

that section 6103(k)(6) does not limit IRS or TIGTA officers and employees with respect to the initiation or conduct of an investigation. Finally, the proposed regulations clarify that section 6103 does not require IRS and TIGTA officers or employees to contact a taxpayer for information before contacting third party witnesses.

The text of the temporary regulations also serves as the text of these proposed regulations. The preamble to the temporary regulations contains a full explanation of the reasons underlying the issuance of the proposed regulations.

Special Analyses

It has been determined that this notice of proposed rulemaking is not a significant regulatory action as defined in Executive Order 12866. Therefore, a regulatory assessment is not required. It has also been determined that 5 U.S.C. 553(b), the Administrative Procedure Act does not apply to these regulations, and because the regulation does not impose a collection of information on small entities, the Regulatory Flexibility Act (5 U.S.C. chapter 6) does not apply. Pursuant to section 7805(f), this notice of proposed rulemaking will be submitted to the Chief Counsel for Advocacy of the Small Business Administration for comment on its impact on small business.

Comments and Requests for a Public Hearing

Before these proposed regulations are adopted as final regulations, consideration will be given to any electronic and written comments (a signed original and eight (8) copies) that are submitted timely to the IRS. The IRS and Treasury Department request comments on the clarity of the proposed rules and how they can be made easier to understand. All comments will be available for public inspection and copying. A public hearing may be scheduled if requested in writing by a person that timely submits written comments. If a public hearing is scheduled, notice of the date, time, and place for the hearing will be published in the **Federal Register**.

Oil and Gas and Sulphur Operations in the Outer Continental Shelf— Procedures for Dealing With Sustained Casing Pressure

AGENCY: Minerals Management Service (MMS), Interior.

ACTION: Delay of final rulemaking.

SUMMARY: The Minerals Management Service (MMS) published a Notice of Proposed Rulemaking (NPR) in the **Federal Register** titled “Procedures for Dealing With Sustained Casing Pressure” on November 9, 2001. Based on comments received, the MMS is delaying development of a final rule until after publication of a “Recommended Practice” document now being developed by the American Petroleum Institute (API). The document will provide procedures for dealing safely with sustained casing pressure in wells. MMS believes that incorporation of this “Recommended Practice” document into MMS regulations will help ensure environmentally and operationally safe operations on the Outer Continental Shelf (OCS).
