

of Appeals for the District of Columbia Circuit partially vacated the policy, disallowing the portion dealing with historic cost valuation of airport property. *Air Transport Association of America v. Department of Transportation*, 119 F.3d 38 (D.C. Cir. 1997), as modified on rehearing, Order of Oct. 15, 1997. The Department of Transportation, Office of the Secretary, and the FAA published an Advance Notice of Proposed Policy seeking suggestions for replacement provisions of those portions the Court vacated (63 FR 43228, August 12, 1998).

The Department of Transportation is conducting studies related to the use of market pricing to manage demand at congested airports. Substantial overlap of the issues exists between the Department study and the published Advance Notice of Proposed Policy Regarding Airport Rates and Charges. To avoid duplication of effort and resources, and to allow more complete analysis of the issues, the FAA is withdrawing the Advance Notice of Proposed Policy Regarding Airport Rates and Charges.

Discussion of Comments

In response to the advance notice, we received comments from the Air Transport Association (ATA), Airports Council International "North America (ACI-NA), National Business Travel Association, the Kauai Helicopter Operators Association, and 13 airports. The time period for comments and reply comments was extended at the request of ATA and ACI-NA.

Commenters offer their perspective on existing fee structures and methodologies, distinctions between fees charged for airfield versus non-airfield assets, and evidence of airport monopoly power. Comments from ATA, ACI-NA and Los Angeles World Airports include economic discussions from consulting economists. In general, air carriers favor historical cost accounting as the basis for aeronautical rates and charges, while airports favor basing rates and charges on fair market value of aeronautical assets. Air carriers express concern that any new policy should prevent airports from adding imputed interest to funds derived from airfield and other essential aeronautical facilities. Issues and recommendations presented by commenters will require further study, but will not be pursued within the course of the Policy Regarding Airport Rates and Charges addressed by this document, because the Department of Transportation will consider these and related issues in its study of congestion pricing at airports.

Conclusion

The Department of Transportation's current study of congestion pricing at airports will encompass many of the rates and charges issues addressed in the Advance Notice of Proposed Policy entitled Policy Regarding Airport Rates and Charges. Therefore, the FAA withdraws the Advance Notice of Proposed Policy published at 63 FR 43228 on August 12, 1998. Withdrawal of the Advance Notice of Proposed Policy does not preclude the FAA from issuing another notice on the subject matter in the future or commit the agency to any future course of action.

Issued in Washington, DC, on January 31, 2003.

Associate Administrator for Airports.

DEPARTMENT OF TRANSPORTATION

Federal Transit Administration

Over-the-Road Bus Accessibility Program Grants

AGENCY: Federal Transit Administration (FTA), DOT.

ACTION: Notice of availability of fiscal year 2003 funds; solicitation of grant applications.

SUMMARY: The U.S. Department of Transportation (DOT) Federal Transit Administration (FTA) announces the availability of funds in fiscal year (FY) 2003 for the Over-the-road Bus (OTRB) Accessibility Program, authorized by Section 3038 of the Transportation Equity Act for the 21st Century (TEA-21), 49 U.S.C. 5310 *note*. The OTRB Accessibility Program makes funds available to private operators of over-the-road buses to finance the incremental capital and training costs of complying with DOT's over-the-road bus accessibility final rule, published in a **Federal Register** notice on September 24, 1998. The OTRB Accessibility Program calls for national solicitation of applicants, with grantees to be selected on a competitive basis. Federal transmit funds are available to intercity fixed-route providers and other OTRB providers are up to 90 percent of the project cost.

A total of \$24.3 million is available for the program over the life of TEA-21. The guaranteed level of funding available for intercity fixed-route service was \$2 million in FY 1999, \$2 million in FY 2000, \$3 million in FY 2001, \$5.25 million in FY 2002, and is \$5.25 million in FY 2003, for a total of \$17.5

million. The guaranteed level of funding for other over-the-road bus service, including charter and tour bus, is \$1.7 million per year from FY 2000 to FY 2003, for a total of \$6.8 million.

