[ES-030-1430-BJ, ES-051868, Group 551, Minnesota]

Notice of Filing of Plat of an Island; Minnesota

1. The Bureau of Land Management (BLM) will officially file the plat of the planimetric survey of an island in Two Inlets Lake, Township 141 North, Range 36 West, Fifth Principal Meridian, Minnesota, accepted on May 6, 2003, in the Eastern States Office, Springfield, Virginia, 30 calendar days from the date of publication in the **Federal Register**. The tract shown below describes the island omitted from the original survey. Fifth Principal Meridian, Minnesota T.

141 N. R. 36 W. Tract No. 37

2. Tract No. 37, Lakes States County Sequential Control No. 001, Becker County, is firm land rising 10-15 ft. above the ordinary high water mark. The north and northeast sides of the island have a well defined bank, 2-3 ft. high. The soil composition is of glacial till topped with a layer of humus 6-9 in. deep and is similar to the soil found on the adjacent uplands. Several large stumpholes from wind-thrown trees were observed on the island. Tree species consist of aspen, clump basswood, balsam fir, elm, and birch, ranging in size from 4 to 23 inches in diameter, with a maximum age of 75+ years. The ground cover consists of sapling trees, briar, hazel, cranberry, sumac and native grasses.

3. MN Department of Natural Resources (DNR) has recorded the water levels of Two Inlets Lake from 1938 to the present. The MN DNR reports the average water level for this period to be 1456.09 ft. NGVD 1929. The DNR reading taken closest to the date of the aerial imagery was recorded on May 5, 1991, as 1456.21 ft. NGVD 1929. The present water level of the lake agrees with the levels reported by the MN DNR. The record meander line was overlaid to scale on the 1991 aerial imagery and found to compare favorably. The open water channel between the south end of the island and the adjoining upland is 4 chains across and averages 10 feet deep.

4. The upland character of this island along with the depth and width of the channel attests to its existence in 1858 when Minnesota was admitted to the Union; in 1878 at the time of the original survey; and at all subsequent dates.

5. The island returned by this plat is classified as being more than 50 percent upland in character within the purview

of the Swamp and Overflow Act of September 28, 1850 (9 Stat. 519) as extended to the State of Minnesota under the Act of March 12, 1860 (12 Stat. 3).

6. The survey was requested by the Assistant Field Manager, Division of Natural Resource Management, under the authority of the Minnesota Public Lands Improvement Act (MPLIA) of 1990, Pub. L. 101-442 (104 Stat. 1020).

7. Except for valid existing rights, this island will not be subject to application, petition, location or selection under any public law until 30 calendar days after the date of publication in the **Federal Register**.

8. Interested parties protesting the determination that this island is public land of the United States, must present valid proof showing that the island did not exist at the time of statehood or that it was attached to the mainland at the time of the original survey. Such protests must be submitted in writing to the Chief Cadastral Surveyor, Eastern States, Bureau of Land Management, 7450 Boston Boulevard, Springfield, Virginia 22153, prior to the date of the official filing.

We will place a copy of the plat we described in the open files. Copies of the plat will be made available upon request and prepayment of the appropriate fee.

Dated: May 13, 2003.

Stephen D. Douglas,
Chief Cadastral Surveyor.

BILLING CODE 4310-GJ-P

DEPARTMENT OF THE INTERIOR**Bureau of Reclamation****Agency Information Collection Activities Under OMB Review; Comment Request**

AGENCY: Bureau of Reclamation, Interior.

ACTION: Notice of renewal of currently approved collection (OMB No. 1006-0005).

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), this notice announces the following Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and comment: Individual Landholder's and Farm Operator's Certification and Reporting Forms for Acreage Limitation, 43 CFR part 426 and 43 CFR part 428, OMB Control Number: 1006-0005. The ICR describes the nature of the

information collection and its expected cost and burden.

DATES: Your comments must be received on or before June 19, 2003.

ADDRESSES: You may send comments regarding the burden estimate, or any other aspect of the information collection, including suggestions for reducing the burden, to the Desk Officer for the Department of the Interior at the Office of Management and Budget, Office of Information and Regulatory Affairs, via facsimile at (202) 395-5806 or e-mail at Ruth_Solomon@omb.eop.gov. A copy of your comments should also be directed to the Bureau of Reclamation, Attention: D-5200, PO Box 25007, Denver, CO 80225-0007.

FOR FURTHER INFORMATION CONTACT: For further information or a copy of the proposed forms contact Stephanie McPhee, D-5200, PO Box 25007, Denver, CO 80225-0007; or by telephone: (303) 445-2897.

SUPPLEMENTARY INFORMATION:

Title: Individual Landholder's and Farm Operator's Certification and Reporting Forms for Acreage Limitation, 43 CFR part 426 and 43 CFR part 428.

Abstract: This information collection requires certain landholders (direct or indirect landowners or lessees) and farm operators to complete forms demonstrating their compliance with the acreage limitation provisions of Federal reclamation law. These forms are submitted to districts who use the information to establish each landholder's status with respect to landownership limitations, full-cost pricing thresholds, lease requirements, and other provisions of Federal reclamation law. In addition, forms are submitted by certain farm operators to provide information concerning the services they provide and the nature of their farm operating arrangements.

All landholders whose entire westwide landholdings total 40 acres or less are exempt from the requirement to submit Reclamation Reform Act of 1982 (RRA) forms. Landholders who are "qualified recipients" have RRA forms submittal thresholds of 80 acres or 240 acres depending on the district's RRA forms submittal threshold category where the land is held. Only farm operators who provide multiple services to more than 960 acres held in trusts or by legal entities are required to submit forms. This collection of information allows the Bureau of Reclamation (we, our, or us) to establish landholders' compliance with Federal reclamation law.
