

ADDRESSES: Copies of the CCP are available on compact disk or in hard copy, and can be obtained by writing: U.S. Fish and Wildlife Service, Attn: Yvette Truitt-Ortiz, Division of Planning, P.O. Box 1306, Albuquerque, New Mexico, 87103.

FOR FURTHER INFORMATION CONTACT: Wayne A. Shifflett, Refuge Manager, Buenos Aires National Wildlife Refuge, P.O. Box 109, Sasabe, Arizona 85633; phone 520-823-4251; or Yvette Truitt-Ortiz, Natural Resource Planner, U.S. Fish and Wildlife Service, Division of Planning, P.O. Box 1306, Albuquerque, New Mexico, 87103; phone 505-248-6452; e-mail: Yvette_TruittOrtiz@fws.gov.

SUPPLEMENTARY INFORMATION: A CCP is required by the National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd *et seq.*). The purpose in developing CCPs is to provide refuge managers with a 15-year strategy for achieving refuge purposes and contributing toward the mission of the National Wildlife Refuge System, consistent with sound principles of fish and wildlife science, conservation, legal mandates, and Service policies. In addition to outlining broad management direction on conserving wildlife and their habitats, the CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. These CCPs will be reviewed and updated at least every 15 years in accordance with the National Wildlife Refuge System Administration Act of 1966, as amended by the National Wildlife Refuge System Improvement Act of 1997 (16 U.S.C. 668dd *et seq.*), and the National Environmental Policy Act of 1969.

Dated: November 21, 2003.

Geoffrey L. Haskett,

Acting Regional Director, Fish and Wildlife Service, Albuquerque, New Mexico.

BILLING CODE 4310-55-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[CA-660-04-1150-JP]

Restrictions on Use of Public Lands; California

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of closure.

SUMMARY: This notice closes to casual use certain public lands managed by the Bureau of Land Management (BLM) in the Santa Rosa and San Jacinto Mountains National Monument, in order to prevent hikers and other visitors from accessing ridges that overlook bighorn sheep breeding pens on the property of the Bighorn Institute.

EFFECTIVE DATE: December 4, 2003.

ADDRESSES: Send inquiries or suggestions to the Santa Rosa and San Jacinto Mountains National Monument, Palm Springs Field Office, Bureau of Land Management, 690 W. Garnet, PO Box 581260, North Palm Springs, CA 92258-1260.

FOR FURTHER INFORMATION CONTACT: Danella George, Santa Rosa and San Jacinto Mountains National Monument Manager, (760) 251-4800.

SUPPLEMENTARY INFORMATION:

I. Background

On February 13, 2003, the U.S. Fish and Wildlife Service issued a Biological Opinion (FWS-ERIV-3354.1), in accordance with section 7 of the Endangered Species Act of 1973, as amended, addressing effects on the endangered Peninsular Ranges bighorn sheep (*Ovis canadensis*) from a proposed joint trails and recreation use plan prepared by the City of Palm Desert and the Bureau of Land Management (the joint plan). As part of the proposed action, and consistent with the Biological Opinion, the City of Palm Desert (City) and the Bureau of Land Management (BLM) agreed to close portions of City and BLM-managed public lands to recreation and casual use to prevent hikers from accessing ridges that overlook bighorn sheep breeding pens on the property of the Bighorn Institute.

The population of bighorn sheep in the United States' Peninsular Ranges was listed as an endangered species on March 18, 1998. The Recovery Plan for Bighorn Sheep in the Peninsular Ranges, California, was issued on October 25, 2000. On October 25, 2000, the Santa Rosa and San Jacinto Mountains National Monument was established by an Act of Congress that was signed into law by President Clinton (Pub. L. 106-351). BLM completed the California Desert Conservation Area Plan Amendment for the Coachella Valley (Coachella Valley Plan) on December 27, 2002. The Coachella Valley Plan covered portions of the Santa Rosa and San Jacinto Mountain National Monument and addresses recovery of the bighorn sheep.