FTA expects that in FY 2003, \$5.25 million will be appropriated for intercity fixed-route service providers and \$1.7 million will be appropriated for other over-the-road bus service providers. This announcement describes application procedures for the OTRB Accessibility Program and the procedures FTA will use to determine which projects it will fund.

This announcement is available on the Internet on the FTA Web site at: <http://www.fta.dot.gov/library/legal/federalregister/2003/index.html>. FTA will announce final selections on the Web site and in the **Federal Register**.

DATES: Complete applications for OTRB Accessibility Program grants must be submitted to the appropriate FTA regional office (see Appendix A) by the close of business March 28, 2003. The appropriate FTA regional office is that office which serves the state in which an applicant's headquarters office is located. FTA will announce grant selections in June 2003.

FOR FURTHER INFORMATION CONTACT: Contact the appropriate FTA Regional Administrator (Appendix B) for application-specific information and issues. For general program information, contact Blenda Younger, Office of Program Management, (202) 366-2053, e-mail: blenda.younger@fta.dot.gov. A TDD is available at 1-800-877-8339 (TDD/FIRS).

I. General Program Information

A. Authority

The program is authorized under section 3038 of the Transportation Equity Act for the 21st Century (TEA-21), 49 U.S.C. 5310 *note*. Although FY 2003 funds have not been appropriated, FTA is issuing the solicitation notice now to get the application cycle started.

B. Background

Over-the-road buses are used in intercity fixed-route service as well as other services, such as commuter, charter, and tour bus services. These services are an important element of the U.S. transportation system. TEA-21

authorized FTA's Over-the-road Bus Accessibility Program to assist over-the-road bus operators in complying with the Department's Over-the-road Bus Accessibility rule, "Transportation for Individuals with Disabilities" (49 CFR part 37) published in a **Federal Register** notice on September 24, 1998.

Summary of DOT's Over-the-Road Bus Accessibility Rule

Deadlines for Acquiring Accessible Vehicles. Under the over-the-road bus accessibility rule, all new buses obtained by large (Class I carriers, *i.e.*, those who gross annual operating revenues of \$5.3 million or more), fixed-route carriers after October 30, 2000 must be accessible, with wheelchair lifts and tie-downs that allow passengers to ride in their own wheelchairs. The rule requires 50 percent of the fixed-route carriers' fleets to be accessible by 2006, and 100 percent of the vehicles in their fleets to be accessible by 2012. The buses acquired by small (gross operating revenues of less than \$5.3 million annually) fixed-route providers after October 29, 2001 also are required to be lift-equipped, although they do not have a deadline for total fleet accessibility. Small providers also can provide equivalent service in lieu of obtaining accessible buses. Starting in 2001, charter and tour companies have to provide service in an accessible bus on 48 hours' advance notice. Fixed-route companies must also provide this kind of service on an interim basis until their fleets are completely accessible.

Deadlines for Delivering Accessible Service. The rules for delivering accessible motorcoach service went into effect October 29, 2001 for large fixed-route, charter, tour and other demand-responsive motorcoach companies. The rules went into effect for small operators on October 28, 2002. After these dates, companies must provide service in an accessible coach to a passenger who requests it and gives 48 hours' advance notice. Small companies may provide equivalent service, instead of acquiring accessible coaches. This equivalent service may be provided in an alternate vehicle (*e.g.*, a van), provided that the service allows passengers to travel in their own wheelchairs.

Specifications describing the design features that an over-the-road bus must have to be readily accessible to and usable by persons who use wheelchairs or other mobility aids required by the "Americans with Disabilities Act Accessibility Guidelines for Transportation Vehicles: Over-the-Bus Buses" rule (36 CFR part 1192) were published in another **Federal Register** notice on September 28, 1998.

