AGENCY: Office of Personnel Management.

L. 104-13, May 22, 1995), this notice announces that the Office of Personnel Management (OPM) has submitted to the Office of Management and Budget (OMB) a request for review of a new information collection. RI 20-120, Request for Change to Unreduced Annuity, is a new form designed to collect information OPM needs to comply with the wishes of the retired Federal employee whose marriage has ended. We have always needed this information. In the past, we have considered the information originally provided in the correspondence from the retirees and have made further inquiries as needed. This new form will provide an organized way for the retiree to give us everything at one time.

We estimate we will process 5,000 RI 20-120's annually. This form takes an average of 30 minutes per response to complete. The annual burden is estimated to be 2,500 hours.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-47177; File No. SR-Amex-2002-102]

Self-Regulatory Organizations; Notice of Filing of Proposed Rule Change by the American Stock Exchange LLC To Create a New Percentage Order Type To Be Called "Immediate Execution or Cancel Election"

January 13, 2003.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and rule 19b-4 thereunder,² notice is hereby given that on December 10, 2002, the American Stock Exchange LLC ("Amex" or "Exchange") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in items I, II, and III below, which items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Amex proposes to amend Amex rule 131 to provide that if a percentage order is marked "Immediate Execution or Cancel Election," the elected portion of a percentage order with this designation is to be executed immediately, in whole or in part, at the price of the electing transaction. If the elected portion cannot be so executed, the election shall be deemed cancelled, and shall revert back to the percentage order and be subject to subsequent election or conversion.

The text of the proposed rule change is available at the Office of the Secretary, the Amex, and at the Commission.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, The Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

Currently, Amex rule 131 provides for three types of percentage orders: straight limit, last sale, and "buy minus/sell plus." The election provisions of each type of percentage order operate as follows:

- *Straight Limit:* When a trade takes place, an amount of shares equal to the size of that trade is "elected" as a limit order, and becomes a "held" order executable at a price within the overall limit on the order. Typically, the limit price is above the market when the order is entered (in the case of an order to buy), or below the market (in the case of an order to sell).

- *Last Sale:* When a trade takes place, an amount of shares equal to the size of that trade is "elected" as a limit order, and becomes a "held" order executable at the price of that trade, or at a better price, as long as such price is within the overall limit of the order. Typically, the limit price is above the market when the order is entered (in the case of a buy order) or below the market (in the case of a sell order).

- *"Buy Minus/Sell Plus":* When a trade takes place, an amount of shares equal to the size of the trade is elected, and becomes a "held" order executable only on stabilizing ticks within the overall limit of the order. An order of this type must be qualified by placing an overall limit price on the order.

As described below, the Exchange believes that the application of the election provisions does not meet the interests of some investors placing percentage orders, particularly last sale percentage orders:

- *Last Sale:* The Exchange believes that investors entering last sale percentage orders seek to trade along with the trend of the market, without initiating price changes or otherwise influencing the equilibrium of buying and selling interest. When a last sale percentage order is elected, it will typically receive an execution in one of two ways:

(1) There is sufficient additional liquidity at the price of the electing transaction for the elected portion to receive an immediate execution at the price of the electing transaction; or

(2) If the order cannot receive an immediate execution at the price of the electing transaction, it is sequenced with other limit orders at that price, and will receive an execution if and when there is sufficient contra side interest for trades to be effected at that price.
