

The use of the term "minimum" refers to the fact that an individual grantee must continue to report on expenditures by year of appropriation until those funds are completely expended. Thus, if more than one year's appropriation is expended in a given quarter, two FSRs (or more) must be submitted for that period.

Costs may vary widely among grantees, from nearly no additional cost to some higher figure, depending on the state of automation attained by each grantee and the wages paid to the staff actually completing the various forms. All costs associated with the submission of these forms are allowable grant expenses.
