### Federal Energy Regulatory Commission

[Docket No. CP03-52-000]

# **Colorado Interstate Gas Company; Notice of Application**

February 27, 2003.

Take notice that on February 19, 2003, Colorado Interstate Gas Company (CIG), PO Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP03–52–000, an application pursuant to section 7(c) of the Natural Gas Act

(NGA), as amended, and part 157 of the regulations of the Federal Energy Regulatory Commission (Commission), for a certificate of public convenience and necessity authorizing the construction, ownership and operation of facilities to enhance the natural gas storage injection capabilities of its Fort Morgan Gas Storage Field (Fort Morgan) located in Morgan County, Colorado, all as more fully set forth in the application which is on file with the Commission and open to public inspection. This filing is available for review at the Commission or may be viewed on the Commission's Web site at http:// www.ferc.gov using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at

FERCOnlineSupport@ferc.gov or toll-free at (866) 208–3676, or for TTY, contact (202) 502–8659.

CIG states that the proposed enhancement is necessary to satisfy the end-of-season storage field injection needs, and to provide operational flexibility to respond to customers' changing summertime usage patterns of Fort Morgan.

CIG states that it is proposing to construct and operate a 1,151 horsepower (ISO) compressor unit that will be used in staged-compression with existing compressor units. Such a unit, according to CIG, will increase the installed site horsepower to 6,551 (ISO), and the end-of-season injection capabilities by a minimum of 30 MMcf/d, with actual injection capability depending upon system operating conditions. CIG states that no increase in withdrawal capacity or total storage capacity of Fort Morgan will accompany the proposed compression addition.

CÎG states that the total cost of the proposed facilities is estimated to be \$2,928,500 and that CIG states that it will assume the costs associated with the proposed facilities until the next general rate case. CIG also states it is proposing rolled-in treatment for the proposed project.

Any questions concerning this application may be directed to Robert T. Tomlinson, Director, Regulatory Affairs, Colorado Interstate Gas Company, P. O. Box 1087, Colorado Springs, Colorado, 80944, at (719) 520–3788 or fax (719) 667–7534; or to Judy A.
