#### Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, From the People's Republic of China: Final Results of Antidumping Duty Administrative Review of the Order on Bars and Wedges

**AGENCY:** Import Administration, International Trade Administration, Department of Commerce.

**ACTION:** Notice of final results of antidumping duty administrative review on bars/wedges and revision of country-wide cash deposit rates.

**SUMMARY:** On March 6, 2003, the Department of Commerce (the Department) published the preliminary results of the administrative reviews of the antidumping duty orders on heavy forged hand tools (HFHTs) from the People's Republic of China (PRC). As the Department rescinded the reviews of the orders on axes/adzes, hammers/sledges, and picks/mattocks on January 3, 2003, imports covered by these preliminary results of review comprise bars over 18 inches in length, track tools and wedges. The period of review (POR) is February 1, 2001, through January 31, 2002. Based on our analysis of the comments received, we have made changes in the margin calculation. Therefore, the final results differ from the preliminary results. The final weighted-average dumping margin for the reviewed firm is listed below in the section entitled *Final Results of Review*. We will instruct the Bureau of Customs and Border Protection (BCBP) to assess antidumping duties on all appropriate entries.

**EFFECTIVE DATE:** September 10, 2003.

#### SUPPLEMENTARY INFORMATION:

##### Background

On February 1, 2002, the Department published a notice of opportunity to request administrative reviews of the antidumping orders on HFHTs from the PRC covering the period February 1, 2001 through January 31, 2002 (67 FR 4945). On February 28, 2002, Tianjin Machinery Import & Export Corporation (TMC), Shandong Machinery Import & Export Corporation (SMC), Liaoning Machinery Import & Export Corporation (LMC), and Shandong Huarong Machinery Company (Huarong) requested administrative reviews in the above-referenced orders. Specifically, TMC requested reviews of the hammers/sledges, bars/wedges, picks/mattocks and axes/adzes orders, SMC requested reviews of the hammers/sledges, bars/wedges, and picks/mattocks orders, LMC requested a review of the bars/wedges order, and Huarong requested a review of the bars/wedges order. Based on these requests, the Department initiated administrative reviews of TMC, SMC, LMC, and Huarong under the requested orders on March 20, 2002. *See Initiation of Antidumping and Countervailing Duty Administrative Reviews and Requests for Revocations in Part*, 67 FR 14696 (March 27, 2002).

On May 3, 2002, LMC withdrew its request for review of the bars/wedges order. On May 10, 2002, TMC withdrew its requests for review of the hammers/sledges and picks/mattocks orders. On June 7, 2002, SMC withdrew its request for review under the picks/mattocks order. Additionally, on September 26, 2002, TMC withdrew its requests for review of the axes/adzes order and bars/wedges order, and SMC withdrew its requests for review of the bars/wedges and hammers/sledges orders. The Department rescinded these reviews on January 3, 2003. *See Notice of Rescission of Antidumping Duty Administrative Review: Heavy Forged Hand Tools from the People's Republic of China: Partial Rescission of Antidumping Duty Administrative Review*, 68 FR 352 (January 3, 2003). The remaining review covers bars/wedges sold by Huarong.

On March 6, 2003, the Department published the preliminary results of this administrative review. *See Heavy Forged Hand Tools, Finished or Unfinished, With or Without Handles, From the People's Republic of China: Preliminary Results of Antidumping Duty Administrative Review of the Order on Bars and Wedges*, 68 FR 10690 (March 6, 2003) (*Preliminary Results*). We invited parties to comment on the preliminary results. Both petitioner and

respondent filed case briefs on April 7, 2003, and rebuttal briefs on April 14, 2003. A hearing was held pursuant to a request from the respondent on April 30, 2003.

##### Scope of Review

The products covered by the HFHT orders comprise the following classes or kinds of merchandise: (1) Hammers and sledges with heads over 1.5 kg (3.33 pounds) (hammers/sledges); (2) bars over 18 inches in length, track tools and wedges (bars/wedges); (3) picks and mattocks (picks/mattocks); and (4) axes, adzes and similar hewing tools (axes/adzes).

HFHTs include heads for drilling hammers, sledges, axes, mauls, picks and mattocks, which may or may not be painted, which may or may not be finished, or which may or may not be imported with handles; assorted bar products and track tools including wrecking bars, digging bars and tampers; and steel woodsplitting wedges. HFHTs are manufactured through a hot forge operation in which steel is sheared to required length, heated to forging temperature, and formed to final shape on forging equipment using dies specific to the desired product shape and size. Depending on the product, finishing operations may include shot blasting, grinding, polishing and painting, and the insertion of handles for handled products. HFHTs are currently provided for under the following Harmonized Tariff Schedule of the United States (HTSUS) subheadings: 8205.20.60, 8205.59.30, 8201.30.00, and 8201.40.60. Specifically excluded from these investigations are hammers and sledges with heads 1.5 kg. (3.33 pounds) in weight and under, hoes and rakes, and bars 18 inches in length and under. The Max Multipurpose Tool is within the scope of the order. (See Notice of Scope Rulings, 58 FR 59991, November 12, 1993.) The HTSUS subheadings are provided for convenience and customs purposes. The written description remains dispositive.
