

E. What Should I Consider as I Prepare My Comments for EPA?

You may find the following suggestions helpful for preparing your comments:

1. Explain your views as clearly as possible.
2. Describe any assumptions that you used.
3. Provide copies of any technical information and/or data you used that support your views.
4. If you estimate potential burden or costs, explain how you arrived at the estimate that you provide.
5. Provide specific examples to illustrate your concerns.
6. Make sure to submit your comments by the deadline in this notice.
7. To ensure proper receipt by EPA, be sure to identify the docket ID number assigned to this action in the subject line on the first page of your response. You may also provide the name, date, and **Federal Register** citation.

II. What Action is the Agency Taking?

EPA has received a pesticide petition as follows proposing the establishment and/or amendment of regulations for residues of a certain pesticide chemical in or on various food commodities under section 408 of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a. EPA has determined that this petition contains data or information regarding the elements set forth in FFDCA section 408(d)(2); however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the petition. Additional data may be needed before EPA rules on the petition.

List of Subjects

Environmental protection, Agricultural commodities, Feed additives, Food additives, Pesticides and pests, Reporting and recordkeeping requirements.

Dated: April 24, 2003.

Debra Edwards,

Director, Registration Division, Office of Pesticide Programs.

Summary of Petition

The petitioner's summary of the pesticide petition is printed below as required by FFDCA section 408(d)(3). The summary of the petition was prepared by Makhteshim-Agan of North America, Inc., 551 Fifth Avenue, Suite 1100, New York, NY 10176, the registrant, and represents the view of Makhteshim-Agan. The petition summary announces the availability of

a description of the analytical methods available to EPA for the detection and measurement of the pesticide chemical residues or an explanation of why no such method is needed.

Makhteshim-Agan of North America, Inc.

Interregional Research Project Number 4 (IR-4)

PP 1E6310

EPA has received a pesticide petition (PP 1E6310) from the IR-4 Project, Center for Minor Crop Pest Management, Rutgers, The State University of New Jersey, 681 U.S. Highway #1 South, North Brunswick, NJ 08902-3390, proposing pursuant to section 408(d) of the Federal Food, Drug, and Cosmetic Act, 21 U.S.C. 346a(d), to amend 40 CFR 180.191 by establishing a tolerance for residues of folpet N-[[trichloromethyl]thio]phthalimide] in or on the raw agricultural commodity hops, dried cones at 120 parts per million (ppm). EPA has determined that the petition contains data or information regarding the elements set forth in section 408(d)(2) of the FFDCA; however, EPA has not fully evaluated the sufficiency of the submitted data at this time or whether the data support granting of the petition. Additional data may be needed before EPA rules on the petition.

A. Residue Chemistry

1. *Plant metabolism.* The qualitative nature of the residue of folpet in plants is adequately understood based on acceptable avocado, grape and wheat metabolism studies. The metabolism of folpet in livestock is adequately understood. Based on the results observed in the metabolism studies along with supplementary toxicity data on the degradates, secondary residues such as phthalimide and phthalic acid are not expected to be of toxicological concern. The Agency has concluded that the residue of concern is folpet per se.

2. *Analytical method.* An adequate analytical method, gas chromatography/electron capture detector (GC/ECD), is available for enforcing tolerances of folpet in or on plant commodities. The method of detection has a limit of detection (LOD) of 0.01 milligram/kilogram (mg/kg) and a limit of quantitation (LOQ) of 0.02 mg/kg in dried hops.

3. *Magnitude of residues.* A complete set of residue data have been submitted in support of the petitioned tolerances. The results included three field trials from Idaho, Oregon, and Washington,

and a processing study that was conducted in Germany. After kiln drying the measured residues in hops, dried cones ranged from 2.4 to 91.8 ppm. Folpet was not detectable in any of the processed hop commodities (LOD for spent hops = 0.01 ppm; beer = 0.003 ppm). The generated data support the requested tolerance.

B. Toxicological Profile

In the **Federal Register** of January 9, 2003 (68 FR 1182), (FRL-7287-7). EPA published the Notice of Filing proposing the establishment of a tolerance for residues of folpet on imported hops only, as no U.S. registrations for hops exist at this time. The publication summarizes in detail the current state of knowledge regarding the toxicological profile of folpet including aggregate exposure assessment and determination of safety. Interested readers are referred to that document for specific information as follows:

- Toxicological profile (Unit II.B.)
- Aggregate exposure (Unit II.C.)
- Cumulative effects (Unit II.D.)
- Safety determination (Unit II.E.)

C. International

Germany has established an MRL (maximum residue limit) of 120 ppm for residues of folpet in or on dried hops. No Codex MRL for hops exists.

BILLING CODE 6560-50-S

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2003-0149; FRL-7305-8]

Pesticide Emergency Exemptions; Agency Decisions and State and Federal Agency Crisis Declarations

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has granted or denied emergency exemptions under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) for use of pesticides as listed in this notice. The exemptions or denials were granted during the period January 1, 2003 to March 31, 2003 to control unforeseen pest outbreaks.

