

DEPARTMENT OF TRANSPORTATION**Maritime Administration****[Docket Number: MARAD 2003 16323]****Requested Administrative Waiver of the Coastwise Trade Laws****AGENCY:** Maritime Administration, Department of Transportation.**ACTION:** Invitation for public comments on a requested administrative waiver of the Coastwise Trade Laws for the vessel JUSTICE.

SUMMARY: As authorized by Public Law 105-383 and Public Law 107-295, the Secretary of Transportation, as represented by the Maritime Administration (MARAD), is authorized to grant waivers of the U.S.-build requirement of the coastwise laws under certain circumstances. A request for such a waiver has been received by MARAD. The vessel, and a brief description of the proposed service, is listed below. The complete application is given in DOT docket 2003-16323 at <http://dms.dot.gov>. Interested parties may comment on the effect this action may have on U.S. vessel builders or businesses in the U.S. that use U.S.-flag vessels. If MARAD determines, in accordance with Public Law 105-383 and MARAD's regulations at 46 CFR Part 388 (68 FR 23084; April 30, 2003), that the issuance of the waiver will have an unduly adverse effect on a U.S.-vessel builder or a business that uses U.S.-flag vessels in that business, a waiver will not be granted. Comments should refer to the docket number of this notice and the vessel name in order for MARAD to properly consider the comments. Comments should also state the commenter's interest in the waiver application, and address the waiver criteria given in § 388.4 of MARAD's regulations at 46 CFR Part 388.

DATES: Submit comments on or before November 20, 2003.

ADDRESSES: Comments should refer to docket number MARAD-2003 16323. Written comments may be submitted by hand or by mail to the Docket Clerk, U.S. DOT Dockets, Room PL-401, Department of Transportation, 400 7th St., SW., Washington, DC 20590-0001. You may also send comments electronically via the Internet at <http://dmses.dot.gov/submit/>. All comments will become part of this docket and will be available for inspection and copying at the above address between 10 a.m. and 5 p.m., E.T., Monday through Friday, except federal holidays. An electronic version of this document and all documents entered into this docket

is available on the World Wide Web at <http://dms.dot.gov>.**FOR FURTHER INFORMATION CONTACT:** Michael Hokana, U.S. Department of Transportation, Maritime Administration, MAR-830 Room 7201, 400 Seventh Street, SW., Washington, DC 20590. Telephone 202-366-0760.**SUPPLEMENTARY INFORMATION:** As described by the applicant the intended service of the vessel JUSTICE is:*Intended Use:* "Passenger Charters."*Geographic Region:* "Chesapeake Bay to Florida Coasts and Bahamas."

Dated: October 15, 2003.

By order of the Maritime Administrator.

Joel C. Richard,*Secretary, Maritime Administration.*

BILLING CODE 4910-81-P**DEPARTMENT OF TRANSPORTATION****National Highway Traffic Safety Administration****[Docket No. NHTSA 2002-13355; Notice 2]****Bridgestone/Firestone, Decision That Application for Determination That Noncompliance Is Inconsequential to Motor Vehicle Safety Is Moot**

Bridgestone/Firestone has advised the National Highway Traffic Safety Administration (NHTSA) that it determined that approximately 4,700 P235/75R15 Dayton Timberline A/T tires do not meet the labeling requirements mandated by Federal Motor Vehicle Safety Standard (FMVSS) No. 109, "New Pneumatic Tires." Pursuant to 49 U.S.C. 30118(d) and 30120(h), Bridgestone/Firestone has petitioned for a determination that this noncompliance is inconsequential to motor vehicle safety.

Notice of receipt of the application was published, with a 30-day comment period, on October 7, 2002, in the **Federal Register** (67 FR 62522). NHTSA received no comment on this application.

FMVSS No. 109, S4.3(b) and S4.3(c), require that each tire shall have permanently molded the maximum permissible inflation pressure and the maximum load rating of the tire, respectively. The Sao Paulo, Brazil plant produced noncompliant tires during weeks 40 through and including week 49 of the year 2001. The subject tires were mislabeled as "Extra Load." The actual markings on the subject tires are: Max load 920 Kg (2028 lbs.) at 300 kPa (44 psi) max press, Extra Load

The correct markings should be:

Max load 920 Kg (2028 lbs.) at 300 kPa (44 psi) max press.

Bridgestone/Firestone believes that the noncompliance is inconsequential as it relates to motor vehicle safety for the following stated reasons: "First, the subject tires with the exception of the "Extra Load" marking meet all the requirements of 49 CFR Part (sic) 109. Second, the subject tires were tested by Bridgestone/Firestone and meet the requirements of high speed, endurance, strength, and bead unseat as defined in 49 CFR Part (sic) 109 for the "Extra Load" designation. Third, the subject tires as shipped from the manufacturing plant were identified by tire labels and article number as standard load. Thus, the potential for sale of these tires as "Extra Load" is very small."

This mislabeling does not constitute a noncompliance with FMVSS No. 109. The standard has no requirement that a tire be labeled with the words "extra load" even when it is designed to accommodate a greater load than a standard tire of the same size. The correct maximum load rating and the correct maximum inflation pressure are properly molded on the tires. These two values, along with other tire information such as tire size, are used by consumers in selecting replacement tires.

In consideration of the foregoing, NHTSA has decided that the tires in question do not exhibit a noncompliance with an FMVSS. Therefore, Bridgestone/Firestone's petition for an inconsequentiality exemption is moot.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.50 and 501.8)

Issued on: October 14, 2003.
