II. Background

A. What Action is the Agency Taking?

EPA is making available for comment a paper on procedures for developing, modifying, and implementing its policy guidance documents concerning the regulation of pesticides. These procedures have two goals. The first is to increase public participation in the development, modification, and implementation of OPP policy guidance documents; the second is to clarify that while such documents are non-binding policy statements and not legally binding rules, they nonetheless play an important role in helping to ensure a consistent starting point for OPP decision making.

EPA will consider the comments received and plans to reissue the paper with revisions, as appropriate, after

considering and responding to all significant comments.
