

member's trade, SCCP will continue to be entitled to reverse the trade from the member's account. SCCP would continue to settle the Omnibus Clearance and Settlement Account with NSCC each business day in accordance with NSCC's Rules and Procedures. Accordingly, SCCP would continue to be subject to NSCC's Rules.

Through the Omnibus Clearance and Settlement Account, SCCP will continue to have one composite settlement per day with NSCC. SCCP will maintain line of credit ("LOC") arrangements with one or more commercial banks sufficient to support anticipated funding needs of the underlying margin accounts.

To ensure that margin members have an efficient way to obtain securities depository services after the closure of Philadep's depository service, SCCP opened a NSCC-sponsored depository account at DTC. In the event that margin members effect trades in securities not eligible for custodial services in DTC's book-entry system, SCCP would continue to utilize the Direct Clearing Service to settle these transactions. SCCP would continue to perform bookkeeping and reconciliation services for the Omnibus Clearance and Settlement Account and its related DTC custody account pursuant to SCCP Procedures.

Clearly SCCP, as a NSCC clearing member and NSCC sponsored participant of DTC, will continue to be required to provide NSCC with clearing fund contributions.

SCCP will continue to apply a fixed \$35,000 contribution for the specialist margin account and non-specialist margin account categories and a contribution of \$10,000 to \$75,000 for RIO accounts, depending upon monthly trading activity. Participants engaging in more than one account type activity will continue to be subject only to the formula that would generate the highest contribution.

SCCP believes permanent approval of SCCP's restructured and limited clearance and settlement services is consistent with the requirements of the Act and the rules and regulations thereunder and in particular with Section 17A(b)(3)(F) which requires that a clearing agency be organized and its rules be designed, among other things, to promote the prompt and accurate clearance and settlement of securities transactions, to safeguard funds and securities in its possession and control, and to remove impediments to perfect the mechanism of a national system for the prompt and accurate clearance and settlement of securities transactions. SCCP believes that permanent approval

of SCCP's restructured business should promote the prompt and accurate clearance and settlement of securities transactions by integrating and consolidating clearing services available to the industry; further, it should assure the safeguarding of securities and funds in the custody or control of SCCP or for which SCCP is responsible.

(B) Self-Regulatory Organization's Statement on Burden on Competition

4. *Benefits Planning, Assistance, and Outreach (BPAO) Program—0960-0629.*

Background

SSA awarded cooperative agreements to establish community-based benefits

planning, assistance, and outreach projects in every State and U.S. Territory, as authorized under section 1149 of the Social Security Act. Potential awardees were State and local governments, public and private organizations, and nonprofit and for-profit organizations. SSA intended to establish as many projects as needed to ensure State-wide coverage for all Social Security Disability Insurance (SSDI) and Supplemental Security Income (SSI) beneficiaries nationally. The projects funded under this cooperative agreement program are part of SSA's strategy to increase the number of beneficiaries who return to work and achieve self-sufficiency as the result of delivering direct services to them. The overall goal of the program is to disseminate accurate information concerning work incentives programs and issues related to youth programs, to beneficiaries with disabilities (including transition-to-work aged youth), in order to enable them to make informed choices about work.

Collection Activities

The BPAO project collects identifying information from the project sites and benefits specialists. In addition, data are collected from the beneficiaries on background, employment, training, benefits, and work incentives. We use the information to manage the program, with particular emphasis on contract administration, budgeting, and training. In addition, SSA uses the information to evaluate the efficacy of the program and to ensure that those dollars appropriated for BPAO services are being spent on SSA beneficiaries. The project data will be valuable to SSA in its analysis of and future planning for the SSDI and SSI programs.

The regulations also specify that claimants can request that the AR be applied to a prior determination or decision by submitting a statement that demonstrates how the AR could change the prior determination or decision. SSA will use the information provided in the statement to readjudicate the claim if the claimant demonstrates the Ruling could change the prior determination. Claimants may use Form SSA-795, Statement of Claimant or Other Person (0960-0045) or submit a written request, to request and support application of a published AR to the prior determination or decision. 5. *Integrated Registration for Employers and Submitters (IRES)—*

