Security—Federal Emergency
Management Agency, effective October
1, 2003, the above numbered declaration
is hereby amended to include Franklin,
Granville, Greene, Lenoir, Nash, Person,
Vance, Warren, Wayne and Wilson
Counties as disaster areas due to
damages caused by Hurricane Isabel
occurring on September 18, 2003 and
continuing through September 26, 2003.

In addition, applications for economic injury loans from small businesses located in the contiguous counties of Caswell, Durham, Johnston, Orange and Wake in the State of North Carolina; and Halifax and Mecklenburg Counties is the Commonwealth of Virginia may be filed until the specified date at the previously designated location. All other counties contiguous to the above named primary counties have been previously declared.

All other information remains the same, *i.e.*, the deadline for filing applications for physical damage is November 17, 2003, and for economic injury the deadline is June 18, 2004.

(Catalog of Federal Domestic Assistance Program Nos. 59002 and 59008)

Dated: October 2, 2003.

Herbert L. Mitchell,

Associate Administrator for Disaster Assistance.

Proposed Advisory Circular 23–16A, Powerplant Guide for Certification of Part 23 Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of availability of proposed advisory circular AC 23–16A, and request for comments.

SUMMARY: This notice announces the availability of and requests comments on a proposed advisory circular, Advisory Circular (AC) 23-16A, Powerplant Guide for Certification of Part 23 Airplanes, that provides information and guidance concerning acceptable means, but not the only means of compliance with Title 14 of the Code of Federal Regulations (14 CFR) part 23, subpart E, applicable to the powerplant installation in normal, utility, acrobatic, and commuter category airplanes. The AC consolidates existing policy documents, and certain AC's that cover specific paragraphs of the regulations, into a single document. Material in the AC is neither mandatory nor regulatory in nature and does not constitute a regulation.

DATES: Comments must be received on or before December 8, 2003.

ADDRESSES: If possible, please submit your comments electronically to Mark.Orr@faa.gov Otherwise, send all comments on the proposed AC to: Federal Aviation Administration, Attention: Mr. Mark Orr, ACE-111, 901 Locust, Kansas City, MO 64106. Comments may be inspected at the above address between 7:30 and 4 p.m. weekdays, except Federal holidays. All comments should contain the name and telephone number of the individual or company making the comment, the paragraph and page number that the comment references, the reason for comment, and the recommended resolution.

FOR FURTHER INFORMATION CONTACT: Mr.

Mark Orr, Standards Office, Small Airplane Directorate, Aircraft Certification Service, Kansas City, Missouri 64106, telephone: (816) 329– 4151, fax: (816) 329–4090.

SUPPLEMENTARY INFORMATION:

Discussion

Interested persons are invited to comment on the proposed AC by submitting such written data, views, or arguments as they may desire.

Commenters should identify AC 23–16A and submit comments, in duplicate, to the address specified above. All

communications received on or before the closing date for comments will be considered by the Small Airplane Directorate before issuing the final AC. The proposed AC can be found and downloaded from the Internet at http://www.faa.gov/certification/aircraft and taking the following steps: Select "Regulations, Policy, and Guidance," next select "Draft Advisory Circulars," and, finally, select "Open for Comment." A paper copy of the proposed AC may be obtained by contacting the person named above under the caption FOR FURTHER INFORMATION CONTACT.

Issued in Kansas City, Missouri on September 24, 2003.

Michael Gallagher,

Manager, Small Airplane Directorate, Aircraft Certification Service.

Agency Information Collection Activities Under OMB Review

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), this notice announces that the Information Collection Requests (ICR) abstracted below have been forwarded to the Office of Management and Budget (OMB) for extension of the currently approved collections. The ICR describes the nature of the information collection and the expected burden. The Federal Register Notice with a 60-day comment period soliciting comments on the following collections of information was published on July 25, 2003, page 44137. DATES: Comments must be submitted on or before November 7, 2003. A comment to OMB is most effective if OMB receives it within 30 days of publication.

FOR FURTHER INFORMATION CONTACT: Judy Street on (202) 267–9895.

SUPPLEMENTARY INFORMATION:

Federal Aviation Administration (FAA)

1. *Title:* Notice and Approval of Airport Noise and Access Restrictions.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 2120–0563. Form(s): N/A.

Affected Public: A total of 8 airport operators.

Abstract: The Airport Noise and Capacity Act of 1990 mandates the formulation of a national noise policy. One part of that mandate is the development of a national program to review noise and access restrictions on the operation of Stage 2 and 3 aircraft. 14 CFR part 161 is the principal means. Respondents are airport operators proposing voluntary agreements and/or mandatory restrictions on Stage 2 and Stage 3 aircraft operations, and aircraft operators that request reevaluation of a restriction.

Estimated Annual Burden Hours: An estimated 30,000 hours annually.

