

location and size of helium reserves. The well name is registered with the state and identifies the specific well from where the gas sample came. This information provides both the owner and BLM a reference so that any further questions that arise concerning the gas sample can be specifically referred to a certain well. Each well in the United States is assigned a unique number based on guidelines from the American Petroleum Institute (API). This number is essential to assure that wells with similar names are not confused.

(E) *Location and Owner*: We need the legal description of the location of the well. This information will help to locate the well on maps of the area and other features, both surface and subsurface, and to determine helium reserves. The owner's name and address are necessary to report analyses results and for further correspondence.

(F) *Sampled By*: This information provides the name of the person taking the gas sample and allows verification of well and sampling conditions if any questions arise concerning the gas sample.

(G) *Date Completed and Date Sampled*: This information refers to the date the well was ready for production. This information is necessary to determine if this is an older producing well or a recently completed well. An older producing well will have production and pressure records available within the company and at state agencies that are of great value to evaluate the helium reserves. The date sampled is important because we search the records to determine under what conditions the gas sample was taken if any questions arise concerning the gas sample.

(H) *Elevation*: This information refers to the elevation of the Kelly Bushing or ground level elevation on the drilling rig. This information is necessary because most wireline logs, mud logs, and other references to the depth of the well are made with the Kelly Bushing data. The elevation will assist to classify the geologic horizons penetrated by the well, and give some true depth in relation to sea level data.

(I) *Name of Producing Formation and Geological Age of Producing Formation*: This information is necessary to classify the subsurface source of the gas sample and to consider other producing zones in the field or area.

(J) *Depth (Feet) of Producing Formation and Thickness (Feet)*: This information is necessary to consider the producing zones with those in other fields or wells. Thickness of the producing zone is an essential factor to

determine the volume of helium reserves presently in a reservoir.

(K) *Shut-In Wellhead Pressure and Open Flow*: This information is necessary to determine the reserves of helium and the adequacy of a well to produce sufficient process gas to a helium extraction plant. Shut-in wellhead pressure is essential to estimate the helium reserves. Open flow is the capacity of the well to produce gas. BLM uses this information to determine if the process gas volumes are available.

Without this information, the location and development of helium reserves could not be done, long range helium production and conservation could not be carried out, and an assured supply of helium to the Federal Government would not be available.

Based on our experience administering the activities described above, we estimate the public reporting burden is 15 minutes per response to supply the required information. The respondents are owners and operators of helium-bearing natural gas wells and transmission lines. The frequency of response is annual. We estimate 200 responses per year and a total annual burden of 50 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: February 13, 2003.

Michael H. Schwartz,

Bureau of Land Management, Information Collection Clearance Officer.

BILLING CODE 4310-84-M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[NV-960-1060-PF-24 1A]

Extension of Approved Information Collection, OMB Control Number 1004-0042

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is requesting the Office of Management and Budget (OMB) to extend an existing approval to collect certain information from those individuals requesting to adopt a wild horse or burro (43 CFR part 4750). BLM uses Form 4710-10, Application for Adoption of Wild

Horse(s) or Burro(s), to collect this information. This information allows BLM to determine whether or not an individual qualifies to provide humane care and proper treatment, including transportation, feeding and handling, to an adopted wild horse or burro.

DATES: You must submit your comments to BLM at the address below on or before May 6, 2003. BLM will not necessarily consider any comments received after the above date.

ADDRESSES: You may mail comments to: Bureau of Land Management (WO-630), Eastern States Office, 7450 Boston Blvd., Springfield, Virginia 22153.

You may send comments via Internet to: *WOCComment@blm.gov*. Please include "ATTN: 1004-0042" and your name and return address in your Internet message.

You may deliver comments to the Bureau of Land Management, Administrative Record, Room 401, 1620 L Street, NW., Washington, DC.

All comments will be available for public review at the L Street address during regular business hours (7:45 a.m. to 4:15 p.m.), Monday through Friday.

FOR FURTHER INFORMATION CONTACT: You may contact Bea Wade, on (775) 861-6583 (Commercial or FTS). Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8330, 24 hours a day, seven days a week, to contact Ms. Wade.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires BLM to provide 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Section 3(b)(2)(B) of the Wild Free-Roaming Horse and Burro Act requires that BLM provide for individuals to adopt wild horses and burros whom the Secretary determines are qualified to provide humane care and proper treatment. The regulations are found at

43 CFR Subpart 4750—Private Maintenance. Applicants submit Form 4710–10, Application for Adoption of Wild Horse(s) and Burro(s), to adopt wild horses and burros.

BLM requests the following information on Form 4710–10:

(A) The applicant's name, address, and telephone number to further communicate about the adoption.

