SUPPLEMENTARY INFORMATION:

I. Abstract

The International Trade
Administration's International Buyer
Program (IBP) encourages international
buyers to attend selected domestic trade
shows in high export potential
industries and to facilitate contact
between U.S. exhibitors and foreign
visitors. The program has been
successful, having substantially
increased the number of foreign visitors
attending these selected shows as
compared to the attendance when not
supported by the program. The number
of shows selected to the program
increased from 10 in FY 1986 to 28 in
FY 2001 and will increase to 32 shows
in FY 2004. Among the criteria used to
select these shows are: export potential,
international interest, scope of show,
stature of show, exhibitor interest,
overseas marketing, logistics, and
cooperation of show organizers.

II. Method of Collection

Form ITA-4014P, Exhibitor Data, is
used to determine which U.S. firms are
interested in meeting with international
business visitors and the overseas
business interest of the exhibitors. The
exhibitor data form is completed by U.S.
exhibitors participating in an IBP
domestic trade show and is used to list
the firm and its products in and Export
Interest Directory which is distributed
to international buyer delegation
members visiting the event and made
available for use by Foreign Commercial
Officers in recruiting delegations of
international buyers to attend the show.

The Form ITA-4102P, Application, is
used by potential show organizers to
demonstrate (1) their experience, (2)
ability to meet the special conditions of
the IBP, and (3) provide information
about the domestic trade show such as
the number of U.S. exhibitors and the
percentage of net exhibit space occupied
by U.S. companies vis-a-vis non-U.S.
exhibitors.

Concentrate From the People's
Republic of China: Notice of Extension
of Time Limit for the Final Results of
the New Shipper Review**

AGENCY: Import Administration,
International Trade Administration,
Department of Commerce

SUMMARY: The Department of Commerce
is extending the time limit for the final
results of the new shipper review of the

antidumping duty order on certain non-
frozen apple juice concentrate from the
People's Republic of China. The period
of review for the new shipper review of
Yantai Golden Tide Fruits & Vegetable
Food, Co., Ltd. is June 1, 2002 through
November 30, 2002.

EFFECTIVE DATE: October 22, 2003.

FOR FURTHER INFORMATION CONTACT:
Audrey R. Twyman or John Brinkmann,
Office of AD/CVD Enforcement I, Import
Administration, U.S. Department of
Commerce, 14th Street and Constitution
Avenue, NW, Washington, DC 20230;
telephone (202) 482-3534 or (202) 482-
4126, respectively.

SUPPLEMENTARY INFORMATION:

Background

On July 23, 2003, the Department of
Commerce ("the Department") issued
the preliminary results of the new
shipper review for certain non-frozen
apple juice concentrate from the
People's Republic of China ("PRC") for
Yantai Golden Tide Fruits & Vegetable
Food, Co., Ltd. ("Golden Tide"),
covering June 1, 2002 through
November 30, 2002. *See Non-Frozen
Apple Juice Concentrate From the
People's Republic of China: Preliminary
Results of New Shipper Review*, 68 FR
44741 (July 30, 2003) ("Preliminary
Results"). The final results are currently
due no later than October 21, 2003.

Statutory Time Limits

Section 751(a)(2)(B)(iv) of the Tariff
Act of 1930, as amended ("the Act"),
requires the Department to issue the
final results of a new shipper review
within 90 days after the date on which
the new shipper review preliminary
result is issued. However, if the case is
extraordinarily complicated, section
751(a)(2)(B)(iv) of the Act allows the
Department to extend this deadline for
the final results of the new shipper
review to a maximum of 150 days.

Postponement

The Department has determined that
it is not practicable to issue the final
results within the original time period.
This case has become extraordinarily
complicated in light of case events. In
particular, verification in the PRC that
was originally scheduled to occur
earlier in the proceeding was delayed
due to restrictions on travel to the PRC.
The additional time is required in order
to allow parties adequate time to
comment on the findings of the
verification and to comment on the
Department's preliminary results. Also,
additional time is necessary to analyze
data used in the calculation of normal
value. Therefore, in accordance with

section 751 (a)(2)(B)(iv) of the Act, we are postponing the final results of this new shipper review for 145 days, until no later than December 15, 2003.

This notice is published pursuant to sections 777(i)(1) and 751(a)(1) of the Act.

Dated: October 16, 2003.

Jeffrey May,

Deputy Assistant Secretary for Import Administration.

SUPPLEMENTARY INFORMATION:

Background

On July 7, 2003, the Department of Commerce ("the Department") published in the **Federal Register** the preliminary results of its administrative review and new shipper review for Gansu Tongda Fruit Juice and Beverage Co., Ltd. ("Gansu Tongda") for certain

non-frozen apple juice concentrate from the People's Republic of China ("PRC"), covering June 1, 2002 through May 31, 2002. The final results are currently due no later than November 4, 2003.

Statutory Time Limits

Section 751(a)(2)(B)(iv) of the Tariff Act of 1930, as amended ("the Act"), requires the Department to issue the final results of a new shipper review within 90 days after the date on which the new shipper review preliminary result is issued. However, if the case is extraordinarily complicated, section 751(a)(2)(B)(iv) of the Act allows the Department to extend this deadline for the final results if necessary. Section 751(a)(3)(A) of the Act requires the Department to issue the final results of an administrative review within 120 days after the date on which the preliminary result is published. However, if it is not practicable to complete the review within the allocated time, section 751(a)(2)(B)(iv) of the Act allows the Department to extend publication of the final results for an additional 60 days.

Postponement

The Department has determined that it is not practicable to issue the final results within the original time period. This case has become extraordinarily complicated in light of case events. In particular, verification in the PRC that was originally scheduled to occur earlier in the proceeding was delayed due to restrictions on travel to the PRC. The additional time is required in order to allow parties adequate time to comment on the findings of the verification and to comment on the Department's preliminary results.
