BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-47710; File No. SR-DTC-2003-04]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change Relating to Revisions to the Fee Schedule

April 21, 2003.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ notice is hereby given that on March 28, 2003, The Depository Trust Company (“DTC”) filed with the

Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I, II, and III below, which items have been prepared primarily by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The proposed rule change consists of revisions to DTC’s fee schedule for low volume tender offers processed through the facilities of DTC and for certain tax products offered by DTC. The low volume tender offer fee is payable by the offeror in advance of DTC’s processing the offer.² The tax product fees are charged to participants using the selected tax products.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, DTC included statements concerning

the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. DTC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of such statements.³

(A) Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

The purpose of the proposed rule change is to adjust the fees DTC charges for low volume tender offers and certain tax products so that the fees may be aligned with their respective estimated service costs. The new fees will be effective for low volume tender offers processed on and after April 1, 2003, and for certain tax products provided by DTC on and after April 1, 2003.

The new fees are as follows:

Proposed change	Current fee	New fee
Low Volume Tender Offer Fee	\$2,700	\$2,900
DTax PTS function	¹ 1.00	² 5.00
U.S. Withholding Tax Service—Tax Reporting	100	200
TaxRelief—EDS Post payable adjustment	70	100
Direct Payment Service	25	27

¹ Per screen.

² Per CUSIP.

DTC believes that the proposed rule change is consistent with the requirements of section 17A of the Act and the rules and regulations thereunder applicable to DTC because the fees will provide for a better allocation of DTC’s service costs among users of DTC services.

(B) Self-Regulatory Organization’s Statement on Burden on Competition

DTC perceives no impact on competition by reason of the proposed rule change.

(C) Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments from DTC participants or others have not been solicited or received on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing rule change establishes or changes fees to be imposed by DTC, it has become effective pursuant to section 19(b)(3)(A)(ii) of the Act⁴ and Rule 19b-4(f)(2).⁵ At any time within sixty days of the filing of the proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act.

Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street NW., Washington, DC 20549-0609. Comments may also be submitted electronically at the following e-mail address: *rule-comments@sec.gov*. All comment letters should refer to File No. SR-DTC-2003-04. This file number should be included on the subject line if e-mail is used. To help us process and review comments more efficiently, comments should be sent in hardcopy or by e-mail but not by both methods. Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the

BILLING CODE 8010-01-P

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-47709; File No. SR-DTC-2003-07]

Self-Regulatory Organizations; The Depository Trust Company; Notice of Filing of Proposed Rule Change To Establish a Transaction Look-Ahead Process

April 21, 2003.

Pursuant to section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ notice is hereby given that on April 9, 2003, The Depository Trust Company ("DTC") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which items have been prepared primarily by DTC. The Commission is publishing this notice to solicit comments on the proposed rule change from interested parties.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

DTC is seeking to establish a transaction look-ahead process ("Look-Ahead") which will reduce transaction blockage by applying the net amount of offsetting receive and deliver transactions in the same security rather than the gross amount of the receive transaction to a participant's net debit cap.²

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, DTC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. DTC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.³

(A) Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

DTC's system controls prevent the processing of a transaction (*i.e.*, cause the transaction to recycle) when the deliverer has insufficient position or collateral, the receiver has insufficient collateral, or the processing of the transaction would cause the receiver's net debit cap to be breached. For purposes of these controls, each transaction is assessed individually without regard to offsetting transactions that might resolve any system control issue presented by the initial transaction itself.

In principle, a long series of back-to-back transactions could be blocked as a result of the first transaction failing. For example, if a transaction fails for insufficient position, collateral, or net debit cap, then a second transaction could fail because it is dependent on the first delivery to establish the necessary securities position, then a third could fail, and so on. This does in fact occur quite often in the money market instrument ("MMI") market because of the large values involved when issuing/paying agents sell new commercial paper to broker-dealers who then make deliveries to custodians, who in turn have maturities of commercial paper awaiting acceptance by the issuing/paying agents.

DTC plans to introduce Look-Ahead in June. Look-Ahead will reduce transaction blockage by applying the net amount of offsetting receive and deliver transactions in the same security rather than the gross amount of the receive transaction to a participant's net debit cap. Look-Ahead will identify receive transactions pending due to a net debit cap insufficiency and link them to offsetting delivery transactions in the same security pending for a quantity deficiency. DTC will calculate the net

effect of the offsetting transactions on the three participants involved, and if the net of the transactions results in positive risk management controls in all three accounts, the transactions will be completed. Initially, this capability will be available only for muni and corporate bonds, including MMIs where it is expected to have the widest application.

As a result of Look-Ahead, the number of recycling transactions will be reduced which could also reduce the need for intraday funding by participants and could help achieve a more efficient level of straight-through processing. Participants will not be required to make systemic changes and can continue to process their deliveries as they do today.

DTC believes that the proposed rule change is consistent with the requirements of section 17A of the Act⁴ and the rules and regulations thereunder applicable to DTC. By applying the net amount of offsetting receive and deliver transactions in the same security rather than the gross amount of the receive transaction to a participant's net debit cap, the proposed rule change should reduce the number of blocked transactions at DTC which would promote the prompt and accurate clearance and settlement of securities transactions.

(B) Self-Regulatory Organization's Statement on Burden on Competition

DTC does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, in the public interest, and for the protection of investors.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants or Others

DTC has discussed this rule change proposal in its current form with various DTC participants and industry groups, a number of whom have worked closely with DTC in developing Look-Ahead.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within thirty-five days of the date of publication of this notice in the **Federal Register** or within such longer period (i) as the Commission may designate up to ninety days of such date if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the self-regulatory
