to (1) promote development or increased production on producing and non-producing leases, or (2) encourage production of marginal resources on producing and non-producing leases.

Alternatives: There are two alternatives — providing incentives only through the lease sale process, or through an application process. Reserving the deep gas incentive only for new leases issued in future sales will not encourage exploration and production of much of the deep gas potential that underlies existing leases. Many of the best blocks have not been through a sale in decades. Also, new leases would be less able to use the existing infrastructure than existing leases so additional gas production would be delayed. Granting royalty relief on a case-by-case basis to existing leases would better protect against unnecessary royalty relief but is unlikely to encourage much additional production. The unavoidable complexity and delays in a system like we use in the discretionary deep water royalty relief program would discourage many lessees and delay the desired activity by those that would apply.

Risks: The risk of not offering royalty relief provided in this rulemaking; action is that some deep gas resources in shallow water will not be developed, at least not during a period when growing demand and declines in traditional sources for natural gas will lead to volatile prices.

1579. REDUCTION TO ROYALTY RELIEF IN SPECIAL CIRCUMSTANCES**Priority:** Substantive, Nonsignificant**Legal Authority:** 43 USC 1331 et seq**CFR Citation:** 30 CFR 203**Legal Deadline:** None

Abstract: The recently published final rule 1010-AC71 created a process for certain leases (those that are inadequately helped by our formal relief systems) to seek special royalty relief. However overly restrictive eligibility criteria may exclude some leases that fulfill statutory purposes while redundant criteria may include other leases that do not fit statutory purposes. This rule will refine the eligibility criteria to include marginal discoveries in the shallow water part of the Gulf of Mexico that may offer meaningful conservation or infrastructure preservation benefits. The revision will also disallow a royalty relief request by a lease or project that does not promote wider program goals or is only temporarily unable to benefit from a formal royalty relief program.

RIN: 1010-AC47**1583. PROPRIETARY TERMS AND DATA DISCLOSURE****Priority:** Substantive, Nonsignificant**Legal Authority:** 43 USC 1331**CFR Citation:** 30 CFR 250; 30 CFR 251**Legal Deadline:** None

Abstract: This rule would modify the proprietary terms for geophysical data and information and any of their derivatives that MMS acquires under 30 CFR part 251. We propose to change the beginning of the proprietary terms from the date of submission to MMS to the date MMS issues the permit. The rule would also allow selective disclosure of geological and geophysical data and information and allow selective disclosure of data and information generated on a lease to persons with a direct interest in issues concerning field determination and royalty relief eligibility.

RIN: 1010-AC81**1584. DEALING WITH SUSTAINED CASING PRESSURE****Priority:** Substantive, Nonsignificant**Legal Authority:** 43 USC 1331**CFR Citation:** 30 CFR 250**Legal Deadline:** None

Abstract: This rule amends subpart E (Oil and Gas Well- Completion Operations) of MMS operating regulations. It describes procedures for dealing with sustained casing pressure in oil and gas wells on the Outer Continental Shelf. Currently lessees must request a departure from MMS regulations to operate a well that has sustained casing pressure. When granting a departure, MMS requires that lessees perform periodic checks and evaluations to ensure that the pressure is not a danger to personnel, equipment, or the environment. This rule will codify these procedures and ensure uniform regulatory practices among MMS regional offices. The changes will also help ensure that lessees will continue to conduct operations in a safe manner.

RIN: 1010-AC83**1585. DOCUMENTS INCORPORATED BY REFERENCE FOR OFFSHORE FLOATING PRODUCTION FACILITIES****Priority:** Substantive, Nonsignificant**Legal Authority:** 43 USC 1331**CFR Citation:** 30 CFR 250**Legal Deadline:** None

Abstract: We are proposing to amend our regulations to better address floating offshore platforms that, until now, have not been expressly covered. This will require a complete rewrite of subpart I to include floating production systems. These systems are variously described as column-stabilized units; floating production, storage, and offloading facilities; tension-leg

platforms; spars; etc. We are also incorporating into our regulations a body of industry standards pertaining to floating productions systems, and this will save the public the costs of developing government standards.

RIN: 1010-AC95

1588. VALUATION OF OIL FROM INDIAN LEASES

Priority: Other Significant

Legal Authority: 25 USC 2101 et seq; 25 USC 396 et seq; 25 USC 396a et seq; 30 USC 1001 et seq; 30 USC 1701 et seq; 30 USC 351 et seq; 30 USC 181 et seq

CFR Citation: 30 CFR 206**Legal Deadline:** None

Abstract: This rule would modify the regulations that establish royalty value for oil produced from Indian leases and create a new form for collecting value and differential data. These changes would decrease reliance on oil posted prices and make Indian oil royalty valuation more consistent with the terms of Indian leases.

