Mine Safety and Health Administration

30 CFR Parts 70, 75 and 90 RIN 1219-AB14

Verification of Underground Coal Mine Operators' Dust Control Plans and Compliance Sampling for Respirable Dust

**AGENCY:** Mine Safety and Health Administration (MSHA), Labor. **ACTION:** Proposed rule; corrections.

**SUMMARY:** This document corrects errors that appeared in MSHA's preamble and proposed rule for Verification of Underground Coal Mine Operators' Dust Control Plans and Compliance Sampling for Respirable Dust.

FOR FURTHER INFORMATION CONTACT: Marvin W. Nichols, Jr., Director, Office of Standards, Regulations, and Variances, MSHA, 202–693–9440.

SUPPLEMENTARY INFORMATION: On March 6, 2003, (68 FR 10784), MSHA published a proposed rule in the Federal Register that would require mine operators to verify through sampling the effectiveness of the dust control parameters for each mechanized mining unit (MMU) specified in the mine ventilation plan. For samples to be valid, the operator would be required to sample on a production shift during which the amount of material produced by a MMU is at or above the verification production level using only the dust control parameters listed in the ventilation plan.

The **Federal Register** will be publishing additional corrections to printing errors.

Please make the following corrections to that preamble:

On page 10819, column three, line
 change [(3.54 mg/m³/3]" to read
 ((3.54 mg/m³)/3]".
 On page 10819, column three, line

2. On page 10819, column three, line 44, change [ $(174 \mu g/m^3/3]$ " to read "[ $(174 \mu g/m^3)/3$ ]".

3. On page 10835, column two, line 33, change "bulletin report" to read "bulletin board."

4. On page 10854, column one, line 69, change "Table 11," to read "Table 119."

5. On page 10861, column two, line one, change "http://wwww.msha.gov/REGSINFO.HTM" to read "http://www.msha.gov/REGSINFO.HTM".

Dated: March 21, 2003.

## Dave D. Lauriski,

Assistant Secretary of Labor for Mine Safety and Health.

Mine Safety and Health Administration

30 CFR Part 72

RIN 1219-AB18

# Determination of Concentration of Respirable Coal Mine Dust

**AGENCY:** Mine Safety and Health Administration (MSHA), Labor.

**ACTION:** Proposed rule; reopening of

record; correction.

**SUMMARY:** This document corrects errors which appeared in a notice of reopening addressing the joint Department of Labor and Department of Health and Human Services proposed rule, "Determination of Concentration of Respirable Coal Mine Dust."

FOR FURTHER INFORMATION CONTACT: Marvin W. Nichols, Jr., Director, Office of Standards, Regulations, and Variances, MSHA, 202–693–9440.

**SUPPLEMENTARY INFORMATION:** On March 6, 2003 (68 FR 10940) MSHA published a notice of reopening addressing the July 7, 2000 proposed rule, (65 FR 42068), Determination of Concentration of Respirable Coal Mine Dust.

The proposed rule announced that the Secretary of Labor and the Secretary of Health and Human Services would find that the average concentration of respirable dust to which each miner in the active workings of a coal mine is exposed can be accurately measured over a single shift. The Secretaries proposed to rescind a previous 1972 finding by the Secretary of the Interior and the Secretary of Health, Education and Welfare, on the accuracy of single shift sampling.

This document makes the following correction to the notice of reopening only as published on March 6, 2003.

## Correction

On page 10947, column one, line 50, change the equation

$$A = P_{y'} - P_{x'}$$
 where  $y' = y/x$  and  $x$  and  $x' = e^{a0xage}$  to read

$$\Delta' = P_{y'} - P_{x'}$$
  
where  $y' = y/x$  and  $x' = e^{a_0 + a_1 \times age}$ 

Dated: March 21, 2003.

## Dave D. Lauriski,

Assistant Secretary of Labor for Mine Safety and Health.

## DEPARTMENT OF HOMELAND SECURITY

**Coast Guard** 

33 CFR Part 110 [CGD01-02-129]

RIN 2115-AA98

## Anchorage Regulations; Rockland, ME

AGENCY: Coast Guard, DHS.

**ACTION:** Notice of proposed rulemaking.

**SUMMARY:** The Coast Guard proposes to amend the anchorage regulations for Rockland Harbor by redesignating anchorage ground "C" as a special anchorage area and reorienting anchorage ground "A". This proposed action is necessary to (1) alert mariners that vessels moored within special anchorage "C", are not required to sound signals or display anchor lights or shapes, and (2) provide a wider navigable channel between the two anchorages. This action is intended to increase the safety of life and property on navigable waters, improve the safety of anchored vessels in both anchorage "A" and the special anchorage area, and provide for the overall safe and efficient flow of vessel traffic and commerce.

**DATES:** Comments and related material must reach the Coast Guard on or before June 2, 2003.

ADDRESSES: You may mail comments and related material to Commander (oan) (CGD01-02-129), First Coast Guard District, 408 Atlantic Ave.. Boston, Massachusetts 02110, or deliver them to room 628 at the same address between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays. Comments and material received from the public, as well as documents indicated in this preamble as being available in the docket, will become part of this docket and will be available for inspection or copying at room 628, First Coast Guard District Boston, between 8 a.m. and 3 p.m., Monday through Friday, except Federal holidays.

# FOR FURTHER INFORMATION CONTACT: Mr. J. J. Mauro, Commander (oan), First Coast Guard District, 408 Atlantic Ave., Boston, MA 02110, Telephone (617) 223–8355.

## SUPPLEMENTARY INFORMATION:

#### **Request for Comments**

We encourage you to participate in this rulemaking by submitting comments and related material. If you do so, please include your name and address, identify the docket number for this rulemaking (CGD01–02–129), indicate the specific section of this
