SUPPLEMENTARY INFORMATION: BPA owns and operates approximately three-quarters of the high-voltage electric grid in the Pacific Northwest. These 15,000 miles of transmission lines carry energy from dams and other power-generating facilities to public and private utility customers and direct-service industries. BPA's transmission system also includes transmission lines that connect to Canada, California, the Southwest, and eastern Montana.

BPA's transmission business consists of more than just the construction, operation, and maintenance of transmission lines; it includes all of the activities necessary to manage a regional system to deliver electricity, such as marketing of capacity and setting rates to recover costs in accordance with sound business principles. This requires participation with regional and national stakeholders in discussions regarding reliability, environmental concerns, congestion management, conservation measures, industry restructuring, and national standards, among other issues. This policy-level EIS will further enhance BPA's understanding of the impacts that transmission-related activities have on the human environment, and will help further inform the public of these impacts.

Several Federal statutes guide BPA's transmission business line. The Bonneville Project Act § 2(b) states that " * * * the administrator is authorized and directed to provide, construct, operate, maintain, and improve such electric transmission lines and substations, 3 and facilities and structures * * * as he finds necessary, desirable, or appropriate. * * *." In addition, the Federal Columbia River Transmission System Act, §§ 4(a)-(d) directs the administrator to operate and maintain the system for stability and reliability, among other objectives. The Pacific Northwest Electric Power Planning and Conservation Act, § 2(2) requires the administrator to assure an adequate, efficient, economical, and reliable power supply for the Northwest.

In addition to these statutory obligations, BPA's transmission business is operated separately from its power business, because BPA

voluntarily complies with the open access policies of the Federal Energy Regulatory Commission (FERC). Although BPA is not subject to FERC's jurisdiction concerning these policies, BPA has adopted and currently implements an Open Access Transmission Tariff for the FCRTS that is generally consistent with FERC's *pro forma* open access tariff. This course of action demonstrates BPA's commitment to non-discriminatory access to its transmission system and ensures that BPA will receive non-discriminatory access to the transmission systems of utilities that are subject to FERC's jurisdiction.

FERC has fostered several industry-restructuring initiatives, in which BPA has participated. To promote competitive wholesale power markets through standards of practice, FERC has proposed a Standard Market Design. Key features of this Market Design include the formation of regional transmission organizations (RTOs) and sound wholesale market rules. Over the years, BPA has been part of regional discussions regarding the potential creation of an RTO in the Pacific Northwest, to discuss BPA's possible role in an RTO and ensure that its formation provides coordinated benefits to BPA's customers and the Northwest.

As part of addressing its many transmission policy issues, BPA is also involved in several agency and regional processes. For example, in early 2003, BPA initiated a roundtable for discussion of "non-wire" solutions to transmission capacity issues. Round table meetings considered transmission line alternatives such as energy efficiency programs, demand reduction initiatives, pricing strategies, and distributed generation. The agency has also been meeting with customers regarding available transfer capability (ATC). These discussions described the methodology for determining ATC, and the effects the methodology would have on contracting and scheduling.

BPA will use the previously mentioned processes, among others related to transmission issues, to help shape the development of this policy-level EIS. BPA expects that this EIS will enhance the transmission issues discussed in BPA's 1995 Business Plan EIS (DOE/EIS-0183). The Business Plan EIS included an evaluation of the environmental impacts potentially resulting from the full range of the agency's business policies, including its power, transmission, and fish and wildlife activities. This transmission EIS will provide a policy-level analysis that is more focused on transmission issues,

similar to the way BPA's recently completed Fish and Wildlife Implementation Plan EIS provides a policy-level analysis that is more focused on the agency's administration of its fish and wildlife responsibilities.

This EIS is being prepared to consider and assess various potential policy directions for the planning, construction, operation, and marketing of BPA's transmission activities. This document will allow BPA's decisionmakers and the public to be better informed about the potential cumulative impacts that can be expected from BPA's transmission-related policy decisions. This EIS is intended to support and facilitate a number of decisions regarding BPA's transmission activities.

This transmission EIS will identify a broad range of alternative policy directions structured around key transmission policy considerations such as reliability, cost, contractual obligations, regulatory requirements, and "non-wire" solutions. The EIS will also provide an assessment of potential impacts on the human environment associated with each of the alternatives. During this scoping period, the public is invited to provide comments and suggestions on potential alternatives to be included in the EIS. BPA is in the process of defining these alternatives, and is interested in receiving public input before fully defining the range of alternatives to be considered in the EIS. The public also is invited to comment on potential key issues and environmental impacts to be considered in the EIS.