Statement of Need: Current oil valuation regulations rely on posted prices and prices under arm's-length sales to value oil that is not sold at arm's-length. Over time, posted prices have become increasingly suspect as a fair measure of market value. This rulemaking would modify valuation regulations to place substantial reliance on the higher of crude oil spot prices, major portion prices, or gross proceeds, and eliminate any direct reliance on posted prices. This rulemaking would also add more certainty to valuation of oil produced from Indian leases.

Summary of Legal Basis: The primary legal basis for this rulemaking is the Federal Oil and Gas Royalty Management Act of 1982, as amended, which defines the Secretary of the Interior's (1) authority to implement and maintain a royalty management system for oil and gas leases on Indian lands, and (2) trust responsibility to administer Indian oil and gas resources.

Alternatives: We considered a range of valuation alternatives such as making minor adjustments to the current gross proceeds valuation method, using futures prices, using index-based prices with fixed adjustments for production from specific geographic zones, relying on some type of field pricing other than posted prices, and taking oil in-kind. We chose the higher of the average of the high daily applicable spot prices for the month, major portion prices in the field or area, or gross proceeds received by the lessee or its affiliate. We chose spot prices as one of the three value measures because (1) they represent actual trading activity in the market, (2)

they mirror New York Mercantile Exchange futures prices, and (3) they permit use of an index price for the market center nearest the lease for oil most similar in quality to that of the lease production.

Anticipated Cost and Benefits: We estimate compliance with this rulemaking would cost the oil industry approximately \$5.4 million the first year and \$4.9 million each year thereafter. These estimates include the up-front computer programming and other administrative costs associated with processing the new form. The monetary benefits of this rulemaking are an estimated \$4.7 million increase in annual royalties collected on oil produced from Indian leases. Additional benefits include simplification and increased certainty of oil pricing, reduced audit efforts, and reduced valuation determinations and associated litigation.

Risks: The risk of not modifying current oil valuation regulations is that Indian recipients may not receive royalties based on the highest price paid or offered for the major portion of oil produced—a common requirement in most Indian leases. These modifications ensure that the Department fulfills its trust responsibilities for administering Indian oil and gas leases under governing mineral leasing laws, treaties, and lease terms.

Abstract: We are proposing revisions to our regulations governing the processing of State Program Amendments to provide additional assurances that the amendments are processed in a timely manner. An approved State Program Amendment allows a State to regulate surface coal mining operations within its borders. The existing regulations require us to take over an approved State program when the State fails to amend its program in a timely manner. This can be disruptive to the mining industry, expensive for the Federal Government, and, in many instances, unwarranted by the nature of the outstanding amendment. This rule will allow OSM to take action that is more appropriate in situations where the outstanding amendment does not impair the integrity of the approved State Program.

1600. INDIAN LANDS

Priority: Substantive, Nonsignificant

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 700; 30 CFR 740; 30 CFR 750

Legal Deadline: None

Abstract: OSM regulates mining on Indian lands and the State regulates mining on non-Indian lands. OSM proposes to amend its regulations to clarify that the definition of "Indian lands" at 30 CFR 700.5 includes individual Indian trust allotments located within an approved tribal land consolidation area. The proposed clarification was required under the terms of a settlement agreement between the Department of the Interior and the Navajo Nation and Hopi Tribe to settle the tribes' challenges to a May 1989 Indian lands rulemaking. OSM has developed a preliminary draft rule that specifies that allotted lands would qualify as Indian lands for purposes of the Surface Mining Control and Reclamation Act when OSM determines, on a case-by-case basis, that the allotments are supervised by an Indian tribe.

1601. • FINANCING ABANDONED MINE LAND RECLAMATION

Priority: Substantive, Nonsignificant

Legal Authority: 30 USC 1201 et seq

CFR Citation: 30 CFR 874

Legal Deadline: None

Abstract: We published a final rule in February 1999 that would conserve abandoned mine land (AML) funds by

allowing incidental coal recovered in AML construction projects to be sold to offset the cost of reclamation. This reduced the amount of money needed from the AML fund. The rule was challenged in court. The court upheld the rule but directed us to clarify what types of expenses could be considered in determining what qualifies as a Government-financed AML project. This rule will clarify the ambiguity created by the discussion in the preamble to the 1999 final rule.

1608. SALES—FEDERAL LAND POLICY AND MANAGEMENT ACT**Priority:** Other Significant**Legal Authority:** 43 USC 1701; 43 USC 1713**CFR Citation:** 43 CFR 2710**Legal Deadline:** None

Abstract: This rule will amend 43 CFR part 2710 to provide for improved administration of sales of public land under the Federal Land Policy and Management Act. It will add a provision to allow the sale of public land to State or local government entities for affordable housing. Such sales may be for less than fair market value.

