DEPARTMENT OF JUSTICE

Notice of Lodging of Consent Decree Under the Clean Air Act

Notice is hereby given that on April 9, 2003, a proposed Consent Decree in *United States v. CF&I Steel, L.P., d/b/a Rocky Mountain Steel Mills*, an action for injunctive relief and civil penalties pursuant to the Clean Air Act, 42 U.S.C. 7401 *et seq.*, was lodged with the United States District Court for the District of Colorado, Case No. 03-M-0608.

In this action, the United States sought injunctive relief and civil penalties against Rocky Mountain Steel Mills for alleged violations of the Prevention of Significant Deterioration ("PSD") requirements and New Source Performance Standards set forth in the Clean Air Act. The alleged violations occurred when Rocky Mountain Steel Mills undertook a series of modifications at its steelmaking facility located in Pueblo, Colorado. In the proposed Consent Decree, Rocky Mountain Steel Mills agrees to conduct a modernization project at its facility, which will involve the shutdown of its two existing electric arc furnaces and replacement with a new, modernized furnace. The Consent Decree requires that Rocky Mountain Steel Mills meet the New Source Performance Standards set forth at 40 CFR part 60, subpart Aaa, and install the Best Available Control Technologies to minimize emissions from the new furnace. The precise emissions limitations that Rocky Mountain Steel Mills will have to meet

will be set forth in a PSD permit to be issued by the State of Colorado and approved by EPA. The estimated costs of these renovations is \$25 million. The proposed consent Decree also requires that Rocky Mountain Steel Mills pay a civil penalty of \$450,000 and perform several Supplemental Environmental Projects ("SEPs") and undertake additional relief valued at over \$750,000. The SEPs and additional relief will result in reductions of emissions from the facility beyond those required by law and address some of the impacts on the surrounding community that resulted from Rocky Mountain Steel Mills' violations of the Act.

The Department of Justice will receive for a period of 30 days from the date of this publication comments relating to the Consent Decree. Comments should be addressed to the Assistant Attorney General, Environment and Natural Resources Division, PO Box 7611, U.S. Department of Justice, Washington, DC 20044-7611, and should refer to *United States v. CF&I Steel, L.P. d/b/a/ Rocky Mountain Steel Mills*, D.J. Ref. DJ# 90-5-2-1-07496.

The Consent Decree may be examined at U.S. EPA Region 8, 999 18th Street, Suite 500, Denver, Colorado, 80202. During the public comment period, the Settlement Agreement, may also be examined on the following Department of Justice Web site, <http://www.usdoj.gov/enrd/open.html>. A copy of the Settlement Agreement may also be obtained by mail from the Consent Decree Library, PO Box 7611, U.S. Department of Justice, Washington, DC 20044-7611 or by faxing or e-mailing a request to Tonia Fleetwood (tonia.fleetwood@usdoj.gov), fax no. (202) 514-0097, phone confirmation number (202) 514-1547. In requesting a copy from the Consent Decree Library, please enclose a check in the amount of \$4.80 for the Consent Decree only and \$25.40 for the Consent Decree plus Appendices.

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance and NAFTA Transitional Adjustment Assistance

In accordance with section 223 of the Trade Act of 1974, as amended, the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) issued during the period of April 2003.

In order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance to be issued, each of the group eligibility requirements of section 222 of the Act must be met.

(1) That a significant number or proportion of the workers in the workers' firm, or an appropriate subdivision thereof, have become totally or partially separated, or are threatened to become totally or partially separated; and

(2) That sales or production, or both, of the firm or sub-division have decreased absolutely, and

(3) That increases of imports of articles like or directly competitive with articles produced by the firm or appropriate subdivision have contributed importantly to the separations, or threat thereof, and to the absolute decline in sales or production of such firm or subdivision.

Negative Determinations for Worker Adjustment Assistance

In each of the following cases the investigation revealed that criterion (3) has not been met. A survey of customers indicated that increased imports did not contribute importantly to worker separations at the firm.