Because bighorn sheep evolved with canine predators, they are particularly sensitive to the presence of dogs. This has created a conflict between bighorn sheep conservation management and recreational use of public lands. In 2000, BLM issued a temporary closure of public lands prohibiting dogs in designated critical bighorn sheep habitat, except in a few designated areas. Recreational hiking with dogs had been a popular use on City owned lands and public lands south of the Santa Rosa and San Jacinto Mountains National Monument Visitor Center on Highway 74. This situation caused a conflict with the Bighorn Institute, a captive bighorn sheep breeding facility located north of the Visitor Center. The director of the Bighorn Institute expressed concern over the nearness of dogs south of the Visitor Center and requested that they be moved to a different location. BLM and the City proposed to construct a loop trail south of the Visitor Center that would be off-limits to dogs, and to construct an additional trail, open to hikers with dogs, on the west side of Highway 74 that would connect the City's Homme-Adams Park with the Cahuilla Hills Park. Dogs would be allowed on the Homme-Adams Park Trail and Cahuilla Hills Park Trail. Under agreements with the Bighorn Institute and the City, BLM proposed to discourage hiking access by reclaiming an unauthorized road and enforce a closure along the saddle immediately south of the BLM property line that leads to an overlook on BLM lands above the Bighorn Institute's sheep pens. The proposed action for trail realignments, new trail construction, and blocking access to the ridge overlooking the Bighorn Institute was analyzed under an environmental assessment (*Homme-Adams and Visitor Center Trail Loops, EA-660-03-08*). The BLM initiated consultation with the U.S. Fish and Wildlife Service (Service) on the effects of the proposed project on the endangered Peninsular Ranges bighorn sheep, in accordance with section 7 of the Endangered Species Act of 1973, as amended (ESA), on December 30, 2002. The Service issued a Biological Opinion based on the BLM and City environmental assessments, information in Service files, and on information and agreements obtained in meetings, telephone conversations, and e-mails prior to and during the consultation period. Under the Terms and Conditions of the Biological Opinion, and to meet the requirement of section 9 of the ESA, the BLM must take reasonable and prudent measures to minimize the impact of incidental take

by minimizing the adverse effects of human disturbance to wild and captive bighorn sheep, through the proposed actions referenced in EA-660-03-08. These actions include BLM and City commitments: (1) To block human access to the old "Shirley" road on their lands through a combination of signage, fencing and physical barriers, including deconstructing and recontouring the road sufficient to discourage access and reinforce the closure along the saddle immediately south of the BLM property line that leads to an overlook on BLM lands of the Bighorn Institute's sheep pens, and (2) to employ a progressive management strategy to prevent hiking off the designated trail system and towards or overlooking captive sheep in the Bighorn Institute pens, including signage, stricter enforcement and penalties when legally feasible, physical barriers and fencing at strategic locations. The BLM issued a Decision Record to implement the proposed action, including the Terms and Conditions of the Biological Opinion, on March 7, 2003. The City issued an ordinance (Ordinance No. 1034) and a resolution (Resolution No. 03-12), approving construction of a new trail and closing portions of City lands between the National Monument Visitor Center and the ridge overlooking the Bighorn Institute, on January 23, 2003 (mitigation measures B-5 and B-6).

II. Closure

In compliance with 43 CFR 8364.1(c), notice is hereby given that BLM is closing portions of public lands in the Santa Rosa and San Jacinto Mountains National Monument. The public lands hereby closed are those lands within the north 1/2 of the north 1/2 of Section 7, Township 6 South, Range 6 East, San Bernardino Meridian (SBM). These restrictions will be in effect year-round from December 4, 2003 until rescinded by the authorized officer. The order to close these lands is needed to protect the resources of the public lands and to minimize conflicts among various uses of the public lands.

