Approval and Promulgation of Implementation Plans; Wisconsin; Withdrawal of Direct Final Rule

AGENCY: Environmental Protection Agency (EPA).

ACTION: Withdrawal of direct final rule.

SUMMARY: Due to an adverse comment, the EPA is withdrawing the direct final rule providing new compliance options for sources subject to Wisconsin rules that limit emissions of nitrogen oxides (NO_x) from large electricity generating units in the Milwaukee-Racine ozone non-attainment area. In the direct final rule published on April 10, 2003 (68 FR 17551), we stated that if we receive any adverse comments by May 12, 2003, the rule would be withdrawn and not take effect. EPA subsequently received adverse comments. EPA will address the comments received in a subsequent

final action based upon the proposed action also published on April 10, 2003 (68 FR 17576). EPA will not institute a second comment period on this action.

DATES: The direct final rule is withdrawn as of June 6, 2003.

ACTION: Withdrawal of direct final rule.

Thymol and Eucalyptus Oil; Exemptions from the Requirement of a Tolerance

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: This regulation establishes time-limited exemptions from the requirement of a tolerance for residues of thymol and eucalyptus oil on honey and honeycomb. This action is in response to EPA's granting of an emergency exemption under section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) authorizing use of these pesticides in beehives. This regulation eliminates the need to establish a maximum permissible level for residues of thymol and eucalyptus oil in or on honey and honeycomb. These time-limited exemptions from the requirement of a tolerance for residues of the thymol and eucalyptus oil will expire and are revoked on June 30, 2005.

DATES: This regulation is effective June 6, 2003. Objections and requests for hearings, identified by docket ID number OPP-2003-0002, must be received on or before August 5, 2003.

ADDRESSES: Written objections and hearing requests may be submitted electronically, by mail, or through hand delivery/courier. Follow the detailed instructions as provided in Unit VII. of the **SUPPLEMENTARY INFORMATION**.

II. Background and Statutory Findings

EPA, on its own initiative, in accordance with sections 408(e) and 408(l)(6) of the Federal Food, Drug, and Cosmetic Act (FFDCA), 21 U.S.C. 346a, is establishing time-limited exemptions from the requirement of a tolerance for residues of thymol and eucalyptus oil in or on honey and honeycomb. These time-limited exemptions from the requirement of a tolerance for residues of the thymol and eucalyptus oil will expire and are revoked on June 30, 2005. EPA will publish a document in the **Federal Register** to remove the revoked exemptions from the Code of Federal Regulations.

Section 408(l)(6) of the FFDCA requires EPA to establish a time-limited tolerance or exemption from the requirement for a tolerance for pesticide chemical residues in food that will result from the use of a pesticide under an emergency exemption granted by EPA under section 18 of FIFRA. Such tolerances can be established without providing notice or period for public comment. EPA does not intend for its actions on section 18 related tolerances to set binding precedents for the application of section 408 of the FFDCA and the new safety standard to other tolerances and exemptions. Section 408(e) of the FFDCA allows EPA to establish a tolerance or an exemption from the requirement of a tolerance on its own initiative, i.e., without having received any petition from an outside party.

Section 408(b)(2)(A)(i) of the FFDCA allows EPA to establish an exemption from the requirement for a tolerance (the legal limit for a pesticide chemical residue in or on a food) only if EPA determines that the tolerance is "safe." Section 408(b)(2)(A)(ii) defines "safe" to mean that "there is a reasonable certainty that no harm will result from aggregate exposure to the pesticide