C. Scope

Improving mobility and shaping America's future by ensuring that the transportation system is accessible, integrated, and efficient, and offers flexibility of choices is a key strategic goal of the Department of Transportation. Over-the-road Bus Accessibility projects will improve mobility for individuals with disabilities by providing financial assistance to help make vehicles accessible and provide training to ensure that drivers and other understand have to use accessibility features as well as how to treat patrons with disabilities.

D. Eligible Applicants

Grants will be made directly to operators of over-the-road buses. Intercity, fixed-route over-the-road bus service providers may apply for the \$5.25 million that FTA expects will be available to intercity fixed-route providers in FY 2003. Other over-the-road bus service providers, including operators of local fixed-route service, commuter service, and charter or tour service may apply for the \$1.7 million expected to be available in FY 2003 for these providers. OTRB operators who provide intercity, fixed-route service and another type of service, such as commuter, charter or tour, may apply for both categories of funds with a single application. Private for-profit operators of over-the-road buses are eligible to be direct applicants for this program. This is a departure from most other FTA programs for which the direct applicant must be a state or local public body.

E. Vehicle and Service Definitions

An "over-the-road bus" is a bus characterized by an elevated passenger deck located over a baggage compartment.

Intercity, fixed-routed over-the-road bus service is regularly scheduled bus service for the general public, using an over-the-road bus that: Operates with limited stops over fixed routes connecting two or more urban areas not in close proximity or connecting one or more rural communities with an urban area not in close proximity; has the capacity for transporting baggage carried by passengers; and makes meaningful connections with scheduled intercity bus service to more distant points.

Other over-the-road bus service means any other transportation using over-the-road buses, including local fixed-route service, commuter service, and charter or tour service (including tour or excursion service that includes features in addition to bus transportation such as

meals, lodging, admission to points of interest or special attractions). While some commuter service may also serve the needs of some intercity fixed-route passengers, the statute includes commuter service in the definition of "other" service. Commuter service providers should apply for these funds, even though the services designed to meet the needs of commuters may also provide service to intercity fixed-route passengers on an incidental basis. If a service provider can document that more than 50 percent of its passengers are using the service as intercity fixed-route service, the provider may apply for the funds designated for intercity fixed-route operators.

F. Eligible Projects

Projects to finance the incremental capital and training costs of complying with DOT's over-the-road bus accessibility rule (49 CFR Part 37) are eligible for funding. Incremental capital costs eligible for funding include adding lifts, tie-downs, moveable seats, doors and all labor costs associated with work on the vehicle needed to make vehicles accessible. Retrofitting vehicles with such accessibility components is also an eligible expense. Please see Buy America section for further determination of eligibility.

FTA may award funds for costs already incurred by the applicants. Any new wheelchair accessible vehicles delivered since June 8, 1998, the date that the Transportation Equity Act for the 21st Century was effective, are eligible for funding under the program. Vehicles of any age that have been retrofitted with lifts and other accessibility components since June 8, 1998 are also eligible for funding.

Eligible training costs are those required by the final accessibility rule as described in 49 CFR 37.209. These activities include training in proper operation and maintenance of accessibility features and equipment, boarding assistance, securement of mobility aids, sensitive and appropriate interaction with passengers with disabilities, and handling and storage of mobility devices. The costs associated with developing training materials or providing training for local providers of over-the-road bus services for these purposes are eligible expenses.

FTA will not fund the incremental costs of acquiring used wheelchair accessible OTRBs, as it may be impossible to verify whether or not FTA funds were already used to make the vehicles accessible. Also, it would be difficult to place a value on the accessibility features based upon the depreciated value of the vehicle. FTA

wishes to increase the number of wheelchair accessible over-the-road buses available to persons with disabilities throughout the country, and the purchase of used accessible vehicles, whether or not they were previously funded by FTA, does not further this objective.

FTA has sponsored the development of accessibility training materials for public transit operators. FTA-funded Projected Action is a national technical assistance program to promote cooperation between the disability community and the transportation industry. Project Action provides training, resources and technical assistance to thousands of disability organizations, consumers with disabilities, and transportation operators. It maintains a resource center with the most up-to-date information on transportation accessibility. Project Action may be contacted at: Project Action, 700 Thirteenth Street, NW., Suite 200, Washington, DC 20590, Phone: 1-800-659-6428, Internet address: <http://www.projectaction.org/>.

