SUPPLEMENTARY INFORMATION:

I. Background

The Commission previously has authorized NFA to perform many functions that, until that time, were performed by Commission staff. These functions include: The processing of applications for registration of intermediaries and floor traders under the Commodity Exchange Act (the "Act");¹ the processing of notices of eligibility for certain exemptions from registration as a CPO and commodity trading advisor ("CTA"); the review of

certain Disclosure Documents required to be filed by CPOs and CTAs pursuant to Commission rules,² and the review of annual financial reports required to be filed by CPOs.³

In 1997, the Commission authorized NFA to receive and review Disclosure Documents required to be filed with the Commission by CPOs, pursuant to Commission rule 4.26(d), with regard to "privately offered" commodity pools.⁴ In December 2002, the Commission noted that, with regard to this area of authorization, as well as others, NFA has exercised its authority with particular proficiency. Additionally, the Commission noted that, as a result of authorizing NFA to perform such functions, Commission staff have been able to devote resources to other aspects of the Commission's regulatory mission.⁵

In December 2002, concurrently with authorizing NFA to review annual financial reports filed by CPOs, the Commission made certain amendments to part 4 of its rules⁶ so as to, among other things, make clear that Disclosure Documents with regard to privately offered commodity pools need only be filed with NFA and need not also be filed with the Commission.⁷ Additionally, the commission amended rule 4.26(d) by adding paragraph (d)(3) to make clear that Disclosure Documents, and any amendments to such Disclosure Documents, required to be filed by CPOs with regard to publicly-offered commodity pools must be filed with the Commission.⁸

As the Commission noted in December 2002, the futures industry is continually expanding and transforming itself and as the industry changes and evolves, the Commission must also change and evolve, reassessing the manner in which it allocates its resources.⁹ Accordingly, the Commission has now determined that NFA should be authorized to receive and review Disclosure Documents of publicly-offered commodity pools. Specifically, by this order, the