BLM finds good cause to publish this closure notice effective the date of publication and without providing for public comment due to the immediate need to protect the Peninsular Range bighorn sheep from the stress that is likely to be caused by recreational use of land overlooking their captive breeding pens. A 30-day public comment on the subject of this action began on December 30, 2002, through publication of an environmental assessment (*Homme-Adams and Visitor Center Trail Loops*, EA-660-03-08). A Biological Opinion issued by the U.S.

Fish and Wildlife Service on February 13, 2003 (FWS-ERIV-3354.1) supported BLM's proposed action as a reasonable and prudent measure to minimize the adverse effects of human disturbance to wild and captive bighorn sheep. All public comments received were considered prior to BLM's issuance of its Decision Record (DR) on March 7, 2003. BLM provided the public notification of this DR and the procedures for appeals through a news release issued March 11, 2003. No appeals were filed. Furthermore, the public was fully involved in the development of the joint plan. Also, the regulations on Closures and Restrictions at 43 CFR 8364.1 do not require publication of a request for comments.

The BLM lands covered by this closure order cannot be accessed except by crossing closed City lands. In compliance with the proposed action described in *Homme-Adams and Visitor Center Trail Loops*, EA-660-03-08, the Biological Opinion (FWS-ERIV-3354.1) dated February 13, 2003, and the City of Palm Desert ordinance, BLM hereby closes the described public lands to recreational and casual use. Any person who fails to comply with this order may be subject to the penalties provided in CFR 8360.0-7.

III. Exceptions

The following are exempt from this order: (1) fire, emergency, or law enforcement personnel when engaged in emergency or patrol activities; and (2) persons or uses expressly authorized by BLM.

Dated: October 30, 2003.

Linda Hansen,

California Desert District Manager.

BILLING CODE 4310-40-P

DEPARTMENT OF THE INTERIOR

National Park Service

30-Day Federal Register Notice of Submission of Network to Freedom Application Package to Office of Management and Budget; Opportunity for Public Comment

AGENCY: Department of the Interior, National Park Service, National Underground Railroad Network to Freedom Program.

ACTION: Notice and request for comments.

SUMMARY: Under the provisions of the Paperwork Reduction Act of 1995 (Pub. L. 104-13, 44 U.S.C. 3507) and 5 CFR part 1320, Reporting and Recordkeeping

Requirements, the National Park Service (NPS) invites comments on a submitted request to the Office of Management and Budget (OMB) to approve an extension of a currently approved information collection clearance (OMB 1024-0232). Comments are invited on (1) the need for the information including whether the information has practical utility; (2) the accuracy of this reporting burden estimate; (3) ways to enhance the quality, utility, and clarity of the information to be collected on respondents, including the use of automated collection techniques or other forms of information technology. This program will measure performance in meeting goals as required by the 1995 Government Performance and Results Act.

Public Law 105-203 authorizes the NPS to develop and administer the National Underground Railroad Network to Freedom (Network), a nationwide collection of governmental and nongovernmental sites, facilities, and programs associated with the historic Underground Railroad movement. The NPS has developed the application process through which associated elements can be included in the Network. The information collected will: (a) Verify associations to the Underground Railroad, (b) Measure minimum levels of standards for inclusion in the Network, and (c) Identify general needs for technical assistance.

The purpose of the proposed ICR is to evaluate sites, facilities, and programs that are applying for inclusion in the National Underground Railroad Network to Freedom. The information will be used by the NPS to determine if candidates seeking inclusion in the Network meet the minimum criteria. There were no public comments received as a result of publishing in the **Federal Register** a 60-day notice of intention to request clearance of information collection for this survey.

DATES: Public Comments on the proposed ICR will be accepted on or before January 5, 2004, to be assured of consideration. The Office of Management and Budget (OMB) has up to 60 days to approve or disapprove the information collection but may respond after 30 days. Therefore to ensure maximum consideration, OMB should receive comments 30 days from the date of publication in the **Federal Register**.

ADDRESSES: You may submit comments directly to Ms. Ruth Solomon, Desk Officer for the Department of the Interior (OMB 0124-0232), Office of Information and Regulatory Affairs, OMB, by fax at 202-395-6566 or by
