

found in concentrations above ROD cleanup goals.

A Second Five-Year Review was conducted in August of 2001. The review concluded that the Site was not currently a threat to human health and the environment, but that additional data was needed to determine if the Site posed a future risk. The Review concluded that all items of concern would be resolved before delisting could occur.

EPA, with support from the Tribal Environmental Protection Agency (TEPA), conducted a comprehensive unbiased sampling event on May 28, 2003. EPA sampled the hillside, drainage ditch adjacent to the hillside, and gully that connects the Site to the Trinity River. A total of 38 soil samples were taken and 4 surface water samples were taken. The laboratory results from the sampling indicated that all sampled constituents are below the levels established in the ROD.

These results have been reviewed by the Region IX EPA toxicologist who concurs that the Site has met soil action levels established in the ROD, and that the Site does not pose an unacceptable risk to human health or the environment from the COCs based upon EPA's current guidance.

EPA has determined that all appropriate response actions for the COCs have been implemented, and the Site is available for unrestricted use. Therefore, no more Five-Year Reviews need to be conducted at the Site.

Community Involvement

During the week of August 4, 2003, a fact sheet was mailed out to tribal members notifying them of EPA's intent to delete the site from the NPL. In addition to the fact sheet, an announcement for a community meeting was published in a local paper on August 5, 2003. The community meeting is scheduled for August 13, 2003. Members of the community will be invited to ask questions and make formal comments. The Deletion Docket which contains the documents EPA relied on for its recommendation to delete the Site from the NPL is available to the public in the information repositories.

Applicable Deletion Criteria/State Concurrence/Tribal Concurrence

All the completion requirements for this Site have been met as described in the FCOR dated September 28, 1989. The NPL provides that a site is eligible for deletion where "all appropriate Fund-financed (Hazardous Substance Superfund Response Trust Fund) response under CERCLA has been

implemented, and no further response action by responsible parties is appropriate," and where "responsible parties or other parties have implemented all appropriate response actions required."

EPA, with the concurrence of the Hoopa Valley Indian Tribe through the Tribal EPA on November 26, 2003 and the State of California through its Department of Toxic Substances Control on July 25, 2003, and finds that these criteria for deletion of the Site have been met. Consequently, EPA is proposing deletion of the Celtor Chemical Works Superfund Site from the NPL.

Dated: August 7, 2003.

Deborah Jordan,

Acting Regional Administrator, Region IX.

[**IB Docket No. 02-364; DA 03-2229**]

Review of the Spectrum Sharing Plan Among Non-Geostationary Satellite Orbit Mobile Satellite Service Systems in the 1.6/2.4 GHz Bands

AGENCY: Federal Communications Commission.

ACTION: Proposed rule; denial of extension of comment period.

SUMMARY: On February 5, 2003, the Federal Communications Commission released an order and notice of proposed rulemaking seeking comment on the possibility of revising the spectrum sharing plan among non-geostationary satellite orbit mobile satellite service systems operating in the 1.6/2.4 GHz bands. In this action, the Federal Communications Commission denies a request to extend the deadline by two months for filing comments in this rulemaking proceeding. Nevertheless, because of the operation of § 1.46 of the Federal Communications Commission's rules, which automatically extends the time for filing comments until two business days after the Commission denies a timely-filed motion for extension of time, the Commission adjusts the comment date and reply comment date to provide clarity to the parties and to provide a full two weeks between the time for filing comments and the time for filing reply comments.

DATES: Comments were due on or before July 11, 2003. Reply Comments were due on or before July 25, 2003.

ADDRESSES: Federal Communications Commission, Office of the Secretary, 445 12th Street, SW., Washington, DC 20554. See **SUPPLEMENTARY INFORMATION** for filing instructions.

FOR FURTHER INFORMATION CONTACT: James Ball, Chief, or Breck Blalock, Deputy Chief, Policy Division, International Bureau, (202) 418-1460.

SUPPLEMENTARY INFORMATION:

1. On February 5, 2003, the Federal Communications Commission released an order and notice of proposed rulemaking (Notice) among other things seeking comment on the possibility of revising the spectrum sharing plan among non-geostationary satellite orbit mobile satellite service systems operating in the 1.6/2.4 GHz bands. (See 68 FR 33666, June 5, 2003). On June 30, 2003, Globalstar L.P. (GLP or Globalstar) filed a request for extension of time (GLP Request) requesting the Commission to extend the comment and reply comment filing deadlines in this proceeding for two months to September 8, 2003, and September 29, 2003, respectively. ICO Global Communications (Holdings) Limited (ICO) and The Official Creditors' Committee of Globalstar, L.P. (the Creditors) each filed documents in support of GLP's request. Iridium Satellite LLC (Iridium) filed in opposition to GLP's request.

2. GLP asserts that two events have occurred since release of the Notice in this proceeding that warrant grant of an extension of time. First, GLP states that it has filed an emergency application for review and request for stay of an International Bureau order canceling GLP's 2 GHz MSS license. According to GLP, a Commission decision regarding whether to revise the Big LEO band plan and to assign more or less spectrum to Globalstar and Iridium or to reallocate some Big LEO spectrum to another service must necessarily be affected by the amount of second generation spectrum, if any, that is available to GLP in the 2 GHz MSS band. Second, GLP states that the U.S. Bankruptcy Court for the District of Delaware has approved an investment transaction pursuant to which GLP's assets will be transferred to a company controlled by ICO. According to GLP, ICO's interests as the proposed new owner of the Globalstar system cannot be taken into account in this proceeding until the applications for the assignment of the Globalstar assets have been approved by the Commission.

