

comments (*i.e.*, a substantiation). EPA then considers the business's comments in determining whether the previously submitted information should be protected as CBI. This renewal ICR relates to the collection of information that will assist EPA in determining whether previously submitted information is entitled to confidential treatment.

EPA is proposing to use an updated Request for Substantiation letter ("proposed letter"). The proposed letter is made up of two separate sample letters that address different factual situations: Sample Letter A, which requests a substantiation in response to a FOIA request, and Sample Letter B, which requests a substantiation in support of Agency rulemaking or litigation, in the case of an advance confidentiality determination, or for any other Agency purpose. The use of two letters is a clarification of existing EPA procedures. Some of the information requested differs slightly from the current Request for Substantiation letter, concerning the possible voluntary nature of the submission and the issue of substantial competitive harm, and takes into account the vast amount of information now available electronically. Nevertheless, EPA estimates that the overall burden to respond to inquiries contained in the proposed letter is the same as the burden to respond to inquiries contained in the current Request for Substantiation letter.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average approximately 5 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

The total annual hour and cost burden for all substantiations is as follows:

Respondents/Affected Entities: Business and other for profit organizations.

Estimated Number of Respondents: 1101.

Frequency of Response: On occasion.
Estimated Total Annual Hour Burden: 6,521 hours.

Estimated Total Annual Capital and Operations and Maintenance Cost: \$0.

Changes in the Estimates: These estimates show an increase of approximately 89 hours and \$27,973 in the total estimated burden from the figures currently identified in the OMB Inventory of Approved ICR Burdens. The increase in the burden hour estimate results from an adjustment to incorporate 0.20 hours per substantiation request for an attorney to review the request. The increase in cost burden results from this small increase in the hour estimate and from updated hourly wages for private industry and Agency employees.

Dated: August 12, 2003.

Andrew Battin,

Director, Collection Services Division.

Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; Information Requirements for Importation of Nonconforming Vehicles, EPA ICR Number 0010.10, OMB Control Number 2060-0095

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. This ICR is scheduled to expire on August 31, 2003. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. This ICR describes the nature of the information collection and its estimated burden and cost.

DATES: Additional comments may be submitted on or before October 6, 2003.

ADDRESSES: Submit your comments, referencing docket ID number OAR-2003-0181, to (1) EPA online using EDOCKET (our preferred method), by e-mail to a-and-r-Docket@epa.gov, or by

mail to: EPA Docket Center, Environmental Protection Agency, Air and Radiation Docket and Information Center, Mail Code 6102T, 1200 Pennsylvania Ave., NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and Budget (OMB), Attention: Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

FOR FURTHER INFORMATION CONTACT: Mrs. Chestine Payton, Certification and Compliance Division, Outreach and Planning Group, Mail Code 6405J, Environmental Protection Agency, 1200 Pennsylvania Ave., NW., Washington, DC 20460; telephone number: (202) 564-9328; fax number: (202) 565-2057; e-mail address: payton.chestine@epa.gov.

SUPPLEMENTARY INFORMATION: EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On May 8, 2003 (68 FR 24736), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments.

EPA has established a public docket for this ICR under Docket ID No. OAR-2003-0181, which is available for public viewing at the Air and Radiation Docket and Information Center in the EPA Docket Center (EPA/DC), EPA West, Room B102, 1301 Constitution Ave., NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Air and Radiation Docket and Information Center is (202) 566-1742. An electronic version of the public docket is available through EPA Dockets (EDOCKET) at <http://www.epa.gov/edocket>. Use EDOCKET to submit or view public comments, access the index listing of the contents of the public docket, and to access those documents in the public docket that are available electronically. Once in the system, select "search," then key in the docket ID number identified above.

Any comments related to this ICR should be submitted to EPA and OMB within 30 days of this notice. EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing in EDOCKET as EPA receives them and without change, unless the comment contains copyrighted material, CBI, or other information whose public disclosure is restricted by statute. When EPA identifies a comment containing

copyrighted material, EPA will provide a reference to that material in the version of the comment that is placed in EDOCKET. The entire printed comment, including the copyrighted material, will be available in the public docket. Although identified as an item in the official docket, information claimed as CBI, or whose disclosure is otherwise restricted by statute, is not included in the official public docket, and will not be available for public viewing in EDOCKET. For further information about the electronic docket, see EPA's Federal Register notice describing the electronic docket at 67 FR 38102 (May 31, 2002), or go to www.epa.gov/edocket.

Title: Information Requirements for Importation of Nonconforming Vehicles.

Abstract: Individuals and businesses importing motor vehicles and motor vehicle engines, and nonroad compression ignition engines greater than 50 horsepower (large CI nonroad engines), which are predominantly used in construction equipment and farm tractors, report and keep records of vehicle importations, or request final admission for vehicles conditionally imported into the U.S. The collection of this information is mandatory in order to ensure compliance of nonconforming vehicles with Federal emissions requirements. Joint EPA and Customs regulations at 40 CFR 85.1501 *et seq.*, 89.601 *et seq.*, 90.601 *et seq.*, and 19 CFR 12.73 and 12.74 promulgated under the authority of Clean Air Act sections 203 and 208 give authority for the collection of information. This authority was extended to nonroad engines under section 213(d). The information is used by program personnel to ensure that all Federal emission requirements concerning imported nonconforming motor vehicles and nonroad engines are met. Any information submitted to the Agency for which a claim of confidentiality is made is safeguarded according to policies set forth in Title 40, Chapter 1, Part 2, Subpart B—Confidentiality of Business Information (see CFR 2), and the public is not permitted access to information containing personal or organizational identifiers.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in 40 CFR are listed in 40 CFR part 9 and are identified on the form and/or instrument, if applicable.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is

estimated to average 0.7 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Individuals and businesses importing motor vehicles and motor vehicle engines.

Estimated Number of Respondents: 13,000.

Frequency of Response: Other—upon importation.

Estimated Total Annual Hour Burden: 15,800.

Estimated Total Annual Cost: \$1,664,000, which includes \$0 annualized capital and \$1,266,000 O&M costs.

Changes in the Estimates: There is an increase of 1,400 hours in the total estimated burden currently identified in the OMB Inventory of Approved ICR Burdens. This increase is due to an increase in the number of engines tested and the associated cost.

Dated: August 22, 2003.

Doreen Sterling,

Acting Director, Collection Strategies Division.
