Additional copies of such petitions to intervene or protest also should be filed directly with Mark E. Caskey P.E., General Manager, Sharyland Utilities, L.P., 4403 West Military Highway, Suite 700, McAllen, TX 78503 AND Richard P. Noland, James M. Before a Presidential permit may be issued or amended, the DOE must determine that the proposed action will not adversely impact on the reliability of the U.S. electric power supply system. In addition, DOE must consider the environmental impacts of the proposed action (*i.e.*, granting the presidential permit, with any conditions and limitations, or denying the permit) pursuant to NEPA. DOE also must obtain the concurrence of the Secretary of State and the Secretary of Defense before taking final action on a Presidential permit application.

The NEPA compliance process is a cooperative, non-adversarial process involving members of the public, state governments and the Federal government. The process affords all persons interested in or potentially affected by the environmental consequences of a proposed action an opportunity to present their views, which will be considered in the preparation of the environmental documentation for the proposed action. Intervening and becoming a party to this proceeding will not create any special status for the petitioner with regard to the NEPA process. To apply for the NEPA mailing list now, contact Mrs. Ellen Russell at the address above.

Copies of this application will be made available, upon request, for public inspection and copying at the address provided above. In addition, the application may be viewed or downloaded from the Office of Fossil Energy Web site at <http://www.fe.doe.gov>. Upon reaching the Fossil Energy home page, select "Electricity Regulation" and then "Pending Proceedings" from the options menu.