1615. RIGHTS-OF-WAY, PRINCIPLES AND PROCEDURES; RIGHTS-OF-WAY UNDER THE MINERAL LEASING ACT**Priority:** Substantive, Nonsignificant**Legal Authority:** 43 USC 1740

CFR Citation: 43 CFR 2800; 43 CFR 2880

Legal Deadline: None

Abstract: The rule will amend the regulations governing rights-of-way issued under both the Federal Land Policy and Management Act and the Mineral Leasing Act by revising cost recovery policies and procedures and adjusting cost recovery fees to reflect cost increases since the current regulations became effective in 1987. The rule will also eliminate the automatic exemptions from cost recovery for Federal agencies except when they are exempted by law. It will also establish policies on paying rent

in advance and a financial penalty for paying rent late.

1622. COALBED METHANE DEVELOPMENT

Priority: Substantive, Nonsignificant

Legal Authority: 42 USC 13368

CFR Citation: 43 CFR 3170

Legal Deadline: Final, Statutory, October 24, 1995.

Abstract: The rule will implement section 1339 of the Energy Policy Act of 1992. It will prevent conflicts in ownership of coalbed methane from impeding development of that resource by requiring pooling of development and payment of the proceeds into an

escrow account until the ownership issue is resolved by a State entity of competent jurisdiction. The rule will also allow States to avoid the Federal regulations by promulgating their own regulations that substantially comply with Federal requirements.

1626. OIL AND GAS LEASING AND OPERATIONS

Priority: Other Significant

Legal Authority: 30 USC 181 et seq

CFR Citation: 43 CFR 3100

Legal Deadline: None

Abstract: This rule will revise BLM's current Federal oil and gas leasing and operations regulations, except those concerning drainage (section 3100.2-2), combined hydrocarbon leasing (part 3140) and oil and gas leasing in the National Petroleum Reserve—Alaska (part 3130). The rule will: (1) Cite industry standards and incorporate them by reference rather than repeat those standards in the rule; (2) incorporate the requirements of the Onshore Oil and Gas Orders and national notices to lessees into the regulations to eliminate overlap with current regulations; (3) use performance standards in certain places instead of prescriptive requirements to allow more flexibility for operators and to protect the environment and Federal royalty interests; and (4) eliminate redundancies, clarify procedures and regulatory requirements and streamline procedures.

Statement of Need: This rulemaking complies with the requirements of the Government Performance and Results Act, the recommendations of the National Performance Review, and other initiatives. It will be presented in a user-friendly format, presented by process rather than by subject matter.

Summary of Legal Basis: The Mineral Leasing Act gives BLM the authority to issue and administer the terms of oil and gas leases on Federal lands, to conduct inspections of drilling operations and to promulgate and enforce regulations pertaining to oil and gas leasing and operations. BLM is the only Federal agency with authority to issue leases for publicly owned oil and gas resources.

Alternatives: The only alternative to the proposed regulations would be to continue to operate under the existing

regulations. These regulations are not performance-based and are at times ambiguous and hard to understand. Further, the important information found in Onshore Operating Orders is published separately from the regulations and at irregular intervals.

Anticipated Cost and Benefits: BLM anticipates the following benefits: (1) More clearly written rules will be better understood by both oil and gas lessees and operators and members of the general public; (2) performance standards, rather than prescriptive requirements will allow lessees and operators and BLM greater flexibility to deal with unique geological or engineering circumstances within the standards set by the rule; and (3) streamlining and clarifying procedures will result in better customer service and decreased time and money for both BLM and the user public.

Risks: The public may misunderstand one or more performance standards. BLM will publish user guides that explain in detail the standards and will provide examples of how operators might meet specific standards.

CFR Citation: 43 CFR 3809

Legal Deadline: None

Abstract: This rule will amend existing regulations by removing certain provisions of the regulations and restoring others to those in effect on January 19, 2001, intending to prevent unnecessary or undue degradation of BLM-administered lands by mining operations authorized under the mining laws. The approach BLM will take will

balance the Nation's need to maintain reliable sources of strategic and industrial minerals, while ensuring protection of the environment and natural resources on public lands. The rule will make the hardrock mining regulations consistent with the recommendations of the National Research Council and protect the Federal Government from financial risk if operators are unable to perform reclamation.

Final Rule Stage

1635. WILD AND SCENIC RIVERS

Priority: Other Significant

Legal Authority: 16 USC 1278

CFR Citation: 43 CFR 39

Legal Deadline: None

Abstract: This rule would establish uniform standards and procedures by which the Department of the Interior, through its agencies that administer rivers in the National Wild and Scenic Rivers System (Bureau of Land Management, Fish and Wildlife Service, and National Park Service), will

consider Federal licensing of, or assistance to, water resources projects affecting designated Wild and Scenic Rivers or congressionally authorized Study Rivers.
