[Docket No. PR03-9-00]

Louisiana Intrastate Gas Company, L.L.C.; Notice for Petition for Rate Approval

March 19, 2003.

Take notice that on March 3, 2003, Louisiana Intrastate Gas Company, L.L.C. (LIG) filed pursuant to section 284.123(b)(2) of the Commission's regulations, a petition for rate approval requesting that the Commission approve the proposed rates as fair and equitable for transportation services performed under section 311 of the Natural Gas Policy Act of 1978 (NGPA).

LIG requests that the Commission determine that its current maximum rates of \$.1880 per MMBtu for interruptible transportation, a \$.0000 per MMBtu commodity charge, a \$.57188 per MMBtu monthly demand charge, and a maximum overrun charge of \$.1880 per MMBtu remain fair and equitable at this time. LIG also requests continuation of the maximum fuel retention percentage of 2%.

Pursuant to section 284.123(b)(2)(ii), if the Commission does not act within 150 days of the date of this filing, the rates will be deemed to be fair and equitable and not in excess of an amount which interstate pipelines would be permitted to charge for similar transportation service. The Commission may, prior to the expiration of the 150 day period, extend the time for action or institute a proceeding to afford parties an opportunity for written comments and for the oral presentation of views, data, and arguments.

Any person desiring to participate in this rate proceeding must file a motion to intervene or protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington DC 20426, in accordance with sections 385.214 or 385.211 of the Commission's Rules and Regulations. All such motions or protests must be filed with the Secretary of the Commission on or before the comment date. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings.

Any person wishing to become a party must file a motion to intervene. This petition for rate approval is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits I the docket number field to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Comment Date: April 3, 2003.

Magalie R. Salas,

Secretary.

[Docket No. CP03-31-000]

Paiute Pipeline Company; Notice of Site Visit

March 19, 2003.

On March 26, 2003, the staff of the Office of Energy Projects will participate in a site visit to the area proposed for construction of natural gas pipeline facilities by Paiute Pipeline Company for its Carson Lateral Replacement Project, in Lyon, Douglas, Carson City, and Washoe Counties, Nevada.

The site visit will begin at 8 am from the Carson City Field Office of the U.S. Bureau of Land Management, 5665 Morgan Hill Road, Carson City, Nevada. All interested parties may attend the site visit. Those planning to attend must provide their own transportation. Anyone interested in additional information on the site visit may contact the Commission's Office of External Affairs at 1-866-208-FERC.

Federal Energy Regulatory Commission

[Docket Nos. RP03-271-002 and RP03-273-002]

Transcontinental Gas Pipe Line Corporation; Notice of Tariff Filing

March 19, 2003.

Take notice that on March 13, 2003 Transcontinental Gas Pipe Line Corporation (Transco) tendered for filing as part of its FERC Gas Tariff, Third Revised Volume No. 1, Fifth Revised Sheet No. 61 and First Revised Sheet No. 61A, effective April 1, 2003.

Transco states that the purpose of Transco's filing is to supplement Transco's Electric Power Tracker filing of February 28, 2003, Transco's Supplemental Electric Power Tracker filing of March 7, 2003, Transco's Fuel Tracker filing of February 28, 2003, and Transco's Supplemental Fuel Tracker filing of March 7, 2003. Transco states that it inadvertently failed to include in these filings the updated tariff sheets that reflect the trading fees and trading fuel retention percentages that are assessed when shippers and OBA parties trade imbalances across zones pursuant to Section 25 of the General Terms and Conditions of Transco's FERC Gas Tariff.

Transco states that it is serving copies of the instant filing to its affected customers, interested State Commissions and other interested parties.

Any person desiring to protest said filing should file a protest with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, in accordance with section 385.211 of the Commission's Rules and Regulations. All such protests must be filed in accordance with section 154.210 of the Commission's Regulations. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or TTY, contact (202) 502-8659. The Commission strongly encourages electronic filings. See 18 CFR 385.2001(a)(1)(iii) and the

instructions on the Commission's Web site under the "e-Filing" link.

BILLING CODE 6717-01-P

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP02-37-003]

Williston Basin Interstate Pipeline Company; Notice of Amendment

March 19, 2003.

Take notice that on March 17, 2003, Williston Basin Interstate Pipeline Company (Williston Basin), P.O. Box 5601, Bismarck, North Dakota 58506-5601, filed an amendment to its pending applications filed on November 30, 2001 as amended on September 27, 2002, in Docket Nos. CP02-37-000 and CP02-37-002, respectively, pursuant to Section 7(c) of the Natural Gas Act (NGA), to reflect certain modifications to the Grasslands Project, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection. This filing is available for review at the Commission or may be viewed on the Commission's Web site at <http://www.ferc.gov> using the "FERRIS" link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, please contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at (866) 208-3676, or for TTY, contact (202) 502-8659.

Specifically, Williston Basin states that a change in market conditions has resulted in shippers contracting for all 80,000 dekatherms per day of capacity on the Grasslands Project starting in Year 1. As a result, Williston Basin proposes to construct Phases I, II and III of the project, concurrently and have the total project in service on November 1, 2003. Williston Basin states that since shippers will be able to use the full capacity of 80,000 dekatherms per day upon the in-service date of November 1, 2003, it is no longer necessary to defer depreciation expense and withdraws its request to create a regulatory asset.

Any questions regarding the amendment should be directed to Keith A. Tiggelaar, Director of Regulatory Affairs, Williston Basin Interstate Pipeline Company, P.O. Box 5601, Bismarck, North Dakota 58506-5601, at

(701) 530-1560, or E-mail:

keith.tiggelaar@wbip.com.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made in the proceeding, with the Commission and must mail a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

The Commission may issue a preliminary determination on non-environmental issues prior to the completion of its review of the environmental aspects of the project. This preliminary determination typically considers such issues as the need for the project and its economic effect on existing customers of the applicant, on other pipelines in the area, and on landowners and communities. For example, the Commission considers the extent to which the applicant may need to exercise eminent domain to obtain rights-of-way for the proposed project and balances that against the non-environmental benefits to be provided by the project. Therefore, if a person has comments on community and landowner impacts from this proposal, it is important either to file comments or to intervene as early in the process as possible.

Protests and interventions may be filed electronically via the Internet in lieu of paper; see 18 CFR 385.2001(a)(1)(iii) and the instructions on the Commission's Web site under the "e-Filing" link. The Commission strongly encourages electronic filings.

If the Commission decides to set the amendment for a formal hearing before an Administrative Law Judge, the Commission will issue another notice describing that process. At the end of the Commission's review process, a final Commission order approving or denying a certificate will be issued.

All persons who have heretofore filed need not file again.

Comment Date: March 31, 2003.