FOR FURTHER INFORMATION CONTACT: See each emergency exemption or denial for the name of a contact person. The following information applies to all contact persons: Team Leader, Emergency Response Team, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW.,

Washington, DC 20460-0001; telephone number: (703) 308-9366.

SUPPLEMENTARY INFORMATION: EPA has granted or denied emergency exemptions to the following State and Federal agencies. The emergency exemptions may take the following form: Crisis, public health, quarantine, or specific. EPA has also listed denied emergency exemption requests in this notice.

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are a federal or state government agency involved in administration of environmental quality programs (i.e., Departments of Agriculture, Environment, etc). Potentially affected entities may include, but are not limited to:

- Federal or State Government Entity, (NAICS 9241), i.e., Departments of Agriculture, Environment, etc.

This listing is not intended to be exhaustive, but rather provides a guide for readers regarding entities likely to be affected by this action. Other types of entities not listed in this unit could also be affected. The North American Industrial Classification System (NAICS) codes have been provided to assist you and others in determining whether this action might apply to certain entities. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of This Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPP-2003-0149. The official public docket consists of the documents specifically referenced in this action, any public comments received, and other information related to this action. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at the Public Information and Records Integrity Branch (PIRIB), Rm. 119, Crystal Mall #2, 1921 Jefferson Davis Hwy., Arlington, VA. This docket facility is open from 8:30 a.m. to 4 p.m., Monday through Friday, excluding legal holidays. The docket telephone number is (703) 305-5805.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically. Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

II. Background

Under FIFRA section 18, EPA can authorize the use of a pesticide when emergency conditions exist. Authorizations (commonly called emergency exemptions) are granted to State and Federal agencies and are of four types:

1. A "specific exemption" authorizes use of a pesticide against specific pests on a limited acreage in a particular State. Most emergency exemptions are specific exemptions.

2. "Quarantine" and "public health" exemptions are a particular form of specific exemption issued for quarantine or public health purposes. These are rarely requested.

3. A "crisis exemption" is initiated by a State or Federal agency (and is confirmed by EPA) when there is insufficient time to request and obtain EPA permission for use of a pesticide in an emergency.

EPA may deny an emergency exemption: If the State or Federal agency cannot demonstrate that an emergency exists, if the use poses unacceptable risks to the environment, or if EPA cannot reach a conclusion that the proposed pesticide use is likely to result in "a reasonable certainty of no harm" to human health, including exposure of residues of the pesticide to infants and children.

If the emergency use of the pesticide on a food or feed commodity would result in pesticide chemical residues, EPA establishes a time-limited tolerance meeting the "reasonable certainty of no harm standard" of the Federal Food, Drug, and Cosmetic Act (FFDCA).

In this document: EPA identifies the State or Federal agency granted the exemption or denial, the type of exemption, the pesticide authorized and

the pests, the crop or use for which authorized, number of acres (if applicable), and the duration of the exemption. EPA also gives the **Federal Register** citation for the time-limited tolerance, if any.

III. Emergency Exemptions and Denials

A. U. S. States and Territories

Alabama

Department of Agriculture and Industries

Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 12, 2003 to February 1, 2004. Contact: (Barbara Madden)

Arkansas

State Plant Board

Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 12, 2003 to February 1, 2004. Contact: (Barbara Madden)

EPA authorized the use of fenbuconazole on blueberry to control mummy berry; March 4, 2003 to June 30, 2003. Contact: (Andrea Conrath)

California

Environmental Protection Agency,

Department of Pesticide Regulation
Specific: EPA authorized the use of maneb on walnuts to control bacterial blight; January 31, 2003 to June 15, 2003. Contact: (Libby Pemberton)

EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 24, 2003 to February 1, 2004. Contact: (Barbara Madden)

Colorado

Department of Agriculture

Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 2, 2003 to February 1, 2004. Contact: (Barbara Madden)

EPA authorized the use of difenoconazole on sweet corn seed to control various fungal pathogens; February 25, 2003 to February 25, 2004. Contact: (Andrea Conrath)

EPA authorized the use of sulfentrazone on potatoes to control ALS-inhibitor and triazine-resistant kochia; March 2, 2003 to June 15, 2003. Contact: (Andrew Ertman)

EPA authorized the use of sulfentrazone on sunflowers to control broadleaf weeds; April 1, 2003 to July 1, 2003. Contact: (Andrew Ertman)

EPA authorized the use of dimethenamid-p on sugarbeets to control various nightshade species, lambsquarter, redroot pigweed, barnyardgrass and the suppression of ALS-resistant kochia; April 10, 2003 to July 10, 2003. Contact: (Barbara Madden)

EPA authorized the use of lambda-cyhalothrin on barley to control the Russian wheat aphid and the cereal leaf beetle; April 15, 2003 to July 15, 2003. Contact: (Andrew Ertman)