G. Grant Criteria

FTA will award grants based on:

1. The identified need for over-the-road bus accessibility for persons with disabilities in the areas served by the applicant;
2. The extent to which the applicant demonstrates innovative strategies and financial commitment to providing access to over-the-road buses to persons with disabilities;
3. The extent to which the over-the-road bus operator acquires equipment required by DOT's over-the-road bus accessibility rule prior to the required timeframe in the rule;
4. The extent to which financing the costs of complying with DOT's rule presents a financial hardship for the applicant; and
5. The impact of accessibility requirements on the continuation of over-the-road bus service, with particular consideration of the impact of the requirements on service to rural areas and for low-income individuals.

These are the statutory criteria upon which funding decisions will be made. In addition to these criteria, FTA may also consider other factors, such as the size of the applicant's fleet and the level of FTA funding that may already have been awarded to applicants in prior years.

H. Grant Requirements

Applicants selected for funding must include documentation necessary to meet the requirements of FTA's Nonurbanized Area Formula program

(Section 5311 under Title 49, United States Code). Technical assistance regarding these requirements is available from each FTA regional office. The regional offices will contact those applicants selected for funding regarding procedures for making the required certifications and assurances to FTA before grants are made.

Those applicants selected for funding will be required to comply with all of the Federal requirements applicable to the OTRB Accessibility Program, provided in the comprehensive compilation below. Federal requirements apply to the incremental cost of adding wheelchair accessibility features to new vehicles or when retrofitting existing vehicles, not to the entire vehicle. All applicants are advised to read the entire list of requirements to be confident of their responsibilities and commitments for compliance.

The authority for these requirements are provided by the Transportation Equity Act for the 21st Century, Pub. L. 105-178, June 9, 1998, as amended by the TEA-21 Restoration Act 105-206, 112 Stat. 685, July 22, 1998, 49 U.S.C. chapter 53, Title 23, United States Code, DOT and FTA regulations at 49 CFR, and FTA Circulars.

1. Buy America

In the OTRB Accessibility program, FTA's Buy American regulations, 49 CFR part 661, apply to the incremental capital cost of making vehicles accessible. Those regulations do not apply to associated labor costs. The following discussion relates to the contract between the grantee and the prime contractor.

The "General Requirements" found at 49 CFR 661.5 apply to that portion of the accessibility system being funded. That section requires that all of the manufacturing processes for the product take place in the United States and that all components of the product be made in the United States. A component is considered domestic if it is manufactured in the U.S.A., regardless of the origin of its subcomponents. The lift, the moveable seats, and the securement devices will all be considered components for purposes of this program; accordingly, as components, each must be manufactured in the United States. Should a recipient choose to request funding for only a specific component, such as the lift or the securement device, then the Buy America requirements would apply only to that item funded by FTA.

Three exceptions to the general requirements can be found at 49 CFR

661.7: first, a waiver may be requested when the application of the regulation is not in the public interest; second, a waiver may be requested if the materials and products being procured are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality; and third, a price differential waiver may be requested where the results of competitive procurement show that there is a 25 percent price difference between the domestic and foreign products. FTA approval of a waiver must be received by the recipient of FTA funds prior to the execution of contract.

It should also be noted that FTA has issued a general public interest waiver for all purchases under the Federal "small purchase" threshold, which is currently \$100,000. This waiver can be found in 49 CFR 661.7, Appendix A(e). In section 3038(b) of TEA-21, Congress authorized FTA financing of the incremental capital costs of compliance with DOT's OTRB accessibility rule. Consistent with this provision, the small purchase waiver applies only to the incremental cost of the accessibility features FTA is funding. Where more than one bus is purchased, the grantee must consider the incremental cost increase for the entire procurement when determining if the small purchase waiver applies. For example, if \$30,000 is the incremental cost for the accessibility features eligible under this program per bus (regardless of the Federal share contribution), then a procurement of three buses with a total such cost of \$90,000, would qualify for the small purchase waiver. No special application to FTA would be required.

