Modification of Class E Airspace; Hampton, IA

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Direct final rule; request for comments.

SUMMARY: This action modifies Class E airspace at Hampton, IA. The Hampton NDB is a navigational aid serving Hampton Municipal Airport, IA and is used in the legal description of the Hampton, IA Class E airspace area. This action corrects the discrepancy by modifying the Hampton, IA Class E airspace area and incorporating the revised location of the Hampton NDB in the Class E airspace legal description.

EFFECTIVE DATE: This direct final rule is effective on 0901 UTC, July 20, 2003.

SUPPLEMENTARY INFORMATION: This amendment to 14 CFR 71 modifies the Class E airspace area extending upward from 700 feet above the surface of the earth at Hampton, IA. An examination

of controlled airspace for Hampton, IA revealed a discrepancy in the location of the Hampton NDB which is used in the legal description of the Hampton, IA Class E airspace area. This amendment incorporates the revised Hampton NDB location and brings the legal description of the Hampton, IA Class E airspace area into compliance with FAA Order 7400.2E, Procedures for Handling Airspace Matters. The area will be depicted on appropriate aeronautical charts. Class E airspace areas extending upward from 700 feet or more above the surface of the earth published in Paragraph 6005 of FAA Order 7400.9K, dated August 30, 2002, and effective September 16, 2002, which is incorporated by reference in 14 CFR 71.1. The Class E airspace designation listed in this document will be published subsequently in the Order.

Unless a written adverse or negative comment, or a written notice of intent to submit an adverse or negative comment is received within the comment period, the regulation will become effective on the date specified above. RIN 2105-AD24

Extension of Computer Reservations Systems (CRS) Regulations

AGENCY: Office of the Secretary, Department of Transportation.

ACTION: Final rule.

SUMMARY: The Department is amending its rules governing airline computer reservations systems (CRSs), by changing the rules' expiration date from March 31, 2003, to January 31, 2004. If the expiration date were not changed, the rules would terminate on March 31, 2003. This extension of the current rules will keep them in effect while we complete our reexamination of the need for CRS regulations. Some or all of the rules may no longer be necessary, but the Department will maintain the current rules until January because they may be beneficial. The Department may determine in its reexamination that the need for most or all of the rules has ended. The Department has previously extended the rules from their original December 31, 1997, expiration date, most recently to March 31, 2003.

DATES: This rule is effective on March 31, 2003.