EPA authorized the use of tebuconazole on sunflower to control rust; July 1, 2003 to August 25, 2003. Contact: (Andrea Conrath)

Connecticut

Department of Environmental Protection
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; March 4, 2003 to February 1, 2004. Contact: (Barbara Madden)

Delaware

Department of Agriculture
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; March 13, 2003 to February 1, 2004. Contact: (Barbara Madden)

Florida

Department of Agriculture and Consumer Services
Specific: EPA authorized the use of fenbuconazole on grapefruit to control greasy spot; February 4, 2003 to October 1, 2003. Contact: (Andrea Conrath)
EPA authorized the use of pyriproxyfen on legumes to control whiteflies; February 7, 2003 to February 7, 2004. Contact: (Andrea Conrath)

Georgia

Department of Agriculture
Specific: EPA authorized the use of fenbuconazole on blueberry to control mummy berry; January 14, 2003 to July 1, 2003. Contact: (Andrea Conrath)

Idaho

Department of Agriculture
Specific: EPA authorized the use of pendimethalin on mint to control kochia and redroot pigweed; February 7, 2003 to December 31, 2003. Contact: (Libby Pemberton)

EPA authorized the use of carfentrazone-ethyl on hops to control hop suckers to indirectly control powdery mildew; March 20, 2003 to August 15, 2003. Contact: (Barbara Madden)

EPA authorized the use of dimethenamid-p on sugar beets to control hairy nightshade, redroot pigweed, and yellow nutsedge; April 1, 2003 to July 15, 2003. Contact: (Barbara Madden)

Illinois

Department of Agriculture
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 2, 2003 to February 1, 2004. Contact: (Barbara Madden)

Indiana

Office of Indiana State Chemist
Specific: EPA authorized the use of coumaphos in beehives to control varroa

mites and small hive beetles; February 12, 2003 to February 1, 2004. Contact: (Barbara Madden)

Iowa

Department of Agriculture and Land Stewardship
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; March 20, 2003 to February 1, 2004. Contact: (Barbara Madden)

Kansas

Department of Agriculture
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 2, 2003 to February 1, 2004. Contact: (Barbara Madden)

EPA authorized the use of propiconazole on sorghum to control sorghum ergot; February 12, 2003 to February 12, 2004. Contact: (Libby Pemberton)

EPA authorized the use of fluroxypyr on pastures and rangeland to control the noxious weed species sericea lespedeza (*Lespedeza cuneata*); March 30, 2003 to July 30, 2003. Contact: (Barbara Madden)

EPA authorized the use of sulfentrazone on sunflowers to control kochia; April 15, 2003 to July 1, 2003. Contact: (Andrew Ertman)

EPA authorized the use of tebuconazole on sunflower to control rust; June 1, 2003 to September 15, 2003. Contact: (Andrea Conrath)

Kentucky

Department of Agriculture
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 2, 2003 to February 1, 2004. Contact: (Barbara Madden)

Louisiana

Department of Agriculture and Forestry
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; February 2, 2003 to February 1, 2004. Contact: (Barbara Madden)

EPA authorized the use of 3-chloro-p-touidine hydrochloride on rice to control various birds, including red-winged blackbirds; February 14, 2003 to April 15, 2003. Contact: (Libby Pemberton)

Maine

Department of Agriculture, Food, and Rural Resources
Specific: EPA authorized the use of coumaphos in beehives to control varroa mites and small hive beetles; March 13, 2003 to February 1, 2004. Contact: (Barbara Madden)

EPA authorized the use of propiconazole on blueberry to control mummy berry; April 15, 2003 to June 15, 2003. Contact: (Andrea Conrath)

Maryland

Department of Agriculture
Specific: EPA authorized the use of s-metolachlor on tomatoes to control eastern black nightshade and yellow nutsedge; April 10, 2003 to July 31, 2003. Contact: (Andrew Ertman)

ENVIRONMENTAL PROTECTION AGENCY

[OPP-2003-0150; FRL-7304-8]

Myclobutanil; Receipt of Application for Emergency Exemption, Solicitation of Public Comment

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: EPA has received a specific exemption request from the California Environmental Protection Agency to use the pesticide myclobutanil (CAS No. 88671-89-0) to treat up to 7,000 acres of artichokes to control powdery mildew (*Leveillula taurica*). The applicant proposes a use which has been requested in 3 or more previous years, and a petition for tolerance has not yet been submitted to the Agency.

DATES: Comments, identified by docket ID number OPP-2003-0150, must be received on or before May 22, 2003.

ADDRESSES: Comments may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit I. of the **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Barbara Madden, Registration Division (7505C), Office of Pesticide Programs, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (703) 305-6463; fax number: (703) 308-5433; e-mail address: madden.barbara@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

You may be potentially affected by this action if you are a Federal or State Government Agency involved in administration of environmental quality programs.

Other types of entities not listed in this unit could also be affected. If you have any questions regarding the applicability of this action to a particular entity, consult the person listed under **FOR FURTHER INFORMATION CONTACT**.
