

in T. 6 North, Range 71 West, Sixth Principal Meridian, Group 632, Colorado, was accepted November 21, 2002.

These plats, surveys and amended field notes, were requested by the Forest Service for administrative and management purposes.

The plat representing the dependent resurvey and survey in section 26, Township 1 South, Range 83 West, Sixth Principal Meridian, Group 1319, Colorado, was accepted October 7, 2002.

The plat representing the dependent resurvey and survey, in Township 13 South, Range 98 West, Sixth principal Meridian, Group 1271, was accepted October 8, 2002.

The plat representing the dependent resurvey and survey in Township 50 North, Range 20 West, New Mexico Principal Meridian, Group 1360, Colorado, was accepted October 8, 2002.

The plat representing the dependent resurvey and survey in Township 3 South, Range 84 West, Sixth Principal Meridian, Group 1327, was accepted October 24, 2002.

The plat representing the dependent resurvey and survey in Township 3 South, Range 85 West, Sixth Principal Meridian, Group 1327, was accepted October 24, 2002.

The plat representing the dependent resurvey and survey in Township 3 North, Range 80 West, Sixth Principal Meridian, Group 1348, was accepted November 14, 2002.

The plat representing the dependent resurvey and survey in Township 14 South, Range, 103 West, Sixth Principal Meridian, Group 1291, Colorado, was accepted December 10, 2002.

The plat representing the entire record of the remonumentation of certain original corners, in Township 17 South, Range 68 West, Sixth Principal Meridian, Group 750, Colorado, was accepted December 18, 2002.

The plat representing the entire record of the remonumentation of certain original corners, in Township 16 South, Range 72 West, Sixth Principal Meridian, Group 750, Colorado, was accepted December 18, 2002.

The plat representing the entire record of the remonumentation of certain original corners, in Township 16 South, Range 73 West, Sixth Principal Meridian, Group 750, Colorado, was accepted December 18, 2002.

The amended field notes, correcting the description of ties, to local bearing trees, at the closing corner of Townships 50 and 51 North, Range 20 West, New Mexico Principal Meridian, Group 1360, Colorado, was accepted November 20, 2002.

These plats, surveys and amended field notes, were requested by the Bureau of Land Management for administrative and management purposes.

Darryl A. Wilson,

Chief Cadastral Surveyor for Colorado.

BILLING CODE 4310-JB-P

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

Folsom Lake State Recreation Area General Plan/Resource Management Plan, California

AGENCY: Bureau of Reclamation, Interior (Reclamation).

ACTION: Notice of Intent to prepare an environmental impact report /environmental impact statement (EIS/EIR).

SUMMARY: The U.S. Bureau of Reclamation (Reclamation) in partnership with the California Department of Parks and Recreation (CDPR) intend to prepare a General Plan/Resource Management Plan (GP/RMP) for the Folsom Lake State Recreation Area (including Lake Natoma and the Folsom Powerhouse State Historic Park). This planning activity encompasses approximately 18,000 acres of publicly accessible land/water owned by Reclamation and managed by the CDPR's Gold Fields District. The GP/RMP will be the primary management document for the park unit, providing a defined purpose, vision, long term-goals, and management guidelines. It will be used by CDPR as a framework for guiding decision-making related to the future development potential, ongoing management, resource conservation, and public use of the Folsom Lake State Recreation Area (Folsom Lake SRA). CDPR and Reclamation will prepare a joint EIR/EIS on the management actions and elements included in the GP/RMP.

DATES: A total of three regional workshops will be conducted to solicit public input at each phase of the planning process. The first public workshop was held on November 20, 2002 from 7 p.m. to 9:30 p.m. in Folsom, California.

This workshop, and other upcoming ones, will be used to solicit community input on local issues, concerns and aspirations as they relate to the Folsom Lake SRA. The information will be used to help form the definition of the goals/objectives of the GP/RMP, analysis of

opportunities and constraints, and scope of subsequent planning and design efforts. The workshops will also serve as the public scoping meetings for preparation of the EIR/EIS, identifying the range and scope of issues to be addressed in the environmental assessment documents.

A second public workshop is planned for March/April 2003. At this time, the public will have the opportunity to further define their issues, concerns and aspirations, as well as consider and comment on developed alternative park unit improvement and conservation scenarios. At a third public workshop, tentatively scheduled for January 2004, plan proposals for land use, resource management, circulation and facilities will be presented for review and evaluation.

These public meetings will be announced through the local news media, newsletters, and the CDPR Web site (<http://www.parks.ca.gov>) at least 15 days prior to the event. Comments on issues and planning criteria may be submitted in writing to the address listed below.

ADDRESSES: The first meeting was held at Folsom Middle School, 500 Blue Ravine Road, Folsom, CA 95630. Locations for the other two meetings are not yet determined.

Written comments should be sent to Folsom Lake Plan Update c/o Wallace Roberts & Todd, LLC, 1328 Mission Street, Fourth Floor, San Francisco, CA 94103 or email: folsomlakeplanupdate@sf.wrtdesign.com.

FOR FURTHER INFORMATION CONTACT: Jim Micheaels, Associate Park and Recreation Specialist, Gold Fields District, 7806 Folsom-Auburn Road, Folsom, California 95630, phone (916) 988-0513; or Mike Petrinovich, Resource Manager, U.S. Bureau of Reclamation, Central California Area Office, Folsom, CA 95639, phone (916) 989-7276.

SUPPLEMENTARY INFORMATION: CDPR first entered into an agreement with Reclamation in 1956 to manage recreation facilities at Folsom Lake and Lake Natoma. The area was later designated as Folsom Lake SRA. Most of the lands around both lakes are owned by Reclamation and managed by CDPR. With approximately 2.5 million visitors annually, Folsom Lake SRA is one of the most popular and heavily visited units within the California State Park System. Lake Natoma and portions of the popular 32-mile American River Bike Trail are a part of the unit.