The grantee must obtain a certification from the bus manufacturer that all items included in the incremental cost for which the applicant is applying for funds meet Buy America requirements.

The Buy America regulations can be found at <http://www.fta.dot.gov/library/legal/buyamer/>.

2. Labor Protection

Before FTA may award a grant for capital assistance, 49 U.S.C. 5333(b) requires that fair and equitable arrangements must be made to protect the interests of transit employees affected by FTA assistance. Those arrangements must be certified by the Secretary of Labor as meeting the requirements of the statute. When a labor organization represents a group of affected employees in the service area of an FTA project, the employee protective arrangement is usually the product of negotiations or discussions with the

union. The grant applicant can facilitate Department of Labor (DOL) certification by identifying in the application any previously certified protective arrangements that have been applied to similar projects undertaken by the grant applicant, if any. Receiving funds under the OTRB Accessibility program, however, will not require the grantee's employees to be represented by organized labor. Nothing in the labor protection provisions in 49 U.S.C. 5333(b) requires a motorcoach operator to become a union carrier or encourages union organizing in any manner. Upon receipt of a grant application requiring employee protective arrangements, FTA will transmit the application to DOL and request certification of the employee protective arrangements. In accordance with DOL guidelines, DOL notifies the relevant unions in the area of the project that a grant for assistance is pending and affords the grant applicant and union the opportunity to agree to an arrangement establishing the terms and conditions of the employee protections. If necessary, DOL furnishes technical and mediation assistance to the parties during their negotiations. The Secretary of Labor may determine the protections to be certified if the parties do not reach an agreement after good faith bargaining and mediation efforts have been exhausted. DOL will also set the protective conditions when affected employees in the service area are not represented by a union. When DOL determines that employee protective arrangements comply with labor protection requirements, DOL will provide a certification to FTA. The grant agreement between FTA and the grant applicant incorporates by reference the employee protective arrangements certified by DOL.

Applicants must identify any labor organizations that may represent their employees and all labor organizations that represent the employees of any other transit providers in the service area of the project.

For each local of a nationally affiliated union, the applicant must provide the name of the national organization and the number or other designation of the local union. (For example, Amalgamated Transit Union local 1258.) Since DOL makes its referral to the national union's headquarters, there is no need to provide a means of contacting the local organization.

However, for each independent labor organization (*i.e.*, a union that it is not affiliated with a national or international organization) the local information will be necessary (name of

organization, address, contact person, phone, fax numbers).

Where a labor organization represents transit employees in the service area of the project, DOL must refer the proposed protective arrangements to each union and to each recipient. For this reason, please provide DOL with a contact person, address, telephone number and fax number for your company, and associated union information.

DOL issued a **Federal Register** notice addressing the new TEA-21 programs, including the OTRB Accessibility Program, "Amendment to Section 5333(b) Guidelines to Carry Out New Programs Authorized by the Transportation Equity Act of the 21st Century (TEA-21)"; Final Rule, dated July 28, 1999. FTA issued a "Dear Colleague" letter, dated December 5, 2000, addressing DOL processing of grant applications. Attached to the letter is an application checklist which provides information that DOL must have in order to review and certify FTA grant applications. This letter and attachment can be found at: <http://www.fta.dot.gov/office/public/c0019.html>. Questions concerning protective arrangements and related matters pertaining to transit employees should be addressed to the Division of Statutory Programs, Department of Labor, 200 Constitution Avenue, NW., Room N-5411, Washington, DC 20210; telephone (202) 693-0126, fax (202) 219-5338.

