Title: (1) TANF Data Report, ACF-199; (2) SSP-MOE Data Report, ACF-209.

OMB No.: 0970-0199.

Description: States, the District of Columbia and certain U.S. territories are required by 42 U.S.C. 611 and 45 CFR part 265 to collect on a monthly basis and report to HHS on a quarterly basis a wide variety of disaggregated case record information for their programs funded under TANF. If a respondent wants to qualify for a high performance bonus or receive a caseload reduction credit, the respondent must submit similar data for its separate state programs. A respondent may comply with these requirements by collecting and submitting case record information for its entire caseload or for a portion of the caseload that is obtained through the use of scientifically acceptable sampling methods. HHS collects the information electronically through the use of the TANF Data Report (ACF-199) and the SSP-MOE Data Report (ACF-209) and their associated TANF Sampling and Statistical Methods Manual. HHS is proposing to extend this information collection for another three years.

Respondents: The 50 States of the United States, the District of Columbia, Guam, Puerto Rico, and the United States Virgin Islands.

Title: 45 CFR part 95, section F.

OMB No.: 0992-0005.

Description: The advance planning document (APD) process, established in the rules at 45 CFR part 95, subpart F, is the procedure by which States request and obtain approval for Federal financial participation in their cost of acquiring automatic data processing

equipment and services. The APD submitted by the State Agency provides the Department of Health and Human Services (HHS) with the following information necessary to determine the State's need to acquire the requested ADP equipment and/or services:

1. A statement of need;
2. A requirements analysis and feasibility study;
3. A cost benefit analysis;
4. A proposed activity schedule; and,
5. A proposed budget.

DHHS' determination of a State agency's need to acquire requested ADP equipment of services is authorized at sections 402(a)(5), 452(a)(1), 1902(a)(4) and 1102 of the Social Security Act.

Proposed Projects

Title: Building Strong Families

Demonstration and Evaluation.

OMB No.: New collection.

1. *Description:* The Building Strong Families (BSF) project is an important opportunity to learn whether well-designed interventions can help couples fulfill their aspirations for a healthy marriage and a strong family. The project will assess the net impact of interventions with low-income, unwed couples beginning around the time of a child's birth. The programs will be designed to help such couples strengthen their relationship, achieve a

healthy marriage if that is the path they choose, and thus enhance child and family well-being. The programs will be designed around two main components. First, the programs will provide instruction and support to improve marriage and relationship skills and enhance couples' understanding of marriage. This focus is the distinctive component of the BSF project. In addition, BSF programs will provide a variety of other services that could help low-income couples sustain a healthy relationship (e.g., employment assistance). The early project period will be used to gather information from multiple sources in order to develop program models to be tested and evaluated. One important source of information will be low-income unwed parents and newly married couples.

2. *Respondents:* The respondents for the Focus Group Protocols and information sheets are low-income, unmarried, expectant or recent parents and newly married couples with children who volunteer to participate in focus groups. The attendance goal for each group is eight to 12 people in a total of 26 focus groups for a total of 208 to 312 respondents. Eight types of focus groups are planned: mothers alone, fathers alone, unwed couples, and recently married couples in each of two settings. The planned settings are: (1)