The current GP for Folsom Lake SRA was completed in 1979. The plan currently being developed will also

serve as Reclamation's RMP for the area. The GP/RMP for Folsom Lake SRA will be a 2-year process. The GP/RMP will guide the long-term management of the SRA including protecting natural and cultural resources, providing for and management of public use and recreation opportunities, and outlining the development of future facilities. The plan update will include direction for the Folsom Powerhouse State Historic Park, a separate park unit that is administered in conjunction with Folsom Lake SRA.

The GP/RMP will guide management decisions and activities by establishing long-term management direction, area-wide goals and objectives, actions necessary to achieve desired future conditions, identification of lands suitable or not suitable for resource use and production, and monitoring and evaluation requirements. The GP/RMP planning process will be an interdisciplinary effort between CDPR, Reclamation, other relevant agencies, stakeholders and the public. The CDPR and Reclamation will work collaboratively with interested parties to identify the management decisions that address local, regional, and national needs and concerns. The public participation process as outlined above will identify planning issues, develop planning criteria, and will include an evaluation of existing CDPR and Reclamation management plans in the context of the needs and interest of the public and the conservation of natural and cultural resources.

Preliminary issues and management concerns have been identified by CDPR and Reclamation personnel and other agencies. The preliminary issues identified thus far represent the CDPR's and Reclamation's knowledge to date on the existing issues and concerns with current management, but are not limited to these. The major issue themes that will be addressed in the plan effort include: assessment of impacts to the unit's resources from adjacent development and recent road-widening projects; access to and transportation within the park including trails and boat ramp access; recreation/visitor use and safety; management and protection of public land resources; and potential future action including acquisition, and construction of new facilities. The public is encouraged to help identify additional management questions and concerns to be addressed in the plan.

As part of the GP/RMP process, an EIR/EIS will be prepared in compliance with the National Environmental Protection Act (NEPA) and the California Environmental Quality Act (CEQA). The EIR/EIS will evaluate the

environmental impacts of the management actions and projects contained in the GP/RMP, as a whole, in a programmatic manner. As the GP/RMP is implemented over time, specific project proposals can tier from the EIR/EIS by further evaluating the details of the specific project through subsequent environmental review. The Draft EIR/EIS is projected to be available for public review for a 45-day early in 2004. Toward the end of the review period, a public hearing will be held in the vicinity of the Folsom Lake SRA to receive public comment on both the GP/RMP and Draft EIR/EIS.

Our practice is to make comments, including names and home addresses of respondents available for public review. Individual respondents may request that we withhold their home addresses from public disclosure, which we will honor to the extent allowable by law. There may also be circumstances in which we would withhold a respondent's identity from public disclosure, as allowable by law. If you wish us to withhold your name and/or address, you must state this prominently at the beginning of your comment. We will make all submissions from organizations or businesses, and from individuals identifying themselves as representatives or officials of organizations or businesses, available for public disclosure in their entirety.

Dated: December 20, 2002.

Frank Michny,

Regional Environmental Officer, Mid-Pacific Region.

BILLING CODE 4310-MN-P

DEPARTMENT OF THE INTERIOR

Office of Surface Mining Reclamation and Enforcement

Notice of Proposed Information Collection

AGENCY: Office of Surface Mining Reclamation and Enforcement.

ACTION: Notice and request for comments.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995, the Office of Surface Mining Reclamation and Enforcement (OSM) is announcing its intention to request approval for the collections of information for 30 CFR parts 779 and 870 and the OSM-1 Form.

DATES: Comments on the proposed information collection must be received by March 18, 2003 to be assured of consideration.

ADDRESSES: Comments may be mailed to John A. Trelease, Office of Surface Mining Reclamation and Enforcement, 1951 Constitution Ave, NW., Room 120-SIB, Washington, DC 20240. Comments may also be submitted electronically to jtrelas@osmre.gov.

FOR FURTHER INFORMATION CONTACT: To request a copy of the information collection requests, explanatory information and related forms, contact John A. Trelease at the address listed in **ADDRESSES**.

SUPPLEMENTARY INFORMATION: The Office of Management and Budget (OMB) regulations at 5 CFR 1320, which implement provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13), require that interested members of the public and affected agencies have an opportunity to comment on information collection and recordkeeping activities [see 5 CFR 1320.8 (d)]. This notice identifies information collections that OSM will be submitting to OMB for extension. These collections are contained in 30 CFR part 779, Surface Mining Permit Applications—Minimum Requirements for Environmental Resources; and part 870, Abandoned Mine Reclamation Fund—Fee Collection and Coal Production Reporting and the form it implements, the OSM-1, Coal Reclamation Fee Report.

OSM has revised burden estimates, where appropriate, to reflect current reporting levels or adjustments based on reestimates of burden and respondents. OSM will request a 3-year term of approval for each information collection activity.

Comments are invited on: (1) The need for the collection of information for the performance of the functions of the agency; (2) the accuracy of the agency's burden estimates; (3) ways to enhance the quality, utility and clarity of the information collection; and (4) ways to minimize the information collection burden on respondents, such as use of automated means of collection of the information. A summary of the public comments will be included in OSM's submissions of the information collection requests to OMB.

This notice provides the public with 60 days in which to comment on the following information collection activities:

Title: Surface Mining Permit Applications—Minimum Requirements for Environmental Resources, 30 CFR 779.

OMB Control Number: 1029-0035.

Summary: Applicants for surface coal mining permits are required to provide adequate descriptions of the