3. Planning

Applicants are encouraged to notify the appropriate state departments of transportation and metropolitan planning organizations (MPO) in areas likely to be served by equipment made accessible through funds made available in this program. Those organizations, in turn, should take appropriate steps to inform the public, and individuals requiring fully accessible services in particular, of operators' intentions to expand the accessibility of their services. Incorporation of funded projects in the plans and transportation improvement programs of states and metropolitan areas by states and MPOs also is encouraged, but is not required.

4. Standard Assurances

The Applicant assures that it will comply with all applicable Federal statutes, regulations, executive orders, FTA circulars, and other Federal administrative requirements in carrying out any project supported by the FTA grant. The Applicant acknowledges that it is under a continuing obligation to comply with the terms and conditions

of the grant agreement issued for its project with FTA. The Applicant understands that Federal laws, regulations, policies, and administrative practices might be modified from time to time and affect the implementation of the project. The Applicant agrees that the most recent Federal requirements will apply to the project, unless FTA issues a written determination otherwise.

A. Debarment, Suspension, and Other Responsibility Matters for Primary Covered Transactions

As required by U.S. DOT regulations on Government-wide Debarment and Suspension (Nonprocurement) at 49 CFR 29.510:

(1) The Applicant (Primary Participant) certifies, to the best of its knowledge and belief, that it and its principals:

(a) Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from covered transactions by any Federal department or agency;

(b) Have not, within a three (3) year period preceding this certification, been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) transaction or contract under a public transaction, violation of Federal or state antitrust statutes, or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;

(c) Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, state, or local) with commission of any of the offenses listed in subparagraph (1)(b) of this certification; and

(d) Have not within a three-year period preceding this certification had one or more public transactions (Federal, state, or local) terminated for cause or default.

(2) The Applicant also certifies that, if it later becomes aware of any information contradicting the statements of paragraph (1) above, it will promptly provide that information to FTA.

(3) If the Applicant (Primary Participant) is unable to certify to all statements in paragraphs (1) and (2) above, it shall indicate so in its signature page and provide a written explanation to FTA.

B. Drug-Free Workplace Agreement

As required by U.S. DOT regulations, "Drug-Free Workplace Requirements (Grants)," 49 CFR part 29, Subpart F, as modified by 41 U.S.C. 702, the Applicant agrees that it will provide a drug-free workplace by:

(1) Publishing a statement notifying its employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in its workplace and specifying the actions that will be taken against its employees for violation of that prohibition;

(2) Establishing an ongoing drug-free awareness program to inform its employees about:

(a) The dangers of drug abuse in the workplace,

(b) Its policy of maintaining a drug-free workplace,

(c) Any available drug counseling, rehabilitation, and employee assistance programs, and

(d) The penalties that may be imposed upon its employees for drug abuse violations occurring in the workplace;

(3) Making it a requirement that each of its employees be engaged in the performance of the grant be given a copy of the statement required by paragraph (1) above;

(4) Notifying each of its employees in the statement required by paragraph (1) that, as a condition of employment financed with Federal assistance provided by the grant, the employee will be required to:

(a) Abide by the terms of the statement, and

(b) Notify the employer (Applicant) in writing of any conviction for a violation of a criminal drug statute occurring in the workplace no later than five (5) calendar days after that conviction;

(5) Notifying FTA in writing, within ten (10) calendar days after receiving notice required by paragraph (4)(b) above from an employee or otherwise receiving actual notice of that conviction. The Applicant, as employer of any convicted employee, must provide notice, including position title, to every project officer or other designee on whose project activity the convicted employee was working. Notice shall include the identification number(s) of each affected grant;

(6) Taking one of the following actions within thirty (30) calendar days of receiving notice under paragraph (4)(b) of this agreement with respect to any employee who is so convicted:

(a) Taking appropriate personnel action against that employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended, or

(b) Requiring that employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, state, or local health, law enforcement, or other appropriate agency; and

(7) Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs (1), (2), (3), (4), (5), and (6) of this agreement. The Applicant agrees to maintain a list identifying its headquarters location and each workplace it maintains in which project activities supported by FTA are conducted, and make that list readily accessible to FTA.