(B) For possible debt collection purposes, the driver's license number to locate the adopter if the adopter changes his/her address within the state and does not leave a forwarding address. Wild horses and burros remain the property of the United States until title passes to private individuals. During the period between adoption and the passing of title, BLM is under obligation to see that the animals receive human care and proper treatment. For that reason, BLM visits and contacts the adopter to determine that status and condition of the animals. BLM uses this information to also determine the location and condition of animals if the adopter should change the location of the animals within the State.

(C) The birth date of the applicant to assure that the applicant qualifies to adopt an animal under 43 CFR 4750.3–2 (must be at least 18 years or older).

(D) The applicant's social security number. In those states where the driver's license and social security numbers are the same, the applicant needs only his/her driver's license number. BLM uses this information for possible debt collection purposes and to track the location of the adopter if the adopter moves out-of-state.

(E) The applicant must indicate the number and species of animals the adopter wishes to adopt so we can determine the availability of the animals requested.

(F) The applicant must provide a map of the location where the adopted animals will be located so that we can conduct inspections of the facility and the animals to ensure compliance under 43 CFR 4750.3–2 relating to private maintenance.

(G) The applicant must understand the restrictions related to adopting a wild horse or burro.

(H) BLM needs the information on the site where the animals are kept to assure that the facilities provide for humane care and comply with the private maintenance regulations located at 43 CFR 4750.3–2.

(I) The applicant must sign a Private Maintenance and Care Agreement (a part to the Form 4710–10) after BLM approves the application to adopt a wild horse or burro.

BLM uses the information to determine whether individuals are qualified to provide humane care and proper treatment to one or more adopted animals. When BLM approves the application and the individual completes a Private Maintenance and Care Agreement, the individual may adopt one to four wild horses or burros at one time. There is no other source for the required information, and failure to furnish the required information will result in the applicant's denial to adopt a wild horse or burro.

The collection of information is short, simple and does not inconvenience the applicant. Valuable dialogue normally occurs during the approval process when BLM conducts an interview with the applicant to ensure that the applicant understands the obligations and prohibited acts and is knowledgeable about horses and burros or has access to assistance from a knowledgeable individual.

Based on BLM's experience in administering the activities described above, we estimate the public reporting burden is 10 minutes per response to complete the required information. We estimate 30,000 responses per year and a total annual burden of 5,000 hours.

BLM will summarize all responses to this notice and include them in the request for OMB approval. All comments will become a matter of public record.

Dated: February 13, 2003.

Michael H. Schwartz,

Bureau of Land Management, Information Collection Clearance Officer.

BILLING CODE 4310–84–M

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[HE–952–9911–EK]

Extension of Approved Information Collection, OMB Control Number 1004–0179

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, the Bureau of Land Management (BLM) is requesting the Office of Management and Budget (OMB) to extend an existing approval to collect helium sales information from Federal agencies and helium suppliers. BLM uses the In-Kind Crude Helium Sales Contract and nonform information from the

regulations at 43 CFR 3195 to collect this information. This information allows BLM to monitor reporting and recordkeeping of crude helium sales and purchases.

DATES: You must submit your comments to BLM at the address below on or before May 6, 2003. BLM will not necessarily consider any comments received after the above date.

ADDRESSES: You may mail comments to: Bureau of Land Management, (WO–630), Eastern States Office, 7450 Boston Blvd., Springfield, Virginia 22153.

You may send comments via Internet to: WOCComment@blm.gov. Please include “ATTN: 1004–0179” and your name and return address in your Internet message.

You may deliver comments to the Bureau of Land Management, Administrative Record, Room 401, 1620 L Street, NW., Washington, DC 20036.

All comments will be available for public review at the L Street address during regular business hours (7:45 a.m. to 4:15 p.m., Monday through Friday).

FOR FURTHER INFORMATION CONTACT: You may contact Connie H. Neeley, Crude Helium Sales Analyst, on (806) 324–2635 (Commercial or FTS). Persons who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service on 1–800–877–8330, 24 hours a day, seven days a week, to contact Ms. Neely.

SUPPLEMENTARY INFORMATION: 5 CFR 1320.12(a) requires that we provide a 60-day notice in the **Federal Register** concerning a collection of information to solicit comments on:

(a) Whether the collection of information is necessary for the proper functioning of the agency, including whether the information will have practical utility;

(b) The accuracy of our estimates of the information collection burden, including the validity of the methodology and assumptions we use;

(c) Ways to enhance the quality, utility, and clarity of the information collected; and

(d) Ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The Helium Privatization Act of 1996 requires the Department of Defense, the Atomic Energy Commission, the National Aeronautics and Space Administration, and other Federal agencies to purchase major helium requirements from authorized contractors. These contractors must
