DEPARTMENT OF LABOR

Employment and Training Administration

Notice of Determinations Regarding Eligibility To Apply for Worker Adjustment Assistance

In accordance with Section 223 of the Trade Act of 1974, as amended, (19 U.S.C. 2273), the Department of Labor herein presents summaries of determinations regarding eligibility to apply for trade adjustment assistance for workers (TA-W) number and alternative

trade adjustment assistance (ATAA) by (TA-W) number issued during the period of September 2003.

In order for an affirmative determination to be made and a certification of eligibility to apply for directly-impacted (primary) worker adjustment assistance to be issued, each of the group eligibility requirements of Section 222(a) of the Act must be met.

I. Section (a)(2)(A) all of the following must be satisfied:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. The sales or production, or both, of such firm or subdivision have decreased absolutely; and

C. Increased imports of articles like or directly competitive with articles produced by such firm or subdivision have contributed importantly to such workers' separation or threat of separation and to the decline in sales or production of such firm or subdivision; or

II. Section (a)(2)(B) both of the following must be satisfied:

A. A significant number or proportion of the workers in such workers' firm, or an appropriate subdivision of the firm, have become totally or partially separated, or are threatened to become totally or partially separated;

B. There has been a shift in production by such workers' firm or subdivision to a foreign country of articles like or directly competitive with articles which are produced by such firm or subdivision; and

C. One of the following must be satisfied:

1. The country to which the workers' firm has shifted production of the articles is a party to a free trade agreement with the United States;

2. The country to which the workers' firm has shifted production of the articles to a beneficiary country under the Andean Trade Preference Act, African Growth and Opportunity Act, or the Caribbean Basin Economic Recovery Act; or

3. There has been or is likely to be an increase in imports of articles that are like or directly competitive with articles which are or were produced by such firm or subdivision.

Also, in order for an affirmative determination to be made and a certification of eligibility to apply for worker adjustment assistance as an adversely affected secondary group to be issued, each of the group eligibility requirements of Section 222(b) of the Act must be met.

(1) Significant number or proportion of the workers in the workers' firm or an appropriate subdivision of the firm have become totally or partially separated, or are threatened to become totally or partially separated;

(2) The workers' firm (or subdivision) is a supplier or downstream producer to a firm (or subdivision) that employed a group of workers who received a certification of eligibility to apply for trade adjustment assistance benefits and such supply or production is related to the article that was the basis for such certification; and

(3) Either—

(A) The workers' firm is a supplier and the component parts it supplied for the firm (or subdivision) described in paragraph (2) accounted for at least 20 percent of the production or sales of the workers' firm; or

(B) A loss or business by the workers' firm with the firm (or subdivision) described in paragraph (2) contributed importantly to the workers' separation or threat of separation.

Negative Determinations for Worker Adjustment Assistance

In the following cases, the investigation revealed that the criteria for eligibility have not been met for the reasons specified.

The investigation revealed that criteria (a)(2)(A)(I.C.) (Increased imports) and (a)(2)(B)(II.B) (No shift in

Negative Determinations for Alternative Trade Adjustment Assistance

In order for the Division of Trade Adjustment Assistance to issue a certification of eligibility to apply for Alternative Trade Adjustment Assistance (ATAA) for older workers, the group eligibility requirements of Section 246(a)(3)(A)(ii) of the Trade Act must be met.

In the following cases, it has been determined that the requirements of Section 246(a)(3)(ii) have not been met for the reasons specified.

Since the workers are denied eligibility to apply for TAA, the workers cannot be certified eligible for ATAA.

W-Phone, Inc., Highlands Ranch, CO; Notice of Termination of Investigation

Pursuant to Section 221 of the Trade Act of 1974, an investigation was initiated on September 2, 2003 in response to a worker petition which was filed on behalf of workers at W-Phone, Inc., Highlands Ranch, Colorado.

All workers were separated from the subject firm more than one year before the date of the petition. Section 223(b) of the Act specifies that no certification may apply to any worker whose last separation occurred more than one year before the date of the petition. Consequently, further investigation in this case would serve no purpose, and the investigation has been terminated.

Signed in Washington, DC, this 8th day of September 2003.

Richard Church,

Certifying Officer, Division of Trade Adjustment Assistance.

White Rodgers, Coils Division, A Division of Emerson, Harrison, Arkansas; and White Rodgers, Air Cleaners Division, A Division of Emerson, Harrison, Arkansas; Notice of Negative Determination Regarding Application for Reconsideration

By application of June 19, 2003, a company official requested administrative reconsideration of the Department's negative determination regarding eligibility for workers and former workers of the subject firm to apply for Trade Adjustment Assistance (TAA). The denial notice was signed on June 4, 2003 and published in the **Federal Register** on April 24, 2003 (68 FR 36847).

Pursuant to 29 CFR 90.18(c) reconsideration may be granted under the following circumstances:

(1) If it appears on the basis of facts not previously considered that the determination complained of was erroneous;

(2) If it appears that the determination complained of was based on a mistake

in the determination of facts not previously considered; or

(3) If in the opinion of the Certifying Officer, a mis-interpretation of facts or of the law justified reconsideration of the decision.

The TAA petition, filed on behalf of workers at White Rodgers, Coils Division, a division of Emerson, Harrison, Arkansas (TA-W-51,455A) engaged in the production of coils, and on behalf of workers at White Rodgers, Air Cleaner Division, a division of Emerson, Harrison, Arkansas (TA-W-51,455C) were denied because the "contributed importantly" group eligibility requirement of Section 222(3) of the Trade Act of 1974 was not met and production was not shifted abroad.

The company official who filed the reconsideration request stated that, in regard to the Coils Division, production at the subject division was dependent on other divisions being adjacent; once production phases that preceded coil production (injection molding used to wind coils), and followed coil production (gas valves that incorporated the coils) were shifted from the subject division site, it became necessary to move the coil production to another domestic location. As a result, the official contends, the coil production was impacted by a shift of production to Mexico.

Contact with another company official confirmed what had been established in the initial investigation, which was that production at the Coils Division shifted exclusively to a domestic site. It was also revealed that, although competitive production does occur at an affiliate in Mexico, there was no evidence of a shift from the subject facility to the Mexican affiliate or any U.S. imports resulting from this or any other foreign production.

The company official who filed the reconsideration request also stated that, in regard to the Air Cleaner Division, (TA-W-51-455C) production had been shifted to Mexico in June of 2003.

Follow up contact with the company revealed that the majority of production was shifted from the Air Cleaner Division in Harrison, Arkansas to Mexico. However, the shift began outside of the relevant period of this investigation. The petitioners are thus encouraged to file a new petition on behalf of workers at the Air Cleaner Division, thereby creating a relevant period of investigation that would include changing conditions.

Conclusion

After review of the application and investigative findings, I conclude that there has been no error or