C. Intergovernmental Review Assurance

The Applicant assures that each application for Federal assistance submitted to FTA has been or will be submitted, as required by each state, for intergovernmental review to the appropriate state and local agencies. Specifically, the Applicant assures that it has fulfilled or will fulfill the obligations imposed on FTA by U.S. DOT regulations, "Intergovernmental Review of Department of Transportation Programs and Activities," 49 CFR part 17.

D. Nondiscrimination Assurance

As required by 49 U.S.C. 5332 (which prohibits discrimination on the basis of race, color, creed, national origin, sex, or age, and prohibits discrimination in employment or business opportunity), Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000d, and U.S. DOT regulations, "Nondiscrimination in Federally-Assisted Programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act," 49 CFR part 21 at 21.7, the Applicant assures that it will comply with all requirements of 49 CFR part 21; FTA Circular 4702.1, "Title VI Program Guidelines for Federal Transit Administration Recipients", and other applicable directives, so that no person in the United States, on the basis of race, color, national origin, creed, sex, or age will be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination in any program or activity (particularly in the level and quality of transportation services and transportation-related benefits) for which the Applicant receives Federal assistance awarded by the U.S. DOT or FTA as follows:

(1) The Applicant assures that each project will be conducted, property acquisitions will be undertaken, and project facilities will be operated in

accordance with all applicable requirements of 49 U.S.C. 5332 and 49 CFR part 21, and understands that this assurance extends to its entire facility and to facilities operated in connection with the project.

(2) The Applicant assures that it will take appropriate action to ensure that any transferee receiving property financed with Federal assistance derived from FTA will comply with the applicable requirements of 49 U.S.C. 5332 and 49 CFR part 21.

(3) The Applicant assures that it will promptly take the necessary actions to effectuate this assurance, including notifying the public that complaints of discrimination in the provision of transportation-related services or benefits may be filed with U.S. DOT or FTA. Upon request by U.S. DOT or FTA, the Applicant assures that it will submit the required information pertaining to its compliance with these requirements.

As required by 49 U.S.C. 5332 (which prohibits discrimination on the basis of race, color, creed, national origin, sex, or age, and prohibits discrimination in employment or business opportunity), Title VI of the Civil Rights Act of 1964, as amended, 42 U.S.C. 2000d, and U.S. DOT regulations, "Nondiscrimination in Federally-Assisted Programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act," 49 CFR part 21 at 21.7, the Applicant assures that it will comply with all requirements of 49 CFR part 21; FTA Circular 4702.1, "Title VI Program Guidelines for Federal Transit Administration Recipients", and other applicable directives, so that no person in the United States, on the basis of race, color, national origin, creed, sex, or age will be excluded from participation in, be denied the benefits of, or otherwise be subjected to discrimination in any program or activity (particularly in the level and quality of transportation services and transportation-related benefits) for which the Applicant receives Federal assistance awarded by the U.S. DOT or FTA as follows:

(1) The Applicant assures that each project will be conducted, property acquisitions will be undertaken, and project facilities will be operated in accordance with all applicable requirements of 49 U.S.C. 5332 and 49 CFR part 21, and understands that this assurance extends to its entire facility and to facilities operated in connection with the project.

(2) The Applicant assures that it will take appropriate action to ensure that any transferee receiving property financed with Federal assistance derived from FTA will comply with the

applicable requirements of 49 U.S.C. 5332 and 49 CFR part 21.

(3) The Applicant assures that it will promptly take the necessary actions to effectuate this assurance, including notifying the public that complaints of discrimination in the provision of transportation-related services or benefits may be filed with U.S. DOT or FTA. Upon request by U.S. DOT or FTA, the Applicant assures that it will submit the required information pertaining to its compliance with these requirements.

(4) The Applicant assures that it will make any changes in its 49 U.S.C. 5332 and Title VI implementing procedures as U.S. DOT or FTA may request.