Issued in Portland, Oregon, on December 15, 2003.

ENVIRONMENTAL PROTECTION AGENCY

[OPPT-2002-0001; FRL-7340-3]

National Pollution Prevention and Toxics Advisory Committee; Notice of Public Meeting Change of Dates

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: Under the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2 (Public Law 92-463), EPA gives notice of a change of date to the January meeting of the National Pollution Prevention and Toxics Advisory Committee (NPPTAC). The purpose of the NPPTAC is to provide advice and recommendations to EPA regarding the overall policy and operations of the programs of the Office of Pollution Prevention and Toxics (OPPT).

DATES: The meeting will be held on January 7, 2004, from 10 a.m. to 5:30 p.m. only. The NPPTAC will not meet January 8, 2004, as announced on December 3, 2003, in the **Federal Register**.

ADDRESSES: The meeting will be held at the Four Points by Sheraton Hotel, 1201 K Street, NW., Washington, DC.

For address information concerning registration, the submission of written comments, and requests to present oral comments, refer to the December 3, 2003 **Federal Register** Notice.

FOR FURTHER INFORMATION CONTACT: For general information contact: Barbara Cunningham, Director, Environmental Assistance Division (7408M), Office of Pollution Prevention and Toxics, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (202) 554-1404; e-mail address: TSCA-Hotline@epa.gov.

For technical information contact: Mary Hanley, Office of Pollution Prevention and Toxics (7401M), Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460-0001; telephone number: (202) 564-9891; e-mail address: npptac.oppt@epa.gov.

SUPPLEMENTARY INFORMATION:

I. General Information

A. Does this Action Apply to Me?

This action is directed to the public in general, and may be of particular interest to those persons who have an interest in or may be required to manage pollution prevention and toxic chemical programs, individuals, groups concerned with environmental justice, children's health, or animal welfare, as they relate to OPPT's programs under the Toxic Substances Control Act (TSCA) and the Pollution Prevention Act (PPA). Since other entities may also be interested, the Agency has not attempted to describe all the specific entities that may be interested in the activities of the NPPTAC. If you have any questions regarding the applicability of this action to a particular entity, consult the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

B. How Can I Get Copies of this Document and Other Related Information?

1. *Docket.* EPA has established an official public docket for this action under docket identification (ID) number OPPT-2002-0001. The official public docket consists of the documents specifically related to the NPPTAC, any public comments received, and other information related to the NPPTAC. Although a part of the official docket, the public docket does not include Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. The official public docket is the collection of materials that is available for public viewing at EPA's Docket Center, Rm. B102-Reading Room, EPA West, 1301 Constitution Ave., NW., Washington, DC. EPA's Docket Center is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. EPA's Docket Center Reading Room telephone number is (202) 566-1744 and the telephone number for the OPPT Docket, which is located in EPA Docket Center, is (202) 566-0280.

2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to submit or view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically.

Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number.

ENVIRONMENTAL PROTECTION AGENCY

[FRL-7599-6]

Notice of Proposed Administrative Settlement Pursuant to the Comprehensive Environmental Response, Compensation, and Liability Act, as Amended by the Superfund Amendments and Reauthorization Act; Lagoon Drive Chemical Removal Site

AGENCY: Environmental Protection Agency.

ACTION: Notice, request for public comments.

SUMMARY: In accordance with Section 122(i) of the Comprehensive Environmental Response, Compensation, and Liability Act, as amended ("CERCLA"), 42 U.S.C. 9622(i), notice is hereby given of a proposed Administrative Order on Consent ("AOC," Region 9, Docket No. 2004-0001) pursuant to Section 122(h) of CERCLA concerning the Lagoon Drive Chemicals Removal Site (the "Site"), located in Chula Vista, California. The respondent to the AOC is Gary Rasmussen ("Rasmussen"). The AOC provides Rasmussen with a covenant not to sue and contribution protection for the removal action at the Site. To date, EPA has incurred approximately \$49,000.00 in response costs related to the Site. Rasmussen is reimbursing \$5,000.00 of the incurred response costs to EPA, consistent with EPA's determination of Rasmussen's ability to pay. For thirty (30) days following the date of publication of this Notice, the Agency will receive written comments relating to the proposed AOC. The Agency's response to any comments will be available for public inspection at EPA's Region IX offices, located at 75 Hawthorne Street, San Francisco, California 94105.
