Title: Annual Reporting Form for State Small Business Stationary Source Technical and Environmental Compliance Assistance Programs (SBAP) Under the Clean Air Act as Amended in 1990.

Abstract: As part of the Clean Air Act Amendments of 1990, the U.S. Congress included, as part of Section 507, the requirement that each state establish a Small Business Stationary Source Technical and Environmental Compliance Assistance Program (SBAP) to assist small businesses in complying with the Act. EPA must provide the Congress with periodic reports from the EPA Small Business Ombudsman (SBO) on these programs, including their effectiveness, difficulties encountered, and other relevant information. Each state assistance program will submit requested information to EPA for compilation and summarization.

This collection of information is mandatory under section 507(a), (d), and (e) of the Clean Air Act as amended in 1990, Pub. L. 101-549, November 15, 1990. This Act directs EPA to monitor the SBTCPs and to provide a report to Congress. This responsibility has been delegated to the EPA SBO. Response to the collection is not required to obtain or retain a benefit. Information in the annual Report to Congress is aggregated and is not of a confidential nature. None of the information collected by this action results in or requests sensitive information of any nature from the states.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations are listed in 40 CFR part 9 and 48 CFR Chapter 15. The **Federal Register** document required under 5 CFR 1320.8(d), soliciting comments on this collection of information was published on March 27, 2001, (66 FR16671); no comments were received.

The EPA would like to solicit comments to:

(i) evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(ii) evaluate the accuracy of the Agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(iii) enhance the quality, utility, and clarity of the information to be collected; and

(iv) minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Burden Statement: The annual public reporting and record keeping burden for this collection of information is estimated to average 80 hours per response. The estimated number of respondents is 50 State SBAPs, and 3 Territory SBAPs. The frequency of response is on an annual basis. The estimated total hours of burden is 4,240 hours. There is no annualized capital O&M cost associated with this activity.

Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Dated: October 28, 2003.

Director, Small Business Division, Small Business Ombudsman, Office of Policy, Economics and Innovation, National Center for Environmental Innovation, Office of Business and Community Innovation.

SUPPLEMENTARY INFORMATION:

Purpose of This Request for Initial Proposals

EPA Region 6's Water Quality Protection Division is requesting proposals from tribes, universities, non-profits, and other entities as defined by the SDWA for administration of Public Water Supply Supervision (PWSS) program for Tribal Direct Implementation.

EPA Region 6 Has Identified the Following High Priority Areas for Consideration

The purpose of the Native American water system operation, and management training and technical assistance projects are to provide hands-on technical assistance in the operational and managerial aspects of managing drinking water facilities. Project work occurs mainly in the field, using a "circuit rider" approach for assisting tribes with drinking water compliance issues and technical issues which may impact drinking water quality.

Other project work includes providing/coordinating local classroom training for tribal operators, tribal utility directors, and other tribal environmental staff, and tribal officials, that range in subject matter through such topics as operator certification exam preparation, disinfection procedures, regulatory requirements, optimization and performance based training.