3. We find that the public interest does not weigh in favor of a grant here. Rather, we find that extending the comment deadline would contravene the Commission's express intention to proceed expeditiously in this rulemaking proceeding. First, we do not agree that a Commission decision regarding whether to revise the Big LEO band plan must necessarily be affected by the amount of second generation spectrum available to GLP in the 2 GHz MSS band. We expect any decision the Commission may make regarding whether to revise the Big LEO band plan will be made based on the operations and use of systems in the Big LEO band. We do not believe that resolution of 2 GHz MSS licensing matters will have any bearing on whether or how the Commission may decide to alter the Big LEO band plan. In any event, it is not necessary for the Commission to reach a decision on GLP's appeal for parties to provide comments in this proceeding concerning how favorable or unfavorable Commission action with respect to GLP's appeal might affect GLP's spectrum needs in the Big LEO band.

4. Second, we do not agree that a Commission decision regarding the proposed ICO/GLP transaction is necessary for parties to comment meaningfully in this proceeding. Whether or not the Commission ultimately approves the transaction has no bearing on current operations, use, or capacity of the Globalstar Big LEO MSS system. Moreover, nothing prohibits ICO, as proposed new owners of the Globalstar Big LEO MSS system, from filing comments in this proceeding. We are not convinced that ICO requires resolution of its pending transfer and assignment applications to understand its interests and comment meaningfully in this proceeding.

5. Nevertheless, because of the operation of § 1.46 of the Commissions rules, which automatically extends the time for filing comments until two business days after the Commission denies a timely-filed motion for extension of time, we adjusted the comment date to July 11, 2003. Also, to provide parties a full two weeks to respond to comments filed in this proceeding, we adjusted the reply comment date to July 25, 2003.

6. Accordingly, pursuant to § 1.46 of the Commission's rules, 47 CFR 1.46, the new comment due date was July 11, 2003 and the new reply comment due date was July 25, 2003. Instructions for filing pleadings in this proceeding are set forth in the NPRM, available on the Commission's Web site at <http://www.fcc.gov>. All comments and reply

comments will be available for public inspection during regular business hours in the FCC Reference Information Center, Room CY-A257, 445 Twelfth Street SW., Washington, DC 20554.

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Part 73

[DA 03-2571, MB Docket No. 03-182, RM-10757]

Radio Broadcasting Services; Cambria, California

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: This document requests comments on a Petition for Rule Making filed by Daniel R. Feely proposing the allotment of Channel 287A at Cambria, California, as the community's third local aural transmission service. Channel 287A can be allotted to Cambria at city reference coordinates. The reference coordinates for Channel 287A at Cambria, California are 35-33-14 NL and 121-05-15 WL.

DATES: Comments must be filed on or before September 22, 2003, and reply comments on or before October 7, 2003.

ADDRESSES: Federal Communications Commission, 445 Twelfth Street SW., Washington, DC 20554. In addition to filing comments with the FCC, interested parties should serve the petitioner, as follows: Daniel R. Feely, 682 Palisade Street, Pasadena, California 91103.

FOR FURTHER INFORMATION CONTACT: Rolanda F. Smith, Media Bureau, (202) 418-2180.

SUPPLEMENTARY INFORMATION: This is a summary of the Commission's Notice of Proposed Rule Making, MB Docket No. 03-182, adopted July 30, 2003, and released August 1, 2003. The full text of this Commission decision is available for inspection and copying during normal business hours in the Commission's Reference Center 445 Twelfth Street, SW., Washington, DC 20554. The complete text of this decision may also be purchased from the Commission's duplicating contractor, Qualex International Portals II, 445 12th Street, SW., Room CY-B402, Washington, DC 20554, telephone 202-

863-2893, facsimile 202-863-2898, or via e-mail qualexint@aol.com.

Provisions of the Regulatory Flexibility Act of 1980 do not apply to this proceeding.

Members of the public should note that from the time a Notice of Proposed Rule Making is issued until the matter is no longer subject to Commission consideration or court review, all *ex parte* contacts are prohibited in Commission proceedings, such as this one, which involve channel allotments. See 47 CFR 1.1204(b) for rules governing permissible *ex parte* contact.

For information regarding proper filing procedures for comments, see 47 CFR 1.415 and 1.420.

List of Subjects in 47 CFR Part 73

Radio, Radio broadcasting.

For the reasons discussed in the preamble, the Federal Communications Commission proposes to amend 47 CFR part 73 as follows:

PART 73—RADIO BROADCAST SERVICES

1. The authority citation for part 73 continues to read as follows:

Authority: 47 U.S.C. 154, 303, 334 and 336.

§ 73.202 [Amended]

2. Section 73.202(b), the Table of FM Allotments under California, is amended by adding Channel 287A at Cambria.

Federal Communications Commission.

John A. Karousos,

Assistant Chief, Audio Division, Media Bureau.
