Submission for OMB Review; Comment Request

DOC has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. chapter 35).

Agency: U.S. Census Bureau.

Title: Survey of Housing Starts, Sales, and Completions.

Form Number(s): SOC-QI/SF.1, SOC-QI/MF.1.

Agency Approval Number: 0607-0110.

Type of Request: Extension of a currently approved collection.

Burden: 8,725 hours.

Number of Respondents: 24,000.

Avg Hours Per Response: 5 minutes.

Needs and Uses: The U.S. Census Bureau is requesting an extension of the currently approved collection for the Survey of Housing Starts, Sales, and Completions, otherwise known as the Survey of Construction (SOC). The respondents are home builders, real estate agents, rental agents, or new home owners of sampled residential buildings.

The Census Bureau uses the information collected in the SOC to publish estimates of the number of new residential housing units started, under construction, completed, and the number of new houses sold and for sale. Data for two principal economic indicators are produced from the SOC: New Residential Construction (housing starts and housing completions) and New Residential Sales. In addition, a number of other statistical series are produced, including extensive information on the physical characteristics of new residential buildings, and indexes measuring rates of inflation in the price of new buildings.

Government agencies and private companies use statistics from SOC to monitor and evaluate the large and

dynamic housing construction industry. For example, the Board of Governors of the Federal Reserve System uses data from this survey to evaluate the effect of interest rates in this interest-rate sensitive area of the economy. The Bureau of Economic Analysis uses the data in developing the Gross Domestic Product (GDP). The private sector uses the information for estimating the demand for building materials and the many products used in new housing and to schedule production, distribution, and sales efforts. The financial community uses the data to estimate the demand for short-term (construction loans) and long-term (mortgages) borrowing.

Affected Public: Business or other for-profit.

Frequency: Monthly.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13 U.S.C., Section 182.

OMB Desk Officer: Susan Schechter, (202) 395-5103.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, room 6625, 14th and Constitution Avenue, NW., Washington, DC 20230 (or via the Internet at dhynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to Susan Schechter, OMB Desk Officer either by fax (202-395-7245) or email (susan_schechter@omb.eop.gov).

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Southeast Region Dealer and Interview Family of Forms.

Form Number(s): None.

OMB Approval Number: 0648-0013.
Type of Request: Regular submission.
Burden Hours: 397.
Number of Respondents: 85.
Average Hours Per Response: 20 minutes.

Needs and Uses: NOAA proposes to add a reporting requirement to this family for forms. Fishery quotas are established for species in the deep-water and shallow-water management units within the Gulf of Mexico Reef Fish Fishery Management Plan (50 CFR 622.42(a)(ii) and (iii)). Existing methods of monitoring these fishery quotas have proven to be ineffective, and for the past two years landings for the species in these management units have exceeded the quotas. The Southeast Fisheries Science Center intends to use the authority under section 50 CFR 622.5(c)(3)(ii) to require dealers to report purchases (landings) on a monthly basis and every two weeks for the last two months of the season (year).

Affected Public: Business and other for-profit organizations, individuals or households.

Frequency: Monthly, biweekly for last two months of year.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of Commerce, Room 6625, 14th and Constitution Avenue, NW, Washington, DC 20230 (or via the Internet at dHynek@doc.gov).

Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to David Rostker, OMB Desk Officer, Room 10202, New Executive Office Building, Washington, DC 20503.

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the

Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: Northwest Region Federal Fisheries Permits.

Form Number(s): None.

OMB Approval Number: 0648-0203.

Type of Request: Regular submission.

Burden Hours: 595.

Number of Respondents: 708.

Average Hours Per Response: 20

minutes for a limited entry permit renewal or transfer; 60 minutes for an experimental fishery permit application; 60 minutes for an experimental fishery permit summary report; 10 minutes for an experimental fishery data report; and 2 minutes for an experimental fishery call-in notification prior to a fishing trip.

Needs and Uses: Two data collections dealing with Federal fishery permits affect participants in the groundfish fishery off Washington, Oregon, and California (WOC). The two data collections involve: (1) Exempted fishing; and (2) limited entry permits for commercial fishermen. Exempted (experimental) fishing permits are issued to applicants for fishing activities that would otherwise be prohibited. The information provided by applications allows NMFS to evaluate the consequences of the exempted fishing activity and weigh the benefits and costs. Permittees are required to file reports on the results of the experiments and in some cases individual vessels are required to provide minimal data reports. There is also a requirement for a call-in notification prior to a fishing trip. This information allows NOAA Fisheries to evaluate techniques used and decide if management regulations should be changed.

A Federal permit is also required to commercially catch groundfish, and permits are endorsed for one or more of three gear types (trawl, longline, and fish pot). Participation in the fishery and access to permits have been limited as a way of controlling the overall fleet harvest capacity. Limited entry permits must be renewed annually and are transferable. Permit owners must fill out renewal forms annually and must fill out transfer forms, as needed.

Affected Public: Business or other for-profit organizations.

Frequency: Annually, on occasion.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.

Copies of the above information collection proposal can be obtained by calling or writing Diana Hynek, Departmental Paperwork Clearance Officer, (202) 482-0266, Department of

Submission for OMB Review; Comment Request

The Department of Commerce has submitted to the Office of Management and Budget (OMB) for clearance the following proposal for collection of information under the provisions of the Paperwork Reduction Act (44 U.S.C. Chapter 35).

Agency: National Oceanic and Atmospheric Administration (NOAA).

Title: American Fisheries Act: Recordkeeping and Reporting Requirements.

Form Number(s): None.

OMB Approval Number: 0648-0401.

Type of Request: Regular submission.

Burden Hours: 1,024.

Number of Respondents: 26.

Average Hours Per Response: 20 hours for a cooperative preliminary report; 8 hours for a cooperative final report; 30 minutes for a non-member vessel contract fishing application; 35 minutes for a shoreside processor electronic logbook (SPELR); 5 minutes for a cooperative pollock catch report; and 5 minutes for a designation of agent for service of process.

Needs and Uses: On October 21, 1998, the President signed into law the American Fisheries Act (AFA), which imposed major structural changes on the Bering Sea and Aleutian Islands Management Area (BSAI) pollock fishery. The purpose of the AFA was to tighten U.S. ownership standards that had been exploited under the Antireflagging Act, and to provide the BSAI pollock fleet with the opportunity to conduct their fishery in a more rational manner while protecting non-AFA participants in the other fisheries. The AFA also affected the management of other groundfish, crab, and scallop

fisheries off Alaska. Much of the monitoring and enforcement burden is placed on participating AFA cooperatives and their members, which allows NOAA to manage the pollock fishery more precisely. Monitoring their own catch, vessels are able to individually (and in aggregate) come very close to harvesting exactly the amount of pollock they were allocated.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion, annually, recordkeeping.

Respondent's Obligation: Mandatory.

OMB Desk Officer: David Rostker, (202) 395-3897.