0960-0626. The IRES authentication system is a free service designed to allow employers to access SSA's electronic wage reporting services, and to replace the use of a handwritten signature with an electronic signature. Employer representatives use an IRES-generated personal identification number (PIN) and password as their electronic signature. IRES is designed to be more efficient, reducing the costs to both employers and SSA, and will facilitate the filing of wage data electronically. SSA's paramount interest in the development of IRES was to ensure that the new electronic method of identifying wage report submitters provides the name security features as the current paper-based method. Security features include message integrity, originator authentication, non-repudiation and confidentiality. The PIN and password will be issued to an individual designated by the employer after SSA authenticates the company and contact information provided by the individual. SSA uses the IRES in conjunction with SSA's wage reporting processes. It is used as the gateway for electronic wage reporting and the online employee verification service. IRES will also be used when SSA implements additional electronic services such as electronic notices and error information, and to authenticate representatives of organizational representative payees in a limited Proof of Concept study. Also, the PIN will be used in the Annual Wage Reporting diskette process to replace IRS paper form 6559. SSA has received approval from IRS to use an alternative signature. Respondents to IRES will be Employers and Submitters who utilize SSA's electronic wage reporting and online employee verification services.

Type of Request: Extension of an OMB-approved Information Collection.

Number of Respondents: 250,120.

Number of Responses: 1.

Average Burden Per Response: 2 minutes.

Estimated Annual Burden: 8,337 hours.

6. *Request for Internet Services—Password—0960-0632.* SSA uses a PIN/password process for verifying the identity of individuals who choose to use the Internet and Automated Telephone Response in order to conduct business with the agency. An individual will be requested to provide certain information about himself or herself that SSA can verify in its records in order to obtain a password for use with its electronic services. The information that SSA collects varies depending on individual circumstances. Some examples of the information collected

are: name, social security number, password request code, benefit payment amount, and other shared secret types of information from SSA records. Once the requestor's identity is verified, SSA issues a PIN to the requestor which will allow them to establish a password for use with SSA Internet/telephone transactions. Until now, the services offered have been primarily to beneficiaries receiving benefits under title II of the Social Security Act, including Retirement, Survivors and Disability benefits. SSA now offers the opportunity for certain beneficiaries receiving benefits under title XVI of the Social Security Act, known as SSI, to report their wages electronically. SSA has initiated a 6-month Proof of Concept project to test the beneficiary acceptance of this technology for reporting wages. Participation in this Proof of Concept is voluntary. Individuals who must report wages include SSI beneficiaries, and, in some cases, the parent or spouse of the SSI beneficiary. In order to use SSA's electronic services, SSA must authenticate the person using its PIN/password process to protect the information in its records from those not authorized to receive it. This technology is expected to be more secure, less burdensome, faster and provide better customer service than other available options. The respondents are individuals who elect to conduct business with the agency in an electronic medium.

Type of Request: Extension of an OMB-approved Information Collection.

Number of Respondents: 412,267.

Frequency of Response: 1.

Average Burden Per Response: 10 minutes.

Estimated Annual Burden: 68,711 hours.

7. *Student Reporting Form—20 CFR 404 Subpart B, and 20 CFR 422 Subparts D & E—0960-0088.* Form SSA-1383 is used by Social Security student beneficiaries to report events or changes that may affect continuing entitlement to these benefits. We are revising this form in order to solicit information about incarceration in compliance with current law. The respondents are Social Security student beneficiaries.

Type of Request: Revision of an OMB-approved Information Collection.

Number of Respondents: 75,000.

Frequency of Response: 1.

Average Burden Per Response: 6 minutes.

Estimated Annual Burden: 7,500 hours.

8. *Waiver of Right to Appear; 20 CFR 404.913-914, 20 CFR 404.916(b)(5); 20 CFR 416.1413-.1414 and 416(b)(5)—*

0960-0534. SSA uses Form SSA-773-U4 to provide claimants with an effective means of requesting a waiver of their right to appear at a disability hearing. The information collected will be used as documentation that claimants understand their rights to appear and the effects of the decision to waive this right. The respondents are claimants under Title II (Old-Age, Survivors and Disability Insurance) and Title XVI (SSI) of the Social Security Act, who wish to waive their right to a disability hearing.

Type of Request: Extension of an OMB-approved Information Collection.

Number of Respondents: 200.

Frequency of Response: 1.

Average Burden Per Response: 3 minutes.

Annual Burden: 10 hours.

III. *Action: Notice of OMB Approval.*

As required by the Paperwork Reduction Act of 1995 (44 U.S.C. 3507), SSA is providing notice of OMB's approval of the information collections in 20 CFR parts 404 subpart P & 416 subpart I. In accordance with the Paperwork Reduction Act, persons are not required to respond to an information collection unless it displays a valid Office of Management and Budget control number. The OMB Number is 0960-0654, which expires October 31, 2006.

Dated: October 23, 2003.
