

information collection and recordkeeping activities (see 5 CFR 1320.8(d)). An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

We will submit a request to OMB to renew its approval of the collection of information associated with the NEPA Compliance Checklist. The Service administers several grant programs authorized by the Federal Aid in Wildlife Restoration Act (16 U.S.C. 669–669i), the Federal Aid in Sport Fish Restoration Act (16 U.S.C. 777–777l), the Anadromous Fish Conservation Act (16 U.S.C. 757a–757g), the Endangered Species Act (16 U.S.C. 1531 *et seq.*), the Clean Vessel Act (33 U.S.C. 1322, 16 U.S.C. 777c), the Sportfishing and Boating Safety Act (16 U.S.C. 777g–l), North American Wetlands Conservation Act (16 U.S.C. 4401–4412), the Coastal Wetlands Planning, Protection and Restoration Act (16 U.S.C. 3951 *et seq.*), and through other Acts and authorities. The Service uses the information collected on the NEPA Compliance Checklist to determine whether a grantee complies with the National Environmental Policy Act (NEPA) (42

U.S.C. 4321–4347, 40 CFR 1500–1508). The State or other grantee uses the checklist as a guide to general NEPA requirements, and the checklist becomes an administrative record to meet their assurances requirements for receiving a grant.

Certain grant applicants must provide the information requested on the NEPA Compliance Checklist in order to qualify to receive benefits in the form of grants for purposes outlined in the applicable law. This form is designed to cause the minimum impact in the form of hourly burden on respondents and still obtain all necessary information. Only about 3 percent of the Service’s applicants for either a new grant or for an amendment to an existing grant will meet the criteria and need to complete the NEPA Compliance Checklist. The checklist needs to be prepared when (a) The proposed action is not completely covered by a categorical exclusion (*e.g.*, the proposal cannot meet the qualifying criteria in the categorical exclusion, and “is not” will be checked on the Checklist); (b) The proposed action cannot be categorically excluded because an exception to the categorical exclusion applies (*e.g.*, a “Yes” will be checked on the Checklist); (c)

Environmental conditions at or in the vicinity of the site have materially changed, affecting the consideration of alternatives and impacts (applicable to amendments and renewals); (d) There is a need to document a normally categorically excluded action that may be controversial; or (e) Additional internal review and/or documentation of the NEPA administrative record are desirable.

The current OMB control number for this information collection is 1018–0110, and the OMB approval for this collection expires on March 31, 2004. We are requesting a three year term of approval for this information collection activity.
