2. *Electronic access.* You may access this **Federal Register** document electronically through the EPA Internet under the "**Federal Register**" listings at <http://www.epa.gov/fedrgstr/>.

An electronic version of the public docket is available through EPA's electronic public docket and comment system, EPA Dockets. You may use EPA Dockets at <http://www.epa.gov/edocket/> to view public comments, access the index listing of the contents of the official public docket, and to access those documents in the public docket that are available electronically.

Although not all docket materials may be available electronically, you may still access any of the publicly available docket materials through the docket facility identified in Unit I.B.1. Once in the system, select "search," then key in the appropriate docket ID number. Difenzoquat is identified under OPP-2002-0097 and diquat dibromide under OPP-2002-0098 in the EPA docket system.

II. Background

A. What Action is the Agency Taking?

This notice constitutes and announces the closing of the comment periods for the difenzoquat and diquat dibromide TREDs. These decisions have been developed as part of the public participation process that EPA and the U.S. Department of Agriculture (USDA) are using to involve the public in the reassessment of pesticide tolerances under FFDCA. EPA must review tolerances and tolerance exemptions that were in effect when FQPA was enacted in August of 1996, to ensure that these existing pesticide residue limits for food and feed commodities meet the safety standard of the new law.

In reviewing these tolerances, the Agency must consider, among other things, aggregate risks from non-occupational sources of pesticide exposure, where there increased susceptibility to infants and children, and the cumulative effects of pesticides with a common mechanism of toxicity. The tolerances are considered reassessed once the safety finding has been made that the aggregate risks are not of concern. A reregistration eligibility decision (RED) was completed for difenzoquat in September 1994 and for diquat dibromide in July 1995, both prior to FQPA enactment, and therefore needed updated assessments to consider the provisions of the Act.

The 30-day comment periods for the difenzoquat and diquat dibromide

TREDs were closed on June 12, 2002 (67 FR 40296) (FRL-7181-4). As neither chemical received any adverse comments, the Agency considers the TREDs for these pesticides as immediate final decisions and hereby closed.

B. What is the Agency's Authority for Taking this Action?

The legal authority for this decision falls under FIFRA, as amended in 1988 and 1996. Section 4(g)(2)(A) of FIFRA directs that, after submission of all data concerning a pesticide active ingredient, "the Administrator shall determine whether pesticides containing such active ingredient are eligible for reregistration," and either reregister products or take other "appropriate regulatory action."