2. *Title:* Associate Administrator for Commercial Space Transportation (AST) Customer Service Survey.

Type of Request: Extension of a currently approved collection.

OMB Control Number: 2120–0611. Form(s): N/A.

Affected Public: A total of 300 commercial space transportation customers.

Abstract: The FAA Office of the Associate Administrator for Commercial Space Transportation (AST) conducts this survey in order to obtain industry input on customer service standards which have been developed and distributed to industry customers. This is a requirement of the White House NPR Customer Service Initiative. AST collects and analyzes the data for results.

Estimated Annual Burden Hours: An estimated 300 hours annually.

3. *Title:* Service Difficulty Report. *Type of Request:* Extension of a currently approved collection. *OMB Control Number:* 2120–0663.

OMB Control Number: 2120–0663. Form(s): FAA Form 8070–1. Affected Public: A total of 7,695 aircraft and repair station operators.

Abstract: The administrator has determined, based on evaluation of previous accidents and other incidents, that certain events involving malfunctions and defects may be precursors to the recurrence of these accidents. As a result, operators and repair stations are required to report any malfunctions and defects to the Administrator.

Estimated Annual Burden Hours: An estimated 6,107 hours annually.

ADDRESSES: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street, NW., Washington, DC 20503, Attention: FAA Desk Officer.

Comments are invited on: Whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimates of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.

Issued in Washington, DC, on October 1, 2003.

Judith D. Street,

FAA Information Collection Clearance Officer, Standards and Information Division, APF–100.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

Noise Exposure Map Notice; Lincoln Airport, Lincoln, NE

AGENCY: Federal Aviation Administration, DOT. **ACTION:** Notice.

SUMMARY: The Federal Aviation Administration (FAA) announces its determination that the noise exposure maps submitted by Lincoln Airport Authority for Lincoln Airport under the provisions of 49 U.S.C. 47501 *et seq.* (Aviation Safety and Noise Abatement Act) and 14 CFR Part 150 are in

compliance with applicable requirements.

EFFECTIVE DATE: The effective date of the FAA's determination on the noise exposure maps is September 26, 2003.

FOR FURTHER INFORMATION CONTACT: Mark Schenkelberg, Federal Aviation Administration, Central Region, 901 Locust, Kansas City, MO 64106, 816– 329–2645.

SUPPLEMENTARY INFORMATION: This notice announces that the FAA finds that the noise exposure maps submitted for Lincoln Airport are in compliance with applicable requirements of part 150, effective September 26, 2003. Under 49 U.S.C. section 47503, an airport operator may submit to the FAA noise exposure maps which meet applicable regulations and which depict non-compatible land uses as of the date of submission of such maps, a description of projected aircraft operations, and the ways in which such operations will affect such maps. 49 U.S.C. Section 47503 requires such maps to be developed in consultation with interested and affected parties in the local community, government agencies, and persons using the airport.

An airport operator who has submitted noise exposure maps that are found by FAA to be in compliance with the requirements of Federal Aviation Regulations (FAR) Part 150, promulgated pursuant to the Aviation Safety and Noise Abatement Act, may submit a noise compatibility program for FAA approval which sets forth the measures the operator has taken or proposes to take to reduce existing noncompatible uses and prevent the introduction of additional noncompatible uses.

The FAA has completed its review of the noise exposure maps and accompanying documentation submitted by Lincoln Airport Authority. The documentation that constitutes the "noise exposure maps" as defined in section 150.7 of part 150 includes: "2002 Noise Exposure Map and 2007 Noise Exposure Map". The FAA has determined that these noise exposure maps and accompanying documentation are in compliance with applicable requirements. This determination is effective on September 26, 2003.

FAA's determination on an airport operator's noise exposure maps is limited to a finding that the maps were developed in accordance with the procedures contained in appendix A of FAR Part 150. Such determination does not constitute approval of the applicant's data, information or plans, or a commitment to approve a noise compatibility program or to fund the implementation of that program. If questions arise concerning the precise relationship of specific properties to noise exposure contours depicted on a noise exposure map submitted under 49 U.S.C. Section 47503, it should be noted that the FAA is not involved in any way in determining the relative locations of specific properties with regard to the depicted noise contours, or in interpreting the noise exposure maps to resolve questions concerning, for example, which properties should be covered by the provisions of 49 U.S.C. Section 47506. These functions are inseparable from the ultimate land use control and planning responsibilities of local government. These local responsibilities are not changed in any way under Part 150 or through FAA's review of noise exposure maps. Therefore, the responsibility for the detailed overlaying of noise exposure contours onto the map depicting properties on the surface rests exclusively with the airport operator that submitted those maps, or with those public agencies and planning agencies with which consultation is required under 49 U.S.C. Section 47503. The FAA has relied on the certification
